HOKKAIDO
UNIVERSITY

University Philosophies

Frontier Spirit

Our Frontier Spirit epitomizes the ideal that students, academics and administrative staff should resolutely take up their daily challenges with an eye to forging new paths. It has its origins in the words “lofty ambition” uttered by Dr. W. S. Clark during the opening ceremony of Sapporo Agricultural College. This basic philosophy has served as the foundation on which Hokkaido University has rested for more than a century. The twenty-first century frontier spirit manifests itself in our continued expansion of research in response to shifting academic paradigms and the new challenges facing humanity. Based on a firm foundation of academic freedom, Hokkaido University aims to encourage creative research that does not separate theory from practice, and to promote world-class studies to solve the problems confronting humankind. We will do so by dramatically improving our research and educational activities via the flexible organization of our graduate schools and other networks.

Global Perspectives

From its very start, Sapporo Agricultural College was always open to different world-views, introducing Western culture, science, and technology, and providing English-language lectures by foreign teachers. Ever since, many of our graduates have played active roles overseas, and our philosophy of the value of acquiring global perspectives has been passed down in many different forms. Needless to say, we must cultivate a better understanding of other cultures by enriching our liberal arts education, underpinned by an awareness of our own culture. By cultivating communication skills in foreign languages, we can better prepare ourselves for playing a more active role in the global arena. To help our students and staff acquire global perspectives and thus contribute to the development of an international society, Hokkaido University seeks to provide ample opportunities for study and research abroad. We actively encourage the admission of foreign students and researchers, and promote cultural and social exchanges with people in Asia, the northern regions, and throughout the rest of the world.

All-Round Education

Sapporo Agricultural College not only trained agricultural experts, but also produced graduates endowed with a rich humanity, lofty intellect, and broad range of knowledge. The results can be seen in the succession of outstanding thinkers and literary figures the college produced, including Kanzo Uchimura, Shigetaka Shiga, Inazo Nitobe, and Takeo Arishima. This philosophy of an all-around education has been handed down at Hokkaido University through our tradition of emphasizing a liberal arts education as the key to producing graduates armed with the well-rounded acuity and deep insights they need to apply their specialized knowledge. To further advance this philosophy, Hokkaido University seeks to provide an all-around education that will cultivate a rich humanity and lofty intellect, foster a spirit of freedom and independence, and encourage students to establish autonomous identities. We believe this kind of education produces graduates who respect human rights and have the basic abilities required to accurately respond to society's needs.

Practical Learning

Our philosophy of emphasizing practical learning acquired a dual significance in the course of the various hardships Sapporo Agricultural College overcame as it developed into today's comprehensive university. We view research as the process of creating universal learning that is integrated with the real world, and we seek to emphasize not only basic research but also focus on returning the fruits of our research to society by prioritizing its practical applications. The botanical research conducted by Kingo Miyabe and the research on snow by Ukichiro Nakaya, both carried out in the vast wilderness of Hokkaido, are outstanding examples of research on familiar topics that led to universal truths. Much of the research at Hokkaido University is developed in collaboration with regional industries. Hokkaido University intends to pursue a modern emphasis on practical learning, utilizing absolute truths that are grounded in the real world. By making full use of Hokkaido's unique characteristics and expanding our collaborations within government, industry, and academia, we aim to give back the fruits of our research to Hokkaido, Japan, and the rest of the world. In addition, Hokkaido University strives to produce leading experts and professionals in our graduate schools, and to improve our adult education program.

History

Sapporo Agricultural College (1876–1907)

1876	7	Dr. William S. CLARK, then President of Massachusetts Agricultural College in the Unites States invited to be Vice President of Sapporo Agricultural College. He arrives in Sapporo with two American professors, W. WHEELER and D. PENHALLOW, and eleven American students.
	8	Sapporo Agricultural College inaugurated. Hokkaido University celebrates its founding anniversary on August 14.
	9	Hirotake CHOSHO named President of Sapporo Agricultural College.
	12	The Book-Stack Room (later the College Library) opens.
1878	10	The Martial Arts Training Facility (current Sapporo Clock Tower) constructed.
1881	2	Genzo MORI, then Hokkaido Development Commissioner, acts as College President.
1886	7	The Botanical Garden constructed.
	12	Hideaki SATO named Administrative Officer of Hokkaido Prefectural Government and Acting College President.
1887	3	Shosuke SATO named Acting President.
1888	12	Bunzo HASHIGUCHI named President.
1891	8	Shosuke SATO named Assistant President.
1894	4	Shosuke SATO named President.

Tohoku Imperial University (1907-1918)

1907	9	Sapporo Agricultural College becomes the Agricultural College of Tohoku Imperial University and adds preparatory courses. It is inaugurated on September 11. The Book-Stack Room renamed the College Library. Shosuke SATO named Dean of the Agricultural College of Tohoku Imperial University.
1909	2	<i>Oshoro-maru</i> built as a new training ship.

Hokkaido Imperial University (1918-1947)

1918	4	The Agricultural College of Tohoku Imperial University transferred to the newly established Hokkaido Imperial University, becoming the Agricultural College of Hokkaido Imperial University. Shosuke SATO named President of Hokkaido Imperial University and Dean of its Agricultural College.
1919	2	The Agricultural College of Hokkaido Imperial University renamed the School of Agriculture in Hokkaido Imperial University. The School of Medicine established.
1921	4	The Medical Clinic attached to the School of Medicine established (becomes operational in November 1921).
1922	5	The College Library renamed the Hokkaido University Library.
1924	9	The School of Engineering established.
1930	4	The School of Science established.
	12	Takajiro MINAMI named President.
1933	12	Kumao TAKAOKA named President.
1937	12	Yutaka KON named President.
1941	11	The Institute of Low Temperature Science established.
1943	2	The Institute of Catalysis Research established. The Institute of VHF Research established.
1945	7	The Administrative Office and the Student Affairs Office established.
	11	Seiya ITO named President.
1946	3	The Institute of VHF Research renamed the Institute of Applied Electronics Research.
1947	4	The School of Law and Letters established.

Hokkaido University (1947-2004)

1947	10	Hokkaido Imperial University renamed Hokkaido University.
1949	5	Under the National School Establishment Law, Hokkaido University reorganized into the new Hokkaido University with schools of law and letters, education, science, medicine, engineering, agriculture, and fisheries sciences (Hakodate). The Medical Clinic attached to the School of Medicine renamed the Hospital attached to the School of Medicine. Seiya ITO named President. The new training ship <i>Hokusei-maru</i> becomes operational.
	6	The Department of Liberal Studies established (renamed the School of Liberal Studies in April 1951).
1950	3	Preparatory courses abolished.
	4	The Institute of Tuberculosis Research established. The School of Law and Letters divided into the School of Letters and the School of Law and Economics.
	10	Yoshichika SHIMA named President.
1952	4	The School of Veterinary Medicine established.
1953	4	The new Graduate Schools of Letters, Education, Law, Economics and Business Administration, Science, Engineering, Agriculture, Veterinary Medicine, and Fisheries Sciences established.

	8	The School of Law and Economics divided into the School of Law and the School of Economics and Business Administration.
1954	10	Harusada SUGINOME named President.
1955	4	The Graduate School of Medicine established.
1957	7	The School of Liberal Studies renamed the School of Liberal Arts.
1958	4	The Graduate School of Pharmaceutical Sciences established.
1961	5	The Training Center for Engineering Teachers established (abolished in March 1969).
1965	4	The School of Pharmaceutical Sciences and Pharmacy established.
1966	10	Jiro FURUICHI named President.
1967	2	Atae ABE named Acting President upon the death of Jiro FURUICHI.
	5	Juro HORIUCHI named President.
	6	The School of Dental Medicine established.
	8	The Dental Hospital attached to the School of Dental Medicine becomes operational.
1969	4	The General Education Branch established at the Hokkaido University Library.
1970	4	The Large-scale Computer Center (joint usage/research center) established.
1971	3	The new study investigation ship <i>Ushio-maru</i> becomes operational.
	5	Kichizo NIWA named President.
1972	5	The Health Management Center established. The Physical Education Center established.
1974	4	The Graduate School of Dental Medicine established.
	6	The Institute of Tuberculosis Research reorganized into the Institute of Immunological Research.
1975	5	Shigekazu IMAMURA named President.
1977	4	The Graduate School of Environmental Science established.
1978	4	The Slavic Research Center established. The Central Institute of Isotope Science established.
1979	4	The Information Processing Education Center established. The Instrumental Analysis Center established.
1980	10	The College of Medical Technology established.
1981	4	The Institute of Language and Cultural Studies established. The Center for Experimental Plants and Animals established.
	5	Mikio ARIE named President.
1985	4	The Research Center for Molecular Genetics established.
1987	5	Yoshio BAN named President.
1989	5	The Institute of Catalysis Research evolves into the Catalysis Research Center (joint usage/research center).
1990	6	The Slavic Research Center designated as a joint usage/research center.
1991	4	The International Student Center established. The Research Center for Quantum Interface Electronics established.
	5	Tsutomu HIROSHIGE named President.
1992	4	The Institute of Applied Electronics Research reorganized into the Research Institute for Electronic Science.
1993	4	The Graduate School of Environmental Science evolves into the Graduate School of Environmental Earth Science.
1994	6	The Center for Advanced Research of Energy established.
1995	4	The School of Liberal Arts abolished. The Center for Research and Development in Higher Education established. The Institute of Low Temperature Science designated as a joint usage/ research center. The Graduate School of Science and the Graduate School of Veterinary Medicine each evolves into a Graduate Research School, which places greater emphasis on graduate education and research. The Environmental Preservation Center established. The General Education Branch of the Hokkaido University Library renamed the North Branch.
	5	Norihito TANBO named President.
1996	5	The Center for Advanced Science and Technology established.
	8	The Venture Business Laboratory established.
1997	4	The Graduate School of Engineering evolves into a Graduate Research School.
1998	4	The Graduate School of Pharmaceutical Sciences evolves into a Graduate Research School.
1999	4	The Graduate School of Agriculture evolves into a Graduate Research School. The Information Processing Education Center evolves into the Education and Research Center for Information and Media Studies. The Hokkaido University Museum established.
	4	The Graduate Schools of Letters, Education, Law, Economics and Business Administration, Medicine, Dental Medicine, and Fisheries Sciences each evolve into a Graduate Research School.
		The Graduate School of International Media and Communication Studies established.
		The Institute of Immunological Research reorganized into the Institute for Genetic Medicine (the Research Laboratory Attached to the School of Medicine abolished).
		The Center for Northern Eurasian and Northern Pacific Studies established.
2001	4	The Field Science Center for Northern Biosphere assumes the management of the following facilities: the Marine Biological Station and the Institute of Algological Research, formerly attached to the School of Science; botanical gardens, farms, forests, and ranches formerly attached to the School of Agriculture; Lake Toya Inland Water Station, Usujiri Fisheries Station, and Nanae Fresh Water Laboratory, formerly attached to the School of Fisheries Sciences.

		The expanded Center for Advanced Science and Technology assumes the management of the Chromosome Research Unit, which was formerly attached to the School of Science, the Center for Experimental Plants and Animals, and the Research Center for Molecular Genetics.
		The Research Center for Quantum Interface Electronics evolves into the Research Center for Integrated Quantum Electronics.
5		Mutsuo NAKAMURA named President.
2002	2	The Creative Scientific Research Institution established.
	3	The old training ship <i>Hokusei-maru</i> decommissioned.
	4	The old study investigation ship <i>Ushio-maru</i> renamed the new training ship <i>Ushio-maru</i> .
2003	4	The Computer Center and the Education and Research Center for Computing and Multimedia Studies evolves into the Information Initiative Center.
	9	The Research and Education Center for Brain Science established.
	10	The University Hospital attached to the School of Medicine and the Dental Hospital attached to the School of Dental Medicine integrated into the Hokkaido University Hospital.
		The Management Center of Intellectual Property established.

