

PhD students
&
Postdocs

Thursday

June 9th

12:00 - 13:00

Lunch Talk

Office of International Affairs
Main Conference Room (#214)

Mr. Juha Tuisku, from Finland, will talk about his career in Japan and the Finnish Innovation platform DEMOLA (<http://www.demola.net/>). Finland is famous for creativity and innovation, and DEMOLA, a model supported by industries, universities and the government, is the leading platform for both. You can test your innovative skills to solve issues presented by the companies within the constantly growing DEMOLA network, which, in turn, may lead to establishing a close-tie relationship between you and your target companies.

Mr. Juha Tuisku
Hokkaido Liaison for
University of Oulu & University of Lapland

Light Lunch
will be
served!

- * The seminar will be conducted **in English**
