

Co-organizers: Center for Experimental Research in Social Sciences, Research Development Section, Office for Enhancing Institutional Capacity & Hokkaido University Library
In cooperation with Graduate School of Letters, Hokkaido University

Academic Writing Skills Seminar

for Graduate Students & Young Researchers

This seminar is targeted at PhD students and researchers in Social Sciences, Art & Humanities and related areas. It covers the topics, such as the psychological aspects of a successful writer, specific tips on how to write an abstract, a good query letter to the journal editor, how to select journal to submit to, as well as how you should structure your article. The seminar also provides useful information on various services and schemes related to publishing in English offered by Hokudai including the information on application for inaugural SAGE Hokkaido award. Participants from other disciplines are also welcome.

Prior registration required. <http://www.lib.hokudai.ac.jp/2015/10/16/35148/>

Academic Writing Skills Seminar

for Graduate Students & Young Researchers

There will be two workshops targeted for graduate students and researchers in both Life Sciences & Medicine, and Natural Sciences & Engineering. The contents of these workshops are almost identical, but the examples used in the workshops are adopted to suit the specific disciplines. Participants from other disciplines are also welcome. The seminar is targeted at the graduate students and postdoctoral researchers who are in the process of writing articles for peer-reviewed journals. The topic of the workshop will include structure of the scientific paper, what you should write in the specific sections and what not, common errors in writing the article, tips to create the effective graphs & tables, and the review process of journals. The workshop also provides the information on the various services and schemes related to publishing in English provided by Hokudai.

Life Sciences & Medicine