National University Corporation Hokkaido University (2004 to present)

2004	4	Hokkaido University becomes the National University Corporation Hokkaido University.
		The Graduate School of Information Science and Technology established.
		The Center for Advanced Research of Energy evolves into the Center for Advanced Research of Energy Conversion Materials.
2005	3	The Center for Northern Eurasian and Northern Pacific Studies abolished.
	4	The Faculty of Fisheries Sciences, the Faculty of Environmental Earth Science, the Graduate School of Fisheries Sciences, and the Graduate School of Environmental Science established. The Department of Fisheries Sciences and the Department of Environmental Earth Science abolished in the graduate school.
		The Faculty of Public Policy and the Graduate School of Public Policy established.
		The Center for Advanced Science and Technology and the Creative Scientific Research Institution integrated into the new Creative Scientific Research Institution.
		The Physical Education Center integrated into the Center for Research and Development in Higher Education.
		The Research Center for Zoonosis Control established.
		The Admission Center established.
	5	The Hokkaido University Archives established.
2006	4	The Faculty of Science, the Faculty of Pharmaceutical Sciences, the Research Faculty of Agriculture, the Faculty of Advanced Life Science, the Graduate School of Science, the Graduate School of Agriculture, and the Graduate School of Life Science established. The Department of Science, the Department of Pharmaceutical Sciences, and the Department of Agriculture abolished in the graduate school.
		The Center for Advanced Tourism Studies established.
2007	3	The Education and Research Support Office established as an administrative unit.
		The College of Medical Technology abolished.
	4	The ICT Promotion Office established as an administrative unit.
		The Faculty of Education, the Research Faculty of Media and Communication, the Graduate School of Education, and the Graduate School of International Media, Communication and Tourism Studies established. The Department of Education, the Department of International Media and Communication, and the Institute of Language and Cultural Studies abolished.
		The Center for Language Learning established.
		The Center for Ainu and Indigenous Studies established.
		The Center for Experimental Research in Social Sciences established.
	5	Hiroshi SAEKI named President.
	10	The Management Center of Intellectual Property reorganized into the Management Center for Intellectual Property and Innovation as an administrative unit.
2008	4	The Faculty of Health Sciences and the Graduate School of Health Sciences established.
		The Research Institute for Information Law and Policy established.
		The Research Center for Environmental Nano and Bio Engineering established.
		The Research Center for Integrative Mathematics established.
		The Center for Sustainability Science established.
		The Admission Center, formerly a joint facility, changes its organization to an administrative unit.
2009	4	The Management Center for Intellectual Property and Innovation as an administrative unit, reorganized into the Center for Innovation and Business Promotion as an administrative unit.
		The Front Office for Resource Education and Development established as an administrative unit.
		The Center of Education and Research for Topological Science and Technology established.
		The Creative Scientific Research Institution and the Instrumental Analysis Center reorganized into the Creative Research Institution as an administrative unit.
	8	The North Branch of the Hokkaido University Library renamed the North Library.
2010	4	The Faculty of Engineering and the Graduate School of Engineering established. The Department of Engineering abolished in the graduate school.
		The Graduate School of Chemical Sciences and Engineering established.
		The Center for Environmental and Health Sciences established.
		The Health Management Center evolves into the Health Care Center.
		The Center for Advanced Research of Energy Conversion Materials transferred to the Center for Advanced Research of Energy and Materials, attached to the Graduate School of Engineering.

		The Institute of Low Temperature Science, the Research Institute for Electronic Science, the Institute for Genetic Medicine, the Catalysis Research Center, the Slavic Research Center, the Information Initiative Center and the Research Center for Zoonosis Control authorized as joint usage/research centers.
7		The Office of International Affairs established as an administrative unit, into which the International Student Center is transferred.
10		The Institute for the Advancement of Higher Education established as an administrative unit, into which the operations of the Center for Research and Development in Higher Education are transferred.
	11	The Office for a Sustainable Campus established as an administrative unit.
2011	3	The Office of Safety and Health established as an administrative unit.
	4	The Center for Translational Research established.
		The Venture Business Laboratory renamed the Meme Media Laboratory.
		The Environmental Preservation Center transferred to the Office for a Sustainable Campus (an administrative unit).
		<i>Oshoro-maru</i> (training ship) authorized as a joint usage/education center.
2012	7	The Forest Research Station of the Field Science Center for Northern Biosphere, and the Marine Research Stations (Akkeshi Marine Station and Muroran Marine Station) of the Field Science Center for Northern Biosphere authorized as joint usage/education centers.
		Keizo YAMAGUCHI named President.
2013	4	The Office for Enhancing Institutional Capacity established as an administrative unit.
2014	2	The Center for Food and Medical Innovation established as an administrative unit.
	4	The Global Institution for Collaborative Research and Education (GI-CoRE) established.
		The Slavic Research Center renamed the Slavic-Eurasian Research Center.
		The Research Center for Environmental Nano and Bio Engineering renamed the Center for Post-modern Socio-metabolic System.
	9	The Center for Translational Research abolished.
2015	3	The Meme Media Laboratory abolished.
		The Research Institute for Information Law and Policy abolished.
		The Center for Post-modern Socio-metabolic Systems abolished.
		The Research Center for Integrative Mathematics abolished.
		The Center of Education and Research for Topological Science and Technology abolished.
	4	The Arctic Research Center established.
		The Archaeological Research Center established.
		The Institute for the Promotion of Business-Regional Collaboration established as an administrative unit, into which the Center for Innovation and Business Promotion and the Center for Food and Medical Innovation are transferred.
	7	The Office of Institutional Research established as an administrative unit.
		The Marine Research Stations (Usujiri Fisheries Station, Nanae Freshwater Station and Oshoro Marine Station) of the Field Science Center for Northern Biosphere and the Institute for the Advancement of Higher Education (Higher education training center) authorized as joint usage/education centers.
	10	The Catalysis Research Center is reorganized into the Institute for Catalysis.
2016	3	The Center for Sustainability Science (CENSUS) abolished.
	4	<i>Oshoro-maru</i> (training ship) authorized as a joint usage/education center again.
		The Institute of Low Temperature Science, the Research Institute for Electronic Science, the Institute for Genetic Medicine, the Institute for Catalysis, the Slavic-Eurasian Research Center, the Information Initiative Center, and the Research Center for Zoonosis Control authorized as joint usage/research centers continuously.
		The Arctic Research Center authorized as a joint usage/research center.
	10	The Office of International Affairs reorganized into the Institute for International Collaboration established as an administrative unit.
2017	4	Toyoharu NAWA named President.
		The Graduate School of Biomedical Science and Engineering, the Graduate School of Infectious Diseases, and the Graduate School of Global Food Resources established.
		The Faculty of Economics and Business, the Faculty of Medicine, the Faculty of Dental Medicine, the Faculty of Veterinary Medicine, the Graduate School of Economics and Business, the Graduate School of Medicine, the Graduate School of Dental Medicine, and the Graduate School of Veterinary Medicine established. The Department of Economics and Business Administration, the Department of Medicine, the Department of Dental Medicine, and the Department of Veterinary Medicine abolished in the graduate school.
		The Forest Research Station of the Field Science Center for Northern Biosphere, and the Marine Research Stations (Akkeshi Marine Station and Muroran Marine Station) of the Field Science Center for Northern Biosphere authorized as joint usage/education centers again.
	7	The Education and Research Center for Mathematical and Data Science established.
2018	4	The Office for a Sustainable Campus reorganized into the Sustainable Campus Management Office as an administrative unit.
	8	The Student Advice and Counseling Center established.
2019	4	The Faculty of Humanities and Human Sciences, the Faculty of Information Science and Technology, the Graduate School of Humanities and Human Sciences, and the Graduate School of Information Science and Technology established. The Department of Letters, and the Department of Information Science and Technology abolished in the graduate school.
		The Center for Natural Hazards Research established.
		The School of Letters renamed the School of Humanities and Human Sciences.

Nobel Prize

Emeritus Professor Akira Suzuki, who worked for more than 40 years at Hokkaido University after graduating, won the Nobel Prize in Chemistry in 2010. The prize was given for his work on “palladium-catalyzed cross couplings in organic synthesis,” which produce a more stable, nontoxic reaction compared with other reactions, an innovation that drastically changed the methodology of organic synthetic chemistry and serves as a foundation for manufacturing. It also has made a significant contribution to the development of products that are familiar in our daily lives, such as pharmaceutical drugs, pesticides, liquid crystals, and organic light-emitting diodes. The achievement perfectly embodies our philosophy of “practical learning.”

Professor Emeritus and University Professor
Akira Suzuki
Nobel Prize Winner Chemistry 2010

The Nobel Prize® and the Nobel Prize® medal design mark are registered trademarks of the Nobel Foundation.

Order of Culture Prize

The prestigious Order of Culture Prize was established in 1937. This prize is awarded to men and women for contributions to Japanese art, literature, or culture. Prizes are conferred by the Emperor of Japan in person on Culture Day on November 3rd each year.

Name	Year	Title	Reason
Kingo Miyabe	1946	Professor Emeritus	Botanical study
Akira Suzuki	2010	Professor Emeritus	Developing a chemical tool known as palladium-catalyzed cross-couplings for organic boron compounds

Persons of Cultural Merit

The system for Persons of Cultural Merit was established in 1951 by the Law on Pensions for the Persons of Cultural Merit. Its purpose is to honor persons of cultural merit by providing a special government-sponsored pension.

Name	Year	Title	Reason
Shonen Matsumura	1954	Professor Emeritus	Entomological study
Seiya Ito	1959	Professor Emeritus	Phytopathological study of crop diseases and fungi
Tetsu Sakamura	1976	Professor Emeritus	Plant-cell study of wheat chromosome and plant-physiological study of mold
Man-emon Takahashi	1995	Professor Emeritus	Genetic study of rice
Akira Suzuki	2010	Professor Emeritus	Developing a chemical tool known as palladium-catalyzed cross-couplings for organic boron compounds
Toshio Yamagishi	2013	Professor Emeritus	Research on social dilemmas and trust
Hiroshi Kida	2017	Professor Emeritus	Elucidation of the mechanism causing new influenza strains
Michio Ui	2018	Professor Emeritus	Research and function elucidation of GTP-binding protein

The Japan Academy Prize

Name	Year	Title	Reason
Yutaka Kon	1934*	Professor of Medicine	Research on silver reaction of cells
Kinjiro Kunugi	1939*	Professor of Science	Research on the theory of abstract spaces
Juro Horiuchi	1940*	Professor of Science	Theoretical and experimental research on chemical kinetics
Ukichiro Nakaya	1941*	Professor of Science	Physical investigations of snow
Seiji Kaya	1942*	Professor of Science	Magnetic studies of ferromagnetic crystals
Jun Suzuki	1949	Professor of Science	Studies on ultrabasic rocks and the ore deposits accompanying them
Sajiro Makino	1958	Professor of Science	Studies on chromosomes in animals
Teikichi Fukushi	1958	Professor of Agriculture	Studies on insect transmission of plant viral diseases
Seijin Nagao	1965	Professor of Agriculture	Studies on twelve linkage groups in rice
Man-emon Takahashi	1965	Professor of Agriculture	Studies on twelve linkage groups in rice
Kotatsu Fujita	1971	Professor of Letters	Study of early Pure Land Buddhism
Yoshiaki Ishizuka	1975	Professor Emeritus	Nutrio-physiological studies on the rice plant, and application to rice production (joint research)
Akira Tanaka	1975	Professor of Agriculture	Nutrio-physiological studies on the rice plant, and application to rice production (joint research)
Izumi Yokoyama	1981	Professor of Science	Structure of volcanoes as disclosed by gravity anomaly distribution
Yoshio Ban	1984	Professor of Pharmacology	Studies of the synthesis of the indole group of alkaloids
Eishiro Shikata	1986	Professor of Agriculture	Studies on plant viruses and viroids
Toshiro Kinoshita	1993	Professor of Agriculture	Genetic studies on the interaction between cytoplasmic and nuclear genomes, and the application of these studies to crop breeding
Eiko Ohtsuka	1996	Professor of Pharmacology	Synthesis and functional studies on nucleic acids: synthetic c-Ha-ras gene and related subjects (joint research)
Taro Matsuno	1997	Professor of Environmental Earth Science	Elucidation of atmospheric dynamics in the stratosphere and mesosphere
Akira Suzuki	2004	Professor Emeritus	Studies on the development of new synthetic reactions using palladium catalysts (joint research)
Hiroshi Kida	2005	Professor of Veterinary Medicine	Studies on the control of influenza: mechanism of emergence of pandemic influenza virus strains in poultry, domestic animals and humans, and molecular basis of the neutralization of viral infectivity with antibodies

Graduate School/School of Law

The mission of the Graduate School of Law is to develop the next generation of talented legal educators and academics; to develop business persons with advanced professional knowledge; and to nurture professionals to have a sound understanding of legal matters as well as a broad perspective. The mission of the School of Law is to help undergraduates acquire the basic skills necessary to deal with complex, diverse social issues and to help them develop leadership skills based on a well-rounded education and intellectual sensibility. Both schools offer a broad and diverse range of curricula.

