To all students, faculty, and staff members of Hokkaido University

Thank you for your cooperation in preventing the spread of COVID-19.
The number of positive cases nationwide, including Hokkaido, has been decreasing significantly since September. At the University, there have been no reports of new cases as of today since the Alert Level was lowered to Level 1 on November 1, 2021.
As we approach the end of the year and welcome in a new year, the risk of infection may become greater as indoor activities increase due to events and other activities. We ask every member of the University community to continue efforts to prevent the spread of COVID-19 and follow the instructions in the Hokkaido University Business Continuity Plan During Coronavirus Outbreak: Response Plan at Alert Level 1.
