Aims of our SUJI Programs

Six-University Coordinative Service Learning Program at the Rural Communities in Japan and Indonesia

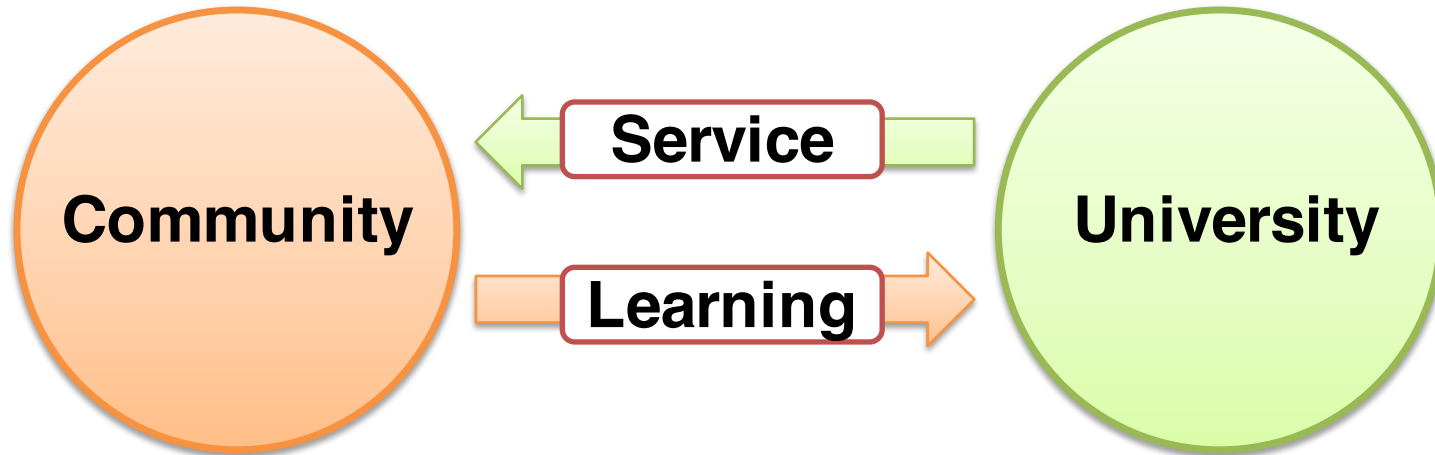

Aim

Training **Glocal-Minded ‘Servant Leaders’** who, will contribute to the sustainability for our future society mainly by supporting **rural communities** which play an important role in **primary industries**.

Outline of SUIJI Programs

Outstanding results of our SUIJI Programs

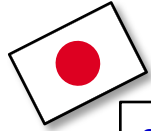

Glocal-minded Servant Leaders are growing...

- ✓ Aggressive attitude to communicate with each other to find a solution
- ✓ Strong motivation to learn and to achieve their research to improve their knowledge and skills.

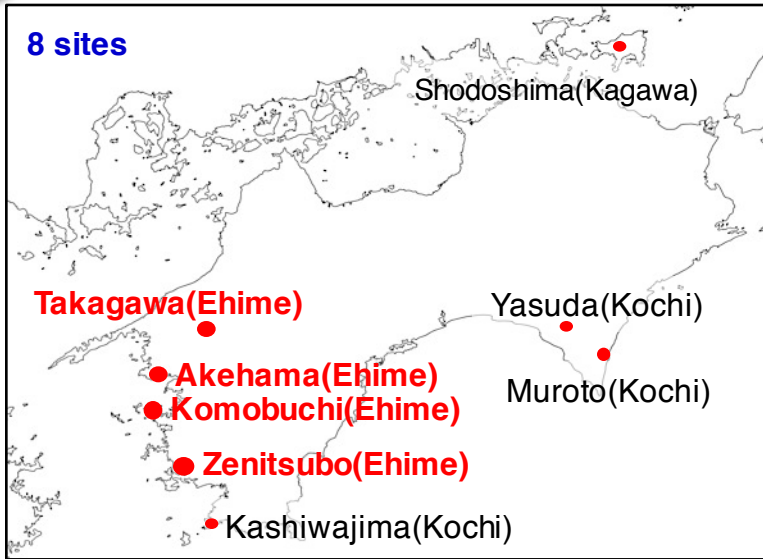

Advantage shared between the university and the community

- ✓ The mindset of the student/people shifted to outward oriented
- ✓ Encourage the people to challenge the problem by respecting diverse human values