Graduate School

Law and Politics	Modern Law, Interdisciplinary Legal Studies, Political Studies, Advanced Institute for Law and Politics*
------------------	----------------------------------------------------------------------------------------------------------

Legal Practice	Private Law, Public Law

Graduate School/Faculty/School of Fisheries Sciences

The mission of the Graduate School of Fisheries Sciences, the Faculty of Fisheries Sciences, and the School of Fisheries Sciences is to comprehensively research the sustainable reproduction and efficient use of marine and aquatic resources and to delve into the basic and advanced aspects of preserving the marine ecosystem to ensure the sustainable use of marine resources. We aim to help students develop a creative and positive frame of mind, so they can study issues related to the global environment, natural resources, and food, all of which affect the international community, local societies, and businesses.

Graduate School

Marine Bioresource and Environmental Science	Marine Biology and Biodiversity, Marine Bioresource Science, Marine Environmental Science, Marine Environment and Resource Sensing, Fisheries Engineering, Interdisciplinary Sustainability Studies
Marine Life Science	Aquaculture Biology, Aquaculture Genetics and Genomics, Marine Biotechnology and Microbiology, Marine Bioresources Chemistry, Marine Food Science and Technology, Marine Chemical Resource Development

Faculty

Marine Bioresource and Environmental Science	Marine Bioresource Science, Marine Environmental Science, Marine Environment and Resource Sensing, Fisheries Engineering, Humans and the Ocean
Marine Life Science	Aquaculture Biology, Aquaculture Genetics and Genomics, Marine Biotechnology and Microbiology, Marine Bioresources Chemistry, Marine Food Science and Technology, Marine Chemical Resource Development

Graduate School of Environmental Science/Faculty of Environmental Earth Science

The mission of the Graduate School of Environmental Science and the Faculty of Environmental Earth Science is to educate students in the fields of earth science, biology, and material science. Utilizing the knowledge they obtained through their studies, students will be able to identify and research global environmental issues as well as determine how to resolve them. We aim to play a leading role in the education of environmental science by nurturing researchers and professionals ready to tackle pressing global environmental issues. We take an interdisciplinary approach to educate our students about the field of environmental science. Our diverse curriculum allows students to study specialist courses in their chosen field while being able to take inter-disciplinary courses.

Graduate School

Environmental Science Development	Human and Ecological Systems, Environmental Adaptation Science, Practical Science for Environment, Global Environmental Management
Earth System Science	Biogeochemistry, Atmosphere-Ocean and Climate Dynamics, Cryosphere Science
Biosphere Science	Biodiversity Science, Ecological Genetics, Molecular Biology, Plant Ecology, Animal Ecology, Marine Biogeochemistry and Biology, Aquatic Biology, Forest Field Science, Agro-Ecosystem Science
Environmental Materials Science	Biomaterials Chemistry, Environmental Nano-Materials, Molecular Photonics and Electronic Science, Environmental Catalytic Chemistry

Faculty

Integrated Environmental Science	Conservation on Natural Environments, Environmental Geography, Environmental Adaptation Science, Practical and Earth Sciences for Environment
Earth System Science	Biogeosystem Science, Marine and Atmospheric Geochemistry, Atmosphere-Ocean Physics, Climate Dynamics
Environmental Biology	Terrestrial Ecology, Conservation Ecology, Ecological Genetics, Environmental Molecular Biology
Materials Science	Biomaterials Chemistry, Functional Materials Chemistry, Molecular Materials Chemistry

Graduate School/Faculty/School of Science

Humans have long been fascinated by how nature has evolved, and have always wanted to know how it works. The Graduate School of Science, the Faculty of Science, and the School of Science are dedicated to our innate academic desire to learn more about nature. Our mission is to help students develop the following academic attributes:

1. The ability to understand the true nature of an event and identify the laws that govern it; the ability to turn an idea into a universal theory and prove its validity; and the ability to model natural phenomena and describe the model in a logical and sensible manner.
2. The ability to soundly describe research outcomes, use logic to convince others, and exercise leadership.

Graduate School

Mathematics	Mathematics
Condensed Matter Physics	Quantum Solid State Physics, Condensed Matter Physics
Cosmosciences	Fundamental Physics, Cosmos and Planets

Faculty of Pharmaceutical Sciences/School of Pharmaceutical Sciences and Pharmacy

The mission of the Faculty of Pharmaceutical Sciences and the School of Pharmaceutical Sciences and Pharmacy is to help students become researchers and pharmacists capable of discovering groundbreaking medicines and clinical applications. We offer education and research programs on pharmaceutical sciences—comprising the foundations of pharmacy, life sciences, molecular pharmaceutical sciences, and biopharmaceutical sciences.

Faculty

Molecular Pharmaceutical Sciences	Molecular and Cellular Biological Sciences, Chemistry and Medicinal Chemistry
Biopharmaceutical Sciences and Pharmacy	Biopharmaceutical Sciences and Pharmacy

Undergraduate School

Pharmaceutical Sciences	Pharmaceutical Sciences
Pharmacy	Pharmacy

Affiliated Facilities

Experimental Station for Medical Plant Studies

Graduate School/Faculty/School of Agriculture

The mission of the Faculty of Agriculture, the Graduate School of Agriculture, and the School of Agriculture is to conduct research to create and rebuild new agriculture systems that address a wide range of food-related issues facing modern day society around the globe. We offer programs covering most of these pressing issues with the hope that they may ultimately be resolved. Finally, our goal is to nurture researchers and talented business professionals so that they are capable of making a tangible difference on both a regional and global scale.

Graduate School

Agriculture	Frontiers in Production Sciences (Agricultural Plant Science, Botany and Agronomy, Agricultural Economics, Bioproduction Engineering) Frontiers in Biosciences (Animal Science, Applied Molecular Biology, Applied Biological Chemistry) Frontiers in Environmental Sciences (Ecology and Systematics, Regional Environment, Forest Resource Utilization, Integrated Forest-Landscape Management)
-------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Faculty

Fundamental Agriscience Research	Agrobiology and Bioresources, Applied Bioscience, Bioscience and Chemistry, Forest Science, Animal Science, Bioresource and Environmental Engineering, Agricultural Economics
Research Innovation and Cooperation	Cooperative Research, Integrated Research

Undergraduate School

Agrobiology and Bioresources	Agrobiology and Bioresources
Applied Bioscience	Applied Bioscience
Bioscience and Chemistry	Bioscience and Chemistry
Forest Science	Forest Science
Animal Science	Animal Science
Bioresource and Environmental Engineering	Bioresource and Environmental Engineering
Agricultural Economics	Agricultural Economics

Graduate School of Life Science

Significant progress has been made in both basic and applied research in the life sciences using genetic information obtained from the human genome and a variety of other animals. The Graduate School of Life Science offers innovative graduate programs intended to help students acquire the knowledge and skills necessary to make meaningful contributions to the continued development of life science.

Graduate School

Life Sciences	Transdisciplinary Life Science, Biosystems Science, Biomedical and Pharmaceutical Science
Soft Matter	Soft Matter Science
Clinical Pharmacy	Clinical Pharmacy

Faculty of Advanced Life Science

The Faculty of Advanced Life Science has assembled a strong team of professionals with expertise in biology, physics, chemistry, soft matter science, medicine, and pharmaceutical sciences who are striving to create novel and transdisciplinary approaches to life science. Furthermore, our auxiliary facility, the Frontier Research Center for Advanced Material and Life Science (Frontier-AMLS), advances collaborative engagements between industry and academia. It provides world-class teaching staff from around the world in collaboration with the university's Global Station for Soft Matter, GI-CoRE. It also maintains and enhances its research and develops infrastructures to share with the public. Through these programs and projects, we aim to foster researchers for the next generation.

Faculty

Advanced Transdisciplinary Sciences	X-ray Structural Biology, Biomolecular Science, Soft & Wet Matter Science, Tissue Organization Science, Cellular Dynamics Science, Drug Discovery Research, Chemical Biology, Molecular Delivery Science ¶
Functional Life Sciences	Cell Biological Science, Molecular and Cellular Biology, Biological Information Analysis Science, Functional Cellular Science, Glyco-signal Biology, Embryonic and Genetic Engineering

Affiliated Facilities

The Frontier Research Center for Advanced Material and Life Science

Graduate School/Faculty/School of Education

The mission of the Graduate School of Education, the Faculty of Education, and the School of Education is to develop researchers who pursue practical studies to establish new educational philosophies and systems; to resolve wide-ranging educational issues; to develop professionals in education with highly specialized academic and practical knowledge and skills; and to develop well-rounded educators who can adopt innovative theories to effectively address issues concerning education.

Graduate School

Education	Pedagogical Foundations of Education, Life-Long Education, Educational Social Sciences, Educational Psychology, Clinical Psychology, Health Education, Physical Education, Multicultural Education
-----------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Faculty

Education	Social Sciences of Education, Pedagogical Foundations of Education, Psychology of Education, Science of Health and Physical Education

Undergraduate School

Education	Social Sciences of Education, Pedagogical Foundations of Education, Psychology of Education, Science of Health and Physical Education
-----------	---------------------------------------------------------------------------------------------------------------------------------------

Graduate School of International Media, Communication, and Tourism Studies/Research Faculty of Media and Communication

The mission of the Graduate School of International Media, Communication, and Tourism Studies and the Research Faculty of Media and Communication is to nurture researchers and business professionals who have the professional expertise in public relations, journalism, media culture, verbal communication, and tourism necessary to effectively address changes and issues in today's society and to become prominent players in local and international arenas.

Graduate School

International Media, Communication, and Tourism Studies	Public Communication and Journalism, International Public Relations, Media and Culture, Language and Communication, International PR Strategies†, Regional Tourism Management, International Tourism Development, Culture and Tourism, Communication and Cocreation, Modern Japanese Studies
---------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Faculty

Media and Communication	Public Communication, Journalism, International Public Relations, Media and Culture, Multimedia Studies, Language and Communication, Language Acquisition, International Regional Culture Studies, Multicultural Education, International PR Strategies†
Modern Japanese Studies	Modern Japanese Studies

Graduate School/Faculty of Health Sciences

The mission of the Graduate School of Health Sciences and the Faculty of Health Sciences is to develop highly-skilled medical professionals who use leading-edge knowledge and technical skills to meet society's needs for advanced medical care and play a prominent role in the next generation of health sciences, and to develop researchers who can play a leading role in the global arena of health-science research beyond their fields of specialty.

Graduate School

Health Sciences	Health Sciences, Nursing
-----------------	--------------------------

Faculty

Health Sciences	Fundamental Nursing, Comprehensive Development Nursing, Biomedical Science and Engineering, Medical Laboratory Science, Rehabilitation Science, Functioning and Disability, Health Sciences and Technology, Food and Nutrition for Health Promotion (Watanabe Oyster)‡, Biological Response and Regulation‡
-----------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Graduate School/Faculty/School of Engineering

The mission of the Graduate School of Engineering, the Faculty of Engineering, and the School of Engineering is to transfer our legacy of academic accomplishments to our students so they can master and advance basic and professional disciplines in engineering. We also aim to help students acquire a well-rounded education, sound judgment, and the practical skills necessary to deal with globalization and advance science and technology.

Graduate School

Applied Physics	Quantum Matter Physics, Complex Material Physics, Optical Science and Technology, Solid State Physics and Engineering
Materials Science and Engineering	Ecological Materials, Materials Design, Energy Materials, Energy Conversion Materials, Ironmaking and Steelmaking†, Frontier Energy Engineering†
Mechanical and Space Engineering	Space Systems Engineering, Materials and Fluid Mechanics, Space Exploration Engineering†
Human Mechanical Systems and Design	Biomechanics and Robotics, Micromechanical Systems, Biomedical Simulation†
Energy and Environmental Systems	Nuclear and Environmental Systems, Applied Energy Systems
Quantum Science and Engineering	Applied Quantum Beam Engineering, Plasma Science and Engineering, Nanomaterials Science, Materials Structure Sciencet, Fusion Sciencet
Field Engineering for the Environment	Hydraulic and Aquatic Environment Engineering, Geotechnical and Material Engineering for Disaster Prevention
Engineering and Policy for Sustainable Environment	Engineering for Sustainable Infrastructure System, Policy for Engineering and Environment
Architectural and Structural Design	Structural and Urban Safety Design, Human Settlement Design
Human Environmental Systems	Planning and Performances for Built Environments, Building Engineering and Planning
Environmental Engineering	Water Metabolic System, Environmental Management Systems
Sustainable Resources Engineering	Resources Engineering, Geoenvironmental Engineering
Cooperative Program for Resources Engineering	Global Resources and Environmental Engineering, Resource Engineering for International Strategy

Faculty

Applied Physics	Quantum Matter Physics, Complex Material Physics, Optical Science and Technology, Solid State Physics and Engineering
Applied Chemistry	Industrial Organic Chemistry, Chemical Engineering, Biotechnology, Chemistry of Functional Molecules, Functional Materials Chemistry, Inorganic Materials Chemistry, Biomass Analysis Technology‡
Materials Science and Engineering	Ecological Materials, Materials Design, Energy Materials
Mechanical and Space Engineering	Space Systems Engineering, Materials and Fluid Mechanics
Human Mechanical Systems and Design	Biomechanics and Robotics, Micromechanical Systems
Energy and Environmental Systems	Nuclear and Environmental Systems, Applied Energy Systems, Nuclear Power Infrastructure and Technology‡
Quantum Science and Engineering	Applied Quantum Beam Engineering, Plasma Science and Engineering, Radiation Science and Medical Physics‡
Field Engineering for the Environment	Hydraulic and Aquatic Environment Engineering, Geotechnical and Material Engineering for Disaster Prevention, Disaster Prevention Systems Research‡
Engineering and Policy for Sustainable Environment	Engineering for Sustainable Infrastructure System, Policy for Engineering and Environment
Architectural and Structural Design	Structural and Urban Safety Design, Human Settlement Design
Human Environmental Systems	Planning and Performances for Built Environment, Building Engineering and Planning
Environmental Engineering	Water Metabolic System, Environmental Management Systems, Biomass Community Planning‡
Sustainable Resources Engineering	Resources Engineering, Geoenvironmental Engineering, Resources Environment and Remediation‡

Affiliated Facilities

Center for Advanced Research of Energy and Materials

Undergraduate School

Applied Science and Engineering	Applied Physics and Engineering, Applied Chemistry, Materials Engineering
Electronics and Information Engineering	Computer Science and Information Technology, Electrical and Electronic Engineering, Bioengineering and Bioinformatics, Media and Network Technologies, Systems, Control and Electrical Engineering
Mechanical and Intelligent System Engineering	Mechanics and Information, Mechanical Systems
Socio-Environmental Engineering	Civil Engineering, Public Policy and Engineering, Architecture, Environmental Engineering, Sustainable Resources Engineering

Graduate School of Chemical Sciences and Engineering

The mission of the Graduate School of Chemical Sciences and Engineering is to develop chemical engineers and researchers capable of flexibly meeting the needs of society. To achieve this mission, we offer students an educational foundation in fundamental chemistry. Furthermore, our faculty members, who come from multiple departments in science and engineering, work together to provide comprehensive programs that meet each student's career goals, be it as an engineer or researcher in a corporate environment, a researcher at a public institution, or as an educator.

Graduate School

Chemical Sciences and Engineering	Molecular Chemistry and Engineering (Microscopic Chemical Analyses, Fine Chemical Reactions, Catalytic Reactions, Chemical Process Engineering) Materials Chemistry and Engineering (Molecular Materials Chemistry, Inorganic Materials Chemistry, Frontier Materials Chemistry, Functional Materials Chemistry) Biological Chemistry and Engineering (Biomolecular Chemistry, Biofunctional Chemistry, Cell Engineering, Molecular Medical Biochemistry)
-----------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Graduate School/Faculty/School of Economics and Business

The mission of the Graduate School of Economics and Business is to develop world-class scholars and to nurture talented business professionals who have a solid knowledge base in economics, business administration, and other related sciences. The mission of the School of Economics and Business is to help undergraduates develop the leadership skills necessary to achieve innovation and ingenuity with a sense of mission and passion, and to help them mature intellectually so they can use their professional knowledge and social ethics to deal with social issues. Both schools offer curricula that meet the needs of highly motivated students.

Graduate School

Modern Economics (Mgt)	Economic Analysis, Social and Historical Economics, Economic Policy, Management Analysis
Accounting	Accounting

Faculty

Modern Economics (Mgt)	Economic Analysis, Social and Historical Economics, Economic Policy, Management Analysis
Accounting	Accounting

Undergraduate School

Economics	Economic Theory, Economic History, Applied Economics
Business Administration	Business Administration, Management Information

Graduate School/Faculty/School of Medicine

The mission of the Graduate School of Medicine and School of Medicine is to help students cultivate professional ethics and receive a well-rounded education while ensuring they master medical knowledge within the field they choose to specialize in as well as hone their technical skills. Our programs nurture medical professionals, give students the knowledge to continually improve themselves throughout their professional careers, and help students learn to work with other professionals to provide advanced medical care as part of a team.

Graduate School

Medicine	Biochemistry, Anatomy, Physiology, Pharmacology, Pathology, Microbiology and Immunology, Social Medicine, Internal Medicine, Radiology, Surgery, Anesthesiology and Critical Care Medicine, Reconstructive Surgery and Rehabilitation Medicine, Reproductive and Developmental Medicine, Sensory Organ Medicine, Neurological Disorder, Medical Biology, Immunology, Pathological Oncology, Clinical Collaboration†
Medical Science	Medical Science

Faculty

Physiological Science	Biochemistry, Anatomy, Physiology, Pharmacology
Pathological Science	Pathology, Microbiology and Immunology

Internal Medicine	Internal Medicine, Radiology, Diabetes and Obesity‡, Minimally Invasive Advanced Heart Failure Therapeutics‡, Innovative Heart Failure Telemedicine‡, Community Heart Failure Healthcare and Pharmacy‡
Surgery	Surgery, Anesthesiology and Critical Care Medicine, Transplant Surgery‡
Specialized Medicine	Reconstructive Surgery and Rehabilitation Medicine, Reproductive and Developmental Medicine, Sensory Organ Medicine, Neurological Disorder, Advanced Medicine for Spine and Spinal Cord Disorders‡, Ocular Circulation and Metabolism‡, Advanced Clinical Glycobiology‡, Preventive and Therapeutic Research for Metastatic Bone Tumor‡, Advanced Research for Locomotor SystemΔ
Interdisciplinary Medicine	Medical Biology

Affiliated Facilities

Institute for Animal Experimentation

Undergraduate School

Medicine	Anatomy, Physiology, Biochemistry, Pharmacology, Pathology, Microbiology, Immunology, Forensic Medicine, Hygiene, Public Health, Internal Medicine, Surgery, Orthopaedic Surgery, Obstetrics and Gynecology, Ophthalmology, Psychiatry, Pediatrics, Dermatology, Plastic Surgery, Urology, Otolaryngology, Radiation Medicine/Nuclear Medicine, Anesthesiology, Neurosurgery, Acute and Critical Care Medicine, Rehabilitation Medicine
Health Sciences	Nursing, Radiological Technology, Medical Technology, Physical Therapy, Occupational Therapy

Affiliated Facilities

Hokkaido University Hospital (shared facility with the School of Dental Medicine)

Graduate School/Faculty/School of Dental Medicine

Based on the belief that proper oral care is essential for people to maintain good health, the mission of the Graduate School of Dental Medicine and the School of Dental Medicine is to assist undergraduates and graduates in acquiring professional knowledge and technical skills in dentistry and dental care to help students become well-rounded dentists, dental educators and scholars with professional ethics and inquisitive minds. The School of Dental Medicine offers distinctive educational programs including small-group educational exercises and early hands-on clinical training to help students become well-educated and intelligent dentists. We also provide research-based training intended to help students improve their problem-solving skills.

Graduate School

Oral Medical Science	Oral Functional Science, Oral Health Science, Oral Pathobiological Science, Stomatognathics, Geriatric Oral Science†
----------------------	----------------------------------------------------------------------------------------------------------------------

Faculty

Oral Medical Science	Oral Functional Science, Oral Health Science, Oral Pathobiological Science
----------------------	----------------------------------------------------------------------------

Undergraduate School

Dentistry	Oral Anatomy, Histology and Microbiology, Oral Physiology, Biochemistry and Pharmacology, Oral Pathology, Operative Dentistry and Periodontology, Biomaterials and Prosthodontics, Oral Radiography and Medicine, Oral Anesthesia and Oral-Maxillofacial Surgery, Pedodontics, Orthodontics and Oral Gerodontology, Preventive Dentistry
-----------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Affiliated Facilities

Hokkaido University Hospital (shared facility with the School of Medicine)

Graduate School/Faculty/School of Veterinary Medicine

The mission of the Graduate School of Veterinary Medicine and the School of Veterinary Medicine is to help students become well-rounded veterinarians with creative minds who understand what is expected of veterinary medicine in society and have a scientific and analytical frame of mind. We also aim to cultivate veterinary experts who use sophisticated knowledge and technical skills to meet social needs in Japan and abroad. Alongside this, we capitalize on the benefits of learning in a small-group environment. Learning in small groups enables students to more easily understand, analyze, and apply the knowledge they learned in the classroom.

Graduate School

Veterinary Medicine	Basic Veterinary Sciences, Applied Veterinary Sciences, Environmental Veterinary Sciences, Clinical Sciences
---------------------	--------------------------------------------------------------------------------------------------------------

Graduate School of Biomedical Science and Engineering

Under the four basic principles adhered to by Hokkaido University: Frontier Spirit, Global Perspectives, All-round Education, and Practical Learning, we aim to train students to become biomedical science and engineering professionals who can contribute to the sustainable development of human society with highly specialized knowledge and an outstanding ethical perspective. Students will be given an excellent knowledge base and strong research abilities, and are expected to accommodate the advancement and internationalization of the field by developing medical technology and equipment.

Graduate School

Biomedical Science and Engineering	Quantum Biomedical Science and Engineering (Particle Beams for Biomedical Science and Engineering, Radiation for Biomedical Science and Engineering), Molecular Biomedical Science and Engineering (Biomedical Imaging, Biology for Biomedical Science and Engineering)
------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Graduate School of Infectious Diseases

As was seen in the Ebola hemorrhagic fever outbreak cases, the threat of emerging and re-emerging infectious diseases to human society and the economy has been increasing. Accordingly, the demand to train specialists who research infectious diseases and how to control them is raising. To fulfill social demands, the mission of the Graduate School of Infectious Diseases is to develop human resources with a wide knowledge of infectious diseases, flexible imagination and comprehensive decision making abilities to contribute to the development of infectious disease research and education around the world.

Graduate School

Infectious Diseases	Infectious Diseases
---------------------	---------------------

Graduate School of Global Food Resources

The Graduate School of Global Food Resources aims to produce world-class pioneers with broad perspectives and international negotiation skills who are capable of addressing various food resource challenges. To achieve this aim, the School encourages students to learn cultural aspects of the problems (e.g., current world affairs, economics, history, races/ethnic groups, etc.) as well as their technical aspects, such as food production and environmental conservation. Our educational programs are offered by faculty from different fields of specialization.

Graduate School

Global Food Resources	Global Food Resources
-----------------------	-----------------------

Graduate School/Faculty of Information Science and Technology

The mission of the Graduate School of Information Science and Technology is to continue to advance the information society we live in today, which will lead to the emergence of a knowledge-based society. We support graduate students in studying past and current theories while pursuing new ones so they can develop into IT engineers who have a broad range of knowledge and international perspective. We also aim to nurture IT researchers capable of using their creativity to conduct research and develop projects on their own.

Graduate School

Computer Science and Information Technology	-
Electronics for Informatics	-
Bioengineering and Bioinformatics	Advanced Medical Engineering*
Media and Network Technologies	Ubiquitous Network*, Media Network Sociology*
Systems Science and Informatics	Informatics for Remote Sensing*, Informatics for Digital Human*

Faculty

Computer Science and Information Technology	Synergetic Information Engineering, Knowledge Software Science, Mathematical Science
Electronics for Informatics	Integrated Systems Engineering, Advanced Electronics
Bioengineering and Bioinformatics	Bioinformatics, Bioengineering
Media and Network Technologies	Information Media Science and Technology, Information Communication Systems
Systems Science and Informatics	System Creation, System Synthesis

Graduate School/Faculty/School of Humanities and Human Sciences

At the School of Humanities and Human Sciences, our goal is to gain a more profound understanding of human beings and society. In order to do this, we work to conduct high-level research in various fields that comprise the humanities and social sciences as well educate a new generation of students who are capable of responding to the complex and multi-faceted issues we are currently facing. Our extensive educational framework — which ranges from textual interpretations to fieldwork and experimentation — provides a wide coverage of the various fields in the humanities and social sciences, and can thus provide the necessary training for cultivating a new generation capable of meeting society's needs in the future.

Graduate School

Humanities	Philosophy and Religious Studies, History, Cultural Diversity Studies, Cultural Representations, Linguistics, Slavic-Eurasian Studies, Ainu and Indigenous Studies
Human Sciences	Psychology, Behavioral Science, Sociology, Regional Science

Human Sciences	Psychology, Behavioral Science, Sociology, Regional Science

Undergraduate School

Humanities and Human Sciences	Philosophy and Cultural Studies, History and Anthropology, Linguistics and Literature, Human Sciences
-------------------------------	-------------------------------------------------------------------------------------------------------

Graduate School/Faculty of Public Policy

The Graduate School of Public Policy at Hokkaido University (HOPS) provides students with the advantages of small sized classes to foster and train highly skilled professionals to fill positions in both the public and private sectors (i.e. government positions at the local and national levels, private companies, think-tanks, and non-profit organizations).

HOPS brings together professors and practitioners from the Graduate School of Law and Politics, Economics, and Engineering who teach students to master analytical tools useful for evaluating public policies and to bring principles and tools into practical application for decision making in the real world. Our faculty members are dedicated to training tomorrow's policy leaders.

Affiliated Facilities

Center for Public Policy Studies

Institute of Low Temperature Science

[Joint Usage/Research Center]

The Institute of Low Temperature Science (ILTS) was founded in 1941 as the first research institute in Japan to promote interdisciplinary studies on various natural phenomena occurring in the cryosphere. The cryosphere is of special importance to the climate and is changing rapidly. It is thus essential that we have the latest and best information available regarding its ongoing changes.

Water and Material Cycles

- Ocean and Sea Ice Dynamics
- Atmosphere–Ocean Interaction
- Atmospheric and Climate Science
- Land–Atmosphere Interaction
- Meteorology/Hydrology
- Isotope Physiology, Ecology, and Geochemistry

Frontier Ice and Snow Science

- Glacier and Ice Sheet Research
- Phase Transition Dynamics
- Ice and Planetary Sciences
- Astrophysical Chemistry

Environmental Biology

Affiliated Facilities

Pan-Okhotsk Research Center:

- Climate Change Research
- Land–Ocean System
- International Research Promotion Office

Research Institute for Electronic Science

[Joint Usage/Research Center]

The Research Institute for Electronic Science (RIES) was established in 1992. Our mission is to develop new interdisciplinary research fields between photonics and optical sciences, material and molecular sciences, and biology and life sciences. The Institute also focuses on mathematics and nanotechnology as requisite sciences to accomplish our mission.

Photonics and Optical Science

- Photo–System Physics
- Nanomaterials and Nanoscopy
- Coherent X-ray Optics

Material and Molecular Sciences

- Molecular Photonics
- Smart Molecules
- Nanostructure Physics
- Functional Thin Film Materials

Biology and Life Sciences

- Molecular and Cellular Biophysics
- Molecular Devices

Cooperative Research

- RIKEN Alliance
- Social Cooperation Advisory
- Alliance Collaborative Research Laboratory
- New-paradigm ComputingΔ
- College of Science, National Chiao Tung University (Taiwan)

Affiliated Facilities

Green Nanotechnology Research Center:

- Green Photonics
- Nanostructured Functional Materials
- Nanophotonics
- Functional Nanomolecular Materials

Research Center of Mathematics for Social Creativity:

- Mathematical Modeling
- Molecule & Life Nonlinear Sciences
- Mathematical and Physical Ethology
- Experimental Mathematics

Co-creative Research Support Department

- Nikon Imaging Center
- Promotion Office for International Alliances
- Promotion Office for Nanotechnology Collaboration
- Promotion Office of Integrative Mathematics

Institute for Genetic Medicine (IGM)

[Joint Usage/Research Center]

The Institute for Genetic Medicine was established in April 2000, merging the Institute of Immunological Science and the Cancer Institute of the School of Medicine. Together, these institutes have ninety years of experience to tap into to achieve the institute's mission to elucidate the molecular basis of various illnesses, including cancer, immune diseases, infectious diseases, and cardiovascular diseases, and to provide methods for diagnosing and treating these illnesses.

Molecular Pathogenesis

- RNA Biofunction
- Stem Cell Biology
- Signaling in Cancer and Immunology
- Molecular Psychoimmunology

Pathophysiology

- Cancer Biology
- Developmental Immunology
- Molecular Oncology
- Immunobiology

Disease Control

- Disease Model Innovation
- Functional Immunology
- Molecular Interaction
- Biomedical Oncology

Endowed Department

- Probiotics Immunology

Frontier Research Unit

- Biomedical Animal Research Laboratory

Affiliated Facilities

- Laboratory for Animal Experiments
- Center for Infection-Associated Cancer

Institute for Catalysis

[Joint Usage/Research Center]

Catalysis science is in high demand for building a sustainable society through timely responses to ever-increasing needs for environmental conservation, resources, and energy. The Institute for Catalysis was launched based on the success of the Catalysis Research Center, and our mission is to fulfill this demand and become a global center for catalysis science research. We promote high-level education and joint research to attain our goals.

Department of Fundamental Research

- Catalyst Surface Research Division
- Catalysis Theory Research Division
- Surface Molecular Science Research Division
- Catalytic Transformation Research Division
- Catalyst Material Research Division
- Photocatalysis Research Division
- Molecular Catalyst Research Division
- Macromolecular Science Research Division

Department of Practical Applications

- Research and Development Division

Department of Targeted Research

Central Research Section:

- Research Cluster for Sustainable Catalyst

Extensive Research Section:

- Research Cluster of Well-Defined Surface Nanostructures
- Research Cluster of Bio-Interfaces
- Research Cluster for Plasmonic Photocatalysis
- Research Cluster for Acid-Base Catalysis
- Research Cluster for Functional Alloy Catalyst
- Research Cluster of Transition-metals-induced Synthesis and Transformation of Polymer

Affiliated Facilities

Catalysis Collaborative Research Center

Research Centers

Data as of April 1, 2019

Slavic–Eurasian Research Center

[Joint Usage/Research Center]

The Slavic–Eurasian Research Center (SRC) at Hokkaido University dates back to the early 1950s, when the need for independent Japanese research and evaluation of the wider world was influenced by new techniques called “Area Studies” coming from the United States. The center engages in interdisciplinary regional study through the cooperative expertise of the humanities and social sciences. Team work continues to be the SRC’s hallmark. As a designated “national joint-use facility,” the SRC works with Japanese scholars elsewhere and the larger global community both to keep Japan informed of what is happening in the ever-changing Slavic–Eurasian region

and to disseminate the research achievements of Japanese specialists. Maintaining the best library in Asia on Slavic–Eurasian studies lies at the core of the SRC mission, attracting scholars from other Asian countries and beyond. To improve scholarly communication and education, the SRC has concluded bilateral agreements with dozens of institutes and universities throughout the region, as well as such area studies heavyweights as Harvard, Oxford, Seoul National University, and the Chinese Academy of Sciences.

- Russian Studies
- Siberian and Far Eastern Studies

- Central Eurasian Studies
- East European Studies
- Comparative Studies

Information Initiative Center

[Joint Usage/Research Center]

The Information Initiative Center was established in April 2003 to promote advanced research towards the development of information and communications technology (ICT), as well as to help the university construct and maintain its ICT infrastructure. The center endeavors to promote educational research and support the university in carrying out its curriculum based on these developments. In addition, the center also plays an important role as a resource center for nationwide ICT collaboration in supercomputing and cloud computing.

Research Department

- Digital Contents

- Media Education
- System Design
- Cyber Security

Cyber Security Center

Research Center for Zoonosis Control

[Joint Usage/Research Center]

To establish effective strategies for the control of zoonoses, the Research Center for Zoonosis Control conducts global surveillance to identify the natural host animals and transmission routes of zoonotic pathogens. Collected materials are used for basic research aiming to reveal molecular determinants of the pathogenicity and host range of infective agents. Research materials and outcomes are stored in a database and shared as biological resources for the development of diagnostic tools and vaccines. In addition, the center handles the diagnosis of field materials collected in other countries. Lectures and training courses are provided to foster “Zoonosis Control Experts” who are involved in implementing zoonosis control in the field. In 2011, the World Health Organization designated the Hokkaido University Research Center for Zoonosis Control as a WHO Collaborating Centre for Zoonoses Control.

Research Divisions

- Division of Global Epidemiology
- Division of Molecular Pathobiology
- Division of Bioresources
- Division of Collaboration and Education
- Division of Bioinformatics
- Division of Infection and Immunity
- Division of Anti-Virus Drug Research, Shionogi & Co., Ltd.

Units and Laboratories

- Unit of Risk Analysis and Management
- Laboratory for Biologics Development
- Unit of International Cooperation

Overseas Center

Hokudai Center for Zoonosis Control in Zambia

Research Centers

Central Institute of Isotope Science

Provides facilities for educational training and research on radioisotope use, supervises their use in the university, and conducts research and development on isotope science.

Research Center for Integrated Quantum Electronics

Promotes research on the creation of novel semiconductor nanostructures, on the scientific principles governing novel electronic materials, and on novel devices and circuits for energy production and saving. Encourages the transfer of innovative technologies to industry through R&D collaborations.

Field Science Center for Northern Biosphere

Conducts comprehensive research on the Northern Biosphere based on field science, and provides educational and research support.

Center for Advanced Tourism Studies

Conducts comprehensive, practical and advanced education and research on tourism through collaborations with various actors including governments, international organizations, universities, institutions, and the private sector.

Center for Ainu and Indigenous Studies

Cooperates with the Ainu people to promote interdisciplinary research and education on indigenous peoples, and builds a network with similar institutions around the world and with indigenous organizations.

Center for Experimental Research in Social Sciences

Advances experimental studies in the social sciences, develops and promotes young social scientists, and engages in research activities internationally.

Center for Environmental and Health Sciences

Conducts large-scale epidemiological research projects on environmental and health sciences, the results of which are presented nationally and internationally. Educates individuals who can develop research in the field and promotes closer links between domestic and foreign research groups and organizations. Designated as a WHO Collaborating Centre for Environmental Health and Prevention of Chemical Hazards.

Arctic Research Center

[Joint Usage/Research Center]

Promotes trans-disciplinary approaches to the sustainable development and utilization of the Arctic, and conducts integrated studies on solutions to problems through collaborations between different fields, including the natural, social and practical sciences.

Center for Natural Hazards Research

Facilitates inter-departmental research on various hazard types and offers relevant education programs, aiming to help build a resilient society.

Educational Centers

Research and Education Center for Brain Science

Provides programs for graduate students on brain science through the study of different brain functions, cognition, and behaviors during critical periods. Aims to develop global brain researchers and new research fields through an environment that integrates intellectual disciplines from the arts and sciences.

Center for Language Learning

Provides foreign language and language-related courses to students who seek to acquire or improve their skills. Develops online multimedia resources that facilitate language learning and provide in-depth language practice.

Education and Research Center for Mathematical and Data Science

Develops human resources capable of resolving social problems, finding a new challenge to tackle and producing value from data using mathematical thinking and skills to analyze/utilize data. Furthermore, this center focuses on contributing to achieving “Super Smart Society” and enhancing competitiveness in society.

Specific Operations

Student Advice and Counseling Center

Provides professional services to promote students' psychological as well as academic adjustment.

Health Care Center

Provides medical checkups, health consultations, and primary care for non-critical conditions such as cuts, burns, colds and flus, and stomach issues to students and staff.

Archaeological Research Center

Promotes and facilitates the rescue excavation, study, conservation, and public understanding of Hokkaido University's archaeological heritage.

Hokkaido University Museum

Data as of April 1, 2019

The Hokkaido University Museum was established in 1999. The main roles of our museum are to collect scientifically significant specimens and historical documents, to hold exhibitions based on the results of past and present research, and to offer educational programs to students and the public.

The Hokkaido University Museum reopened to the public on Tuesday, July 26, 2016, following a major renovation. The upgraded museum showcases the university's twelve undergraduate schools.

With a café, museum shop, and a multipurpose space, students, teaching staff and local citizens alike can enjoy the museum more than ever.

Opening hours: 10:00-17:00 (Fridays 10:00-21:00, June–October)

Closed: Mondays, September 9, December 28–January 4, January 19–20, and March 12 (When a national holiday falls on a Monday, the Museum will be open that day and closed the weekday directly following the end of the holiday)

The Fisheries Science Center

The Fisheries Science Center is a branch of the Hokkaido University museum located at Hakodate Campus. The center features exhibits of a complete skeleton of a Bryde's whale with a total length of 15 m, materials from Hokkaido University's training ships, and more.

Opening hours: Monday–Friday, 10:00–16:00

Closed: Public Holidays and December 28–January 4

Hokkaido University Archives

The Hokkaido University Archives were established in 2005. We collect, organize, preserve, and allow public access of important documents and materials related to the University's history.

We conduct research on these documents and Hokkaido University's history, as well as introduce research results by publishing yearly reports and holding meetings and exhibitions.

The Reading Room is open to the public to consult archival documents. There is a permanent exhibition of Hokkaido University's history in the Exhibition Hall and the Exhibition Room.

Opening hours: Monday–Friday, 9:30–16:30

Closed: Public Holidays and December 29–January 3

Exhibition Hall

Reading Room

University Library

As one of Japan's leading research libraries, the Hokkaido University libraries hold approximately 3.80 million books and journals, including a unique collection of materials focused on the northern region. To raise the standard of academic communication, we continue to increase our electronic collection and develop our institutional repository. With a seating capacity of around 1,600, our libraries continue to play a vital role as places of learning.

Global Institution for Collaborative Research and Education (GI-CoRE)

The Global Institution for Collaborative Research and Education (GI-CoRE) was formed as a faculty organization under the direct control of the President that brings together world-class teaching staff from around the world to conduct collaborative research with University scholars. Aims include the promotion and support of international collaborative research and the promotion of education that leverages the University's strengths and distinctive features.

Global Station for Quantum Medical Science and Engineering (GSQ)

The GSQ, based at the Proton Beam Therapy Center, facilitates innovative collaborative studies in radiation oncology, radiation biology, medical physics, and biomedical informatics. In collaboration with the Radiation Oncology Department of Stanford University School of Medicine, the GSQ conducts world-leading research to develop high-precision cancer treatment that is less invasive and can prevent the recurrence of cancer.

Global Station for Zoonosis Control (GSZ)

The GSZ forms a consortium to promote research and education on zoonosis control with the University of Melbourne, University College Dublin, King Abdullah University of Science and Technology and Hokkaido University, and conducts research for disease prevention diagnosis and treatment.

Global Station for Food, Land and Water Resources (GSF)

The GSF was launched as a research center, closely associated with the Graduate School of Global Food Resources, to develop the research to solve the global issues in the field of food, land and water resources. Eminent researchers in different disciplines from all over the world have been actively promoting interdisciplinary research and practical studies.

Global Station for Soft Matter (GSS)

The GSS was established to further the progressive development for soft matter, which contributes to solve social problems such as aging, environmental pollution and lack of resources. In collaboration with ESPCI Paris, Duke University and others, the GSS aims to expand the world-leading fundamental scientific research of soft matter, innovative soft materials discovery and its medical application.

Global Station for Big Data and Cybersecurity (GSB)

The GSB was launched as an interdisciplinary research hub to cover big data, information networks, and cybersecurity promoting international collaborative research with the University of Massachusetts Amherst and the University of Technology Sydney.

Global Station for Arctic Research (GSA)

The GSA was launched as a research hub to promote interdisciplinary Arctic research and expand international research networks based on the natural sciences, engineering, humanities and social science, in close collaboration with the University of Alaska, North-Eastern Federal University, University of Oslo and Nord University, which have had remarkable academic achievements in Arctic research.

Front Office for Human Resource Education and Development

This office consists of S-cubic, I-HoP, L-Station, FResHU, and COFRe offices. Its aim is the education and career development of young postdoctoral researchers and PhD students. (http://www2.synfoster.hokudai.ac.jp/cgi-bin/index.pl?view_category_lang=2)

Superior Skill Station (S-cubic)

The Superior Skill Station (S-cubic) provides a wide variety of career development support programs such as seminars, workshops, company visits, and matching events for PhD students and post-doctoral researchers (DC, PD) with native Japanese communication skills or the equivalent.

Hokudai International Human Resource Development Program (I-HoP)

The International Human Resource Development Program (I-HoP) provides career development support for international DCs and PDs in English. It offers career counseling in English and Japanese, events for career matching with Japanese and global companies and seminars/workshops to enhance transferable research skills.

Office for Developing Future Research Leaders (L-Station)

L-Station plays an important role in fostering and supporting skilled young researchers by advertising posts both domestically and internationally. The office also aims to organize social events and help them prepare for their tenure review.

Support Office for Female Researchers (FResHU)

Female students and research and teaching staff need a work environment in which their talents can develop to their full potential. To this end, the Support Office for Female Researchers in Hokkaido University (FResHU) provides support career development and work-life management.

Consortium Office for Fostering of Researchers in Future Generations (COFRe)

Hokkaido University is working in partnership with Tohoku University and Nagoya University to create collaborative programs to cultivate and support young researchers. COFRe provides their activities by utilizing the systems that S-cubic and L-Station have been building so far.

Creative Research Institution (CRIS)

The Creative Research Institution (CRIS) is a university-wide organization dedicated to the promotion and support of priority research programs based on HU's strategic research policy. It also strives to create new academic disciplines and advance cutting-edge science and technology based on the development of human resources who will contribute to achieving these aims.

Research Department

The Research Department is dedicated to creating new research themes based on HU's strategic research policy, fostering young researchers, and extending support to stimulate collaborations between industry and academia.

Center for Promotion of Platform for Research on Biofunctional Molecules

The center promotes project-type joint research programs based on industry–government–academia collaboration. It also manages and operates North Campus Integrated Research Building No. 6 and the Platform for Research on Biofunctional Molecules (PRBM) as a hub for drug discovery and functional food development.

Office for the Promotion of Nanotechnology Collaborative Research

This office supports collaboration on research in the field of nanotechnology across the university, as well as with other research institutions. In addition, the office manages nanotechnology research facilities and supports their use.

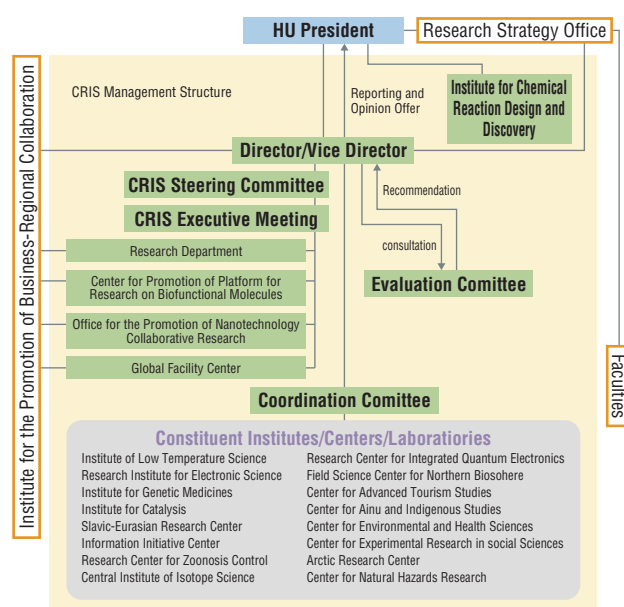

Global Facility Center

The Global Facility Center maintains, manages, and operates laboratory equipment and facilities for shared use by HU faculty members, students, etc. It also promotes the use of advanced university laboratory equipment and facilities not only among faculty members and students, but also by domestic and foreign non-HU researchers. The center is also responsible for matters concerning sample analysis.

The Institute for Chemical Reaction Design and Discovery (ICReDD)

The Institute for Chemical Reaction Design and Discovery (ICReDD) was adopted by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) in the context of the “World Premier International Research Center Initiative (WPI)” and was established at Hokkaido University in October 2018. The purpose of the WPI is to form “highly visible research centers” that conduct research in internationalized research environments and on a world-class level. ICReDD is one of 13 research centers currently in the country.

Led by Center Director Satoshi Maeda, the center is a cooperation between the three academic fields of computational science, information science, and experimental science. Their aim is to purposefully design and exert control over chemical reactions, which are so essential to human life, thus establishing the new research field of “chemical reaction design and discovery.” In addition, an international academic exchange program, called MANABIYA (the old Japanese word for “school”), will be set up to disseminate the methods of the new research field to the world. As a result, researchers at home and abroad can learn how to develop new chemical reactions through joint research at ICReDD, and we aim to create a brain-circulating society in which each researcher can use newly acquired technologies for their own purposes.

ICReDD kick-off symposium, December 2018

Institute for the Advancement of Higher Education

The institute strengthens the educational cooperation between the university's various faculties and schools, improves the educational functions of the university, and promotes studies on higher education to achieve our goals and realize our ideals.

General Education Division

Plans, drafts, and makes adjustments to curriculum. The division includes the General Education Laboratory Exercise in Natural Sciences.

Graduate School Education Division

Plans, drafts, and makes adjustments to common subjects across the university's graduate schools, and promotes leading graduate school programs.

First-year Education Division

Provides services for first-year students, such as course planning, educational guidance, and assistance in preparing for the second year of university. Manages the university register.

Higher Education Research and Development Division

Involved in practical research and study concerning higher education.

International Education and Research Division

Provides international education for international and domestic students, and conducts research on education to promote the internationalization of the university.

Nitobe College Education and Research Division

Implementation of educational programs in Nitobe College and research and study on Nitobe College programs.

Center for Teaching and Learning

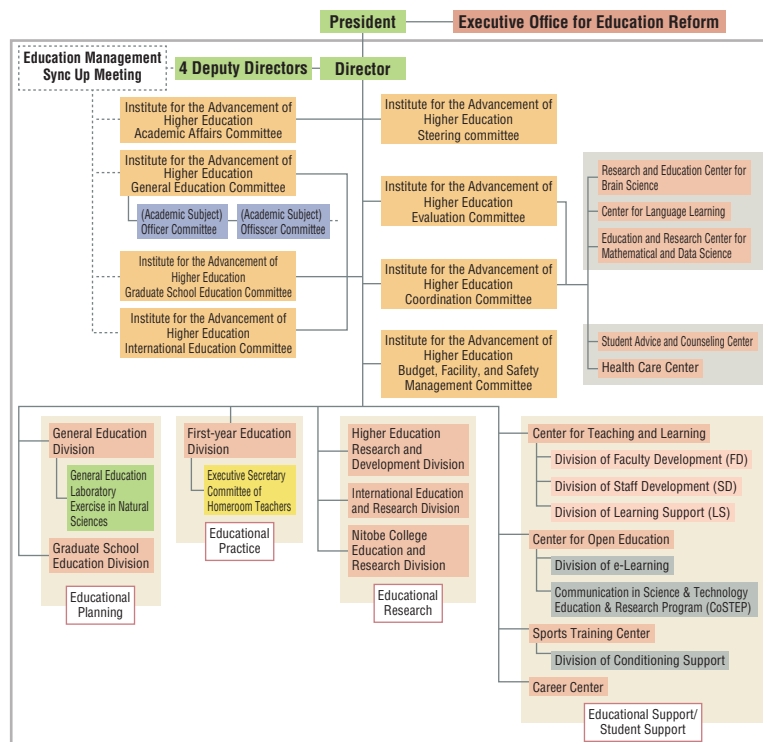

Consists of three divisions: Faculty Development (FD), Staff Development (SD), and Learning Support (LS). The center is responsible for FD and SD in the university, and acts as a training center for Hokkaido Prefecture. LS is for students enrolled at the university.

Center for Open Education

Consists of two divisions: e-Learning and the Communication in Science & Technology Education & Research Program (CoSTEP). The center researches and develops open education resources and supports teaching and learning. It also educates and researches about science & technology communication.

Sports Training Center

Provides physical education instruction for university students and staff. The center includes the Division of Conditioning Support.

Career Center

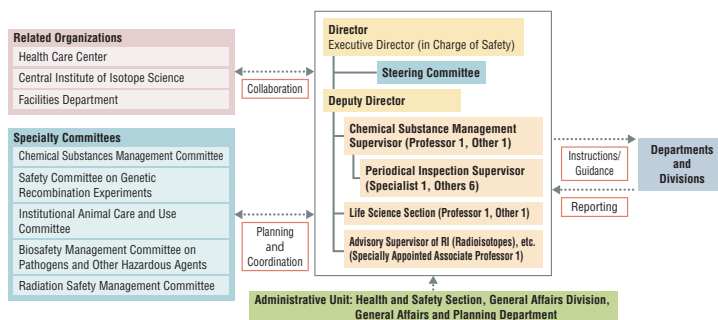

Offers practical and systematic assistance to students for their career development. Students gain the basic knowledge & skills, self-awareness, and employment responsibilities needed in the process of job-hunting through seminars and consultations.

Office of Health and Safety

HU has various educational and research sites for a diverse range of research fields throughout the huge campus. The Office of Health and Safety was established in March 2011 as an organization to plan, design, and supervise on-campus health and safety. The office helps manage health and safety in cooperation with various faculties and related organizations. Their activities include periodical inspections by health officers, investigations at the life science facilities, and providing materials on safety education and lectures.

Periodical inspection by the health officer

Office for Enhancing Institutional Capacity

The office takes action to improve our research capabilities and increase educational and research activities on a global scale.

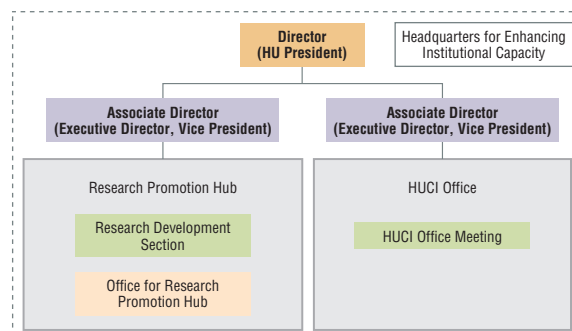

Research Promotion Hub

The Research Promotion Hub is mainly involved in promoting research on projects to enhance institutional capacity for the next-generation.

The Research Development Section carries out system reforms for enhancing institutional capacity, with a focus on reinforcing research capacity and globalization, improving multidisciplinary and university-wide research strategy planning, and promoting research.

Hokkaido Universal Campus Initiative (HUCI) Office

The HUCI Office manages and monitors the university's progress to achieve the goals outlined in the "Hokkaido Universal Campus Initiative." This initiative influences HU's capacity to collaborate with various higher education institutions overseas in educating the next generation of leaders who will contribute to the resolution of global issues. We have received "Top Global University Project" grants for the years 2014–2023 by the Japanese government in order to sufficiently address these aims.

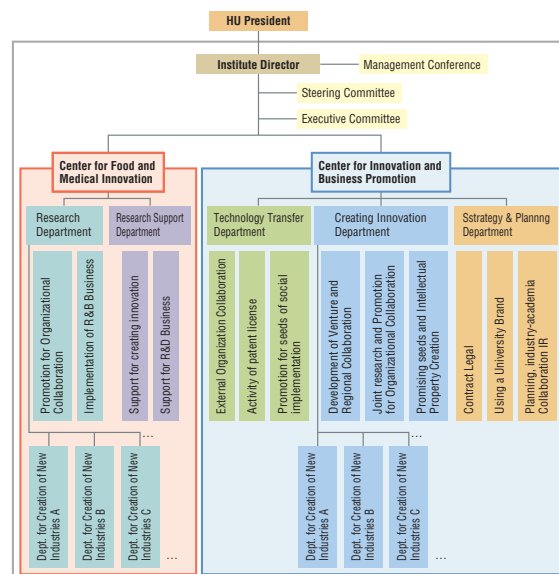

Institute for the Promotion of Business-Regional Collaboration

The Institute for the Promotion of Business-Regional Collaboration comprises the Center for Innovation and Business Promotion, which engages in coordination of joint research and the creation of intellectual properties (IPs), and the Center for Food and Medical Innovation, which promotes and facilitates collaboration between food and medical companies and the university.

To promptly share the university's results to society, the institute systematically expands the university's IPs to commercialization in companies and policy proposals in local governments. The institute aims to implement a broad variety of university research results directly to society by realizing a next-generation of collaboration with companies, communities, and other universities.

Center for Innovation and Business Promotion

Department	Tasks
Strategy & Planning Department	Planning and promotion for strengthening the function of industry-academia-government collaboration. <ul style="list-style-type: none"> Planning of policies for industry-academia-government collaboration, formulation of operation guidelines, and promotion of planning and execution. Using strategy of industry-academia collaboration "IR", promotion of effective using social of the Hokkaido University Brand.
Creating Innovation Department	Promotion of organizational type of industry-academia-government collaboration which create Hokkaido University's innovation. <ul style="list-style-type: none"> Promotion of strategic organizational collaboration to connect from promising seeds and create Intellectual property to large-scale joint research. Support entrepreneurship from "Education of Entrepreneur" and "Hokkaido University Start-up Companies".
Technology Transfer Department	Promoting social implementation of research seeds from patent license and joint research with companies. <ul style="list-style-type: none"> Marketing and negotiation of contracts to the industry such as intellectual property owned by Hokkaido University. Intellectualization and discovery of our research seeds that fit in company needs.

Center for Food and Medical Innovation

Department	Tasks
Research Department	Takes part in implementing research and development projects at the Global Research Hub for Food and Medical Innovation. <ul style="list-style-type: none"> Establishes research organizations for systematic business collaborations (Department for Creation of New Industries).
Strategic Support Department	Supports research and development projects at the Global Research Hub for Food and Medical Innovation. <ul style="list-style-type: none"> Promotes and supports research and development projects for creating innovations that link food, physical activity, health, and medical-related initiatives

Institute for International Collaboration (IIC)

The IIC was reorganized from the Office of International Affairs (OIA) in October 2016 to promote the HUCI (Hokkaido Universal Campus Initiative, see page 43), one of the plans to be implemented for the "Future Strategy for the 150th Anniversary of Hokkaido University." The IIC enhances the internationalization of education and research, and fosters students with the ability to understand and communicate with different cultures toward the resolution of global issues. Since the organizational changes in 2018, the IIC has been an institute mainly for planning and implementing international strategies. The Department related to education was transferred to the Institute for the Advancement of Higher Education.

Operating Organizations

- Overseas Office Coordination Unit
- International Coordination Unit

Main activities

- Planning and implementing international strategies, international collaborations and cooperation with the overseas universities and institutes
- Promoting the university internationally and networking with alumni living overseas

International Exchange Day in China

Sustainable Campus Management Office

A "Sustainable Campus" means a "university that contributes to the building of a sustainable society through education, research, societal collaboration, and campus development". It is not something that merely means a "campus with low environmental impact." It aims to practically and multilaterally support the well-being of a society by "expanding education and research that are rooted in social challenges as policies of the entire university" and "implementing campus development that harmonizes with surrounding areas."

The "Sapporo Sustainability Declaration," which was adopted at the G8 University Summit held in 2008 in Sapporo, was the first in Japan to widely declare the concept of a Sustainable Campus as a major university strategy. Preceding this, initiatives to adopt the principles of sustainable development into university administration started in the 1990s, mainly in universities in North America, as a result of higher education institutions being influenced by national policies and various internationally-adopted declarations.

Today, Sustainable Campus initiatives are regarded as a natural responsibility in various higher education institutions across Europe, the United States and Canada. Hokkaido University established its Office for a Sustainable Campus in 2010, and has been leading Sustainable Campus initiatives among Japanese higher education institutions to this day. From April 1, 2018, the office was reorganized into the "Sustainable Campus Management Office." With further flexibility and efficiency, it covers campus planning and management, facility environment management, assessment of a sustainable campus, and cooperation with external organizations. <https://www.osc.hokudai.ac.jp/en>

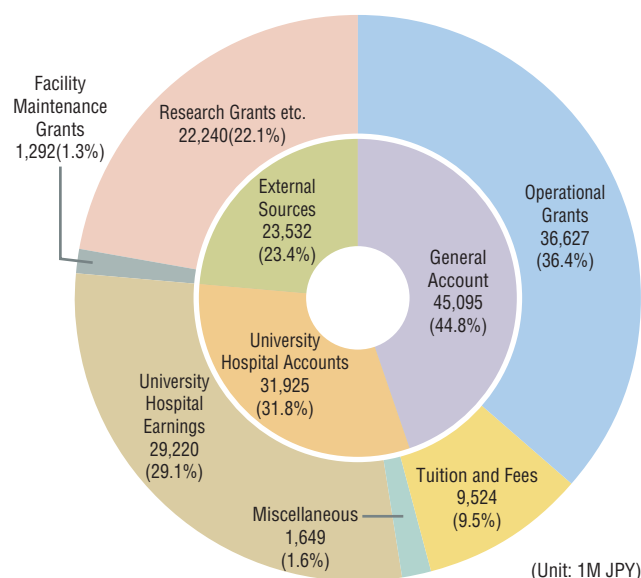

Energy Saving Awareness Posters

As for initiatives for saving energy / resources specifically on science laboratories, a pioneer Mr.Farley of Green Lab Associates in UK had visited and advised laboratories in Hokkaido University (2018).

Note:

- Upper number for Professional Course > Graduate School of Law is the number of students enrolled in a 3 year program. Lower number is the number of students enrolled in a 2 year program.
- Upper number for Doctoral Course > Graduate School of Life Science is the number of students enrolled in a 3 year program. Lower number is the number of students enrolled in a 4 year program.
- Upper number for Master's Course > Graduate School of Medicine is the number of students enrolled in a 1 year program.

Number of Enrolled Students

1. Students enrolled in Autumn are not included.

2. Number of females indicated in red in parentheses ().

3. Number of Japanese students who were educated abroad indicated in brackets []. This number is counted independently to the number outside of the brackets.

Nitobe College

Special Short-term Overseas Program

Fellow Seminar (site visit to Sapporo Central Fish Market)

Intensive team-based, active-learning curriculum

Two special Hokkaido University programs, Nitobe College for undergraduates established in AY 2013 and Nitobe School for graduates established in AY 2015, were integrated as Nitobe College and launched as a six-year program in AY 2019. The new program consists of a Foundation Program and Honors Program, and aims to foster students with leadership skills who can contribute to solving global issues.

Undergraduate Education Course

An interdisciplinary educational program that is administered in parallel to the existing twelve undergraduate schools. Practical all-round education is provided with the aim of fostering students with an international mindset and global perspective.

- Independent and overseas study program to enhance expertise
- Leadership curriculum to develop leadership skills and mindsets
- Global career development by Nitobe College Fellows, alumni of the university who have reached the top of their respective professions.

Graduate Education Course

Offered alongside the students' graduate studies, the program aims to develop the qualities and skills essential in finding creative solutions to global problems and to create socially valuable concepts in the international community. Based on high level expertise in each specialized field of graduate studies, Nitobe College focuses on developing competencies, namely the "ability to attain sustainable personal development," "skills of team organization and management," "capability of knowledge sharing and application for social benefit," and a strong sense of "professional ethics" in accordance with each specialized field of graduate studies.

- Microcosm of international society
- Cross-disciplinary learning environment
- Intensive team-based, active-learning curriculum
- Global network to support career building

Admission Center

The Admission Center helps match students who want to study at Hokkaido University with our faculties and research institutes. The center is responsible for conducting entrance examinations and overseeing admissions. It is open to everyone who wants to study at Hokkaido University: high school graduates, adults who want to continue their education, undergraduates who want to go on to graduate school, and even junior high and elementary school students who wish to use our educational facilities.

Career Center

The Career Center provides advisory services tailored to the needs of each student to help them plan their careers. It also holds recruitment events, offers individual consultations, and acts as a gateway to internships and fruitful business connections.

Modern Japanese Studies Program (MJSP)

The Modern Japanese Studies Program (MJSP) is a four-year Bachelor's Degree program, preceded by a six-month Intensive Japanese Course for students without sufficient Japanese to enter the Bachelor's Degree program directly.

The program has four main characteristics:

- Intensive study of the Japanese language—students should be completely fluent on graduation
- The study of Japan in four main academic disciplines—history, cultural studies, sociology, and political economy
- Co-learning with Japanese students—students will take many classes with their Japanese peers
- A flexible curriculum that allows students to discover their Japan from the unique and multicultural vantage point of Japan's northernmost island

Students start by taking intensive Japanese courses alongside social sciences courses in English. Once students have sufficient Japanese, they may take courses in Japanese in the faculties of Law, Humanities and Human Sciences, Education, and Economics & Business.

Integrated Science Program (ISP)

The Integrated Science Program (ISP) is a cross-disciplinary educational science program for international students interested in pursuing a degree in the natural sciences in the Bachelor's and Master's. The program's strong cross-disciplinary nature aims to give students an excellent broad scientific education across the core scientific disciplines (physics, chemistry and biology) in the School of Science, while allowing them to specialize in their chosen fields in later years in accordance with their own interests. While students' main scientific studies are entirely in English, a multitude of additional courses such as business skills courses or leadership and management skills courses will be available in the liberal arts and Japanese language to ensure students receive a rich and fulfilling education while at Hokkaido University.

Hokkaido Summer Institute

Hokkaido University (HU) started the Hokkaido Summer Institute (HSI) in 2016. The HSI is a program that brings together world-leading researchers with proven educational and research records, and provides educational courses in cooperation with HU faculty members.

The HSI offers more than 100 courses mainly from June to September and allows more than 400 students from overseas universities and 1,200 HU students to expand their knowledge of subjects in research fields in which the university specializes.

Program participants have an opportunity to attend classes taught using attractive educational techniques such as field training utilizing Hokkaido's extensive land and active learning to develop human resources capable of thriving on the world stage.

The medium of instruction is English. This provides international students with a stress-free learning environment without having to worry about language barriers and also creates a special opportunity for Japanese students who can take classes taught by internationally acclaimed researchers. The university has high expectations that HSI students will cultivate a better understanding of other cultures and improve their English-language proficiency and communication skills through exchanges with researchers and students from other countries.

Learning Satellite

Hokkaido University (HU) has established learning satellites around the globe to offer courses to students from HU and overseas universities in line with its vision of becoming an institution that contributes to the resolution of global issues as stated in the Future Strategy for the 150th Anniversary of Hokkaido University. The Overseas Learning Satellite Project is an educational program under the Hokkaido Universal Campus Initiative (HUCI), a university reform program that was selected by the Ministry of Education, Culture, Sports, Science and Technology for the "Top Global University" Project.

By offering various programs around the globe that allow students from HU and from countries beyond Japan to learn together, this project aims to nurture talented individuals who are capable of contributing to the resolution of global issues and aims to promote collaboration between faculty members at HU and overseas universities in order to internationalize and enhance the quality of HU educational programs. The project aims to develop joint educational programs (e.g., double-degree programs and cotutelle programs) and research collaborations with overseas institutions.

Overseas Satellite Offices

Data as of April 1, 2019

The Overseas Satellite Offices were established to provide a higher level of information and services regarding the university and its entrance examinations to potential students. Staff at these offices plan events, negotiate with local universities to establish inter-university partnerships, and support former international students in alumni association activities. These offices also serve as hubs for HU faculty members when they visit these cities for research activities.

Korea Office in Seoul

Address	703, Handuk Building, 11, Teheran-ro 7-gil, Gangnam-Gu, Seoul, Korea 06134
Telephone	+82-2-501-9400
Fax	+82-2-501-9410
E-mail	seouloffice@hokudai.kr
Office Hours	Weekdays 09:00–17:00 (closed on Saturdays, Sundays, and Korean national holidays)

Endowed Laboratories

Data as of April 1, 2019
(Number of Laboratories: 24)

Faculty/Department, etc.	Laboratory Name	Period	Endower
Faculty of Science	Research Field of Hokkaido Weather Forecast and Technology Development (Endowed by Hokkaido Weather Technology Center Co. Ltd.)	Apr. 1, 2019–Mar. 31, 2022	Hokkaido Weather Technology Center Co., Ltd.
Faculty of Agriculture	Laboratory of Cooperative's Reison D'être	Jan. 1, 2016–Mar. 31, 2020	The Norinchukin Bank
Faculty of Health Sciences	Department of Food and Nutrition for Health Promotion (WATANABE OYSTER)	Jan. 1, 2010–Dec. 31, 2019	Watanabe Oyster Laboratory Co., Ltd.
	Department of Biological Response and Regulation	Sept. 1, 2016–Aug. 31, 2019	Nissho Alumi Industry Co., Ltd., MEDICUS SHUPPAN, Publishers Co., Ltd., Ikeda tohka Industries Co., Ltd., Genmai Koso Co., Ltd.
Faculty of Engineering	Laboratory of Nuclear Power Infrastructure and Technologies	Mar. 1, 2017–Feb. 29, 2020	Hokkaido Electric Power Co., Inc., Electric Power Development Co., Ltd., Japan Nuclear Fuel Limited, Hitachi-GE Nuclear Energy, Ltd., Mitsubishi Heavy Industries, Ltd., CSA of Japan Co., Ltd., Tohoku Electric Power Co., Inc., Toshiba Energy Systems & Solutions Corp.
	Laboratory of Biomass Analysis Technology	Apr. 1, 2017–Mar. 31, 2022	Advantec Co., LTD.
	Laboratory of Resources Environment and Remediation	Jul. 1, 2017–Mar. 31, 2021	Mitsubishi Materials Corporation
	Laboratory of Disaster Prevention Systems Research	Apr. 1, 2018–Mar. 31, 2021	RIVER CENTER of HOKKAIDO
	Laboratory of Biomass Community Planning	Oct. 1, 2018–Sept. 30, 2021	IDEA Consultants, Inc., IWATA CHIZAKI Inc., OYO Corporation, Ohara Corporation, Ogawa Construction Corporation, Kajima Corporation, Cornes AG Corporation, Taisei Corporation, Tsuchiya Dairy Equipment Mfg. Co., Hitachi Cement Co., Ltd., Yachiyo Engineering Co., Ltd.
	Laboratory of Radiation Science and Medical Physics	Apr. 1, 2019–Mar. 31, 2022	Hitachi, Ltd.
Faculty of Medicine	Department of Advanced Medicine for Spine and Spinal Cord Disorders	Apr. 1, 2009–Mar. 31, 2020	Robert Reid Inc.
	Department of Ocular Circulation and Metabolism	Apr. 1, 2010–Mar. 31, 2022	NIDEK CO., LTD.
	Department of Transplant Surgery	Jan. 1, 2011–Dec. 31, 2020	MEDICAL SYSTEM NETWORK Co., Ltd., Mutoh Co., Ltd.
	Department of Advanced Clinical Glycobiology	Apr. 1, 2017–Mar. 31, 2022	SEI Group CSR Foundation
	Division of Diabetes and Obesity	Feb. 1, 2018–Jan. 31, 2021	ONO PHARMACEUTICAL CO., LTD., Mitsubishi Tanabe Pharma Corporation, ABBOTT JAPAN CO., LTD., Kowa Company, Ltd., Nippon Boehringer Ingelheim Co., Ltd.
	Department of Innovative Heart Failure Telemedicine	Sept. 1, 2018–Aug. 31, 2021	MEDTRONIC JAPAN CO., LTD., BIOTRONIK Japan, Inc.
	Department of Minimally Invasive Advanced Heart Failure Therapeutics	Sept. 1, 2018–Aug. 31, 2021	WIN INTERNATIONAL CO., LTD., MEDTRONIC JAPAN CO., LTD.
	Department of Preventive and Therapeutic Research for Metastatic Bone Tumor	Nov. 1, 2018–Oct. 31, 2020	SHIONOGI & CO., LTD., TAKEYAMA Co., Ltd., MEDTRONIC SOFAMOR DANEK, CO., LTD.
	Department of Community Heart Failure Healthcare and Pharmacy	Apr. 1, 2019–Mar. 31, 2024	MEDICAL SYSTEM NETWORK Co., Ltd., HOKUYAKU TAKEYAMA Holdings, Inc.
Hokkaido University Hospital	Research Division of Genome Companion Diagnostics	Apr. 1, 2012–Mar. 31, 2024	Sakura Fintek Japan Co., Ltd., Moroo Inc., Taiho Pharmaceutical Co., Ltd., Sysmex Corporation, Riken Genesis Co., Ltd., GeneticLab Co., Ltd., Nichirei Biosciences Inc., Miraca Research Institute G.K.
	Funded Research Division of Child and Adolescent Psychiatry	Apr. 1, 2019–Mar. 31, 2024	Sapporo City
	Research Division of Molecular Targeting Therapy and Prevention of GI Cancer	Apr. 1, 2019–Mar. 31, 2021	Tsushima Management Co., Ltd., Iiyama City (Japanese Red Cross Society Iiyama Hospital), Eiken Chemical Co., Ltd, Otsuka Pharmaceutical Co., Ltd.
	Department of Neurological cell therapy	Apr. 1, 2019–Mar. 31, 2021	Athersys, Inc.
Institute for Genetic Medicine	Department of Probiotics Immunology	Sept. 1, 2011–Mar. 31, 2020	MEGMILK SNOW BRAND Co., Ltd.

Industry Creation Laboratories

Data as of April 1, 2019
(Number of Laboratories: 16)

Faculty/Department, etc.	Laboratory Name	Period	Enterprise
Institute for the Promotion of Business-Regional Collaboration	Department of Molecular Therapeutics	Apr. 1, 2014–Mar. 31, 2020	Nitto Denko Corporation
	Division of Strategic Innovation Laboratory for Expressways	Jun. 1, 2015–Mar. 31, 2022	East Nippon Expressway Company Limited
	Optoquest next generation optical device R&D division	Nov. 1, 2015–Oct. 31, 2019	OPTOQUEST CO., LTD.
	Department of Food & Wellness Research, Morinaga Milk Industry Co. Ltd.	Dec. 1, 2015–Mar. 31, 2020	MORINAGA MILK INDUSTRY CO., LTD.
	Hokkaido Societal Innovation Research Department	Jun. 1, 2016–Mar. 31, 2022	Hitachi, Ltd.

Educational and Research Programs

Data as of April 1, 2019

The Program for Promoting the Enhancement of Research Universities

Period	Project Name	Representative
FY2013–FY2022	Enhancing Research Capabilities –Hokkaido University that Contributes to the Resolution of Global Issues–	Toyoharu Nawa, President

Program for Leading Graduate Schools

Period	Category	Program Name	Program Coordinator
FY2013–FY2019	Composite Category (Materials)	Ambitious Leader's Program Fostering Future Leaders to Open New Frontiers in Material Science	Kouichiro Ishimori, Dean, School/Faculty of Science

Top Global University Project

Period	Type	Name of Plan	Representative
FY2014–FY2023	Type A (Top Type)	Hokkaido Universal Campus Initiative (HUCI)—Collaborate with the World	Toyoharu Nawa, President

Inter-University Exchange Project

Period	Project Name	Program Supervisor
FY2017–FY2021	International Research Skills Program for Developing Sustainable Transportation System and Infrastructure (STSI Program)	Katsunori Nagano, Director, International Exchange Office of Engineering
FY2017–FY2021	Human Resource Development Platform for Japan-Russia Economic Cooperation and Personnel Exchange (HaRP Program)	Masanori Kasahara, Executive Director, Vice President

Support Projects for the Development of Human Resources in Science and Technology

Period	Project Name	Representative
FY2011–FY2019	Promotion and Standardization of the Tenure-Track System	Toyoharu Nawa, President
FY2016–FY2021	Leading Initiative for Excellent Young Researchers (LEADER)	Toyoharu Nawa, President
FY2018–FY2022	Doctoral program for Data-Related InnoVation Expert (D-DRIVE)	Toyoharu Nawa, President

Project for Promoting Public Utilization of Advanced Research Infrastructure

Period	Project Name	Representative
FY2016–FY2020	Imaging Platform	Toyoharu Nawa, President

Project for Promoting Public Utilization of Advanced Research Infrastructure (Support Program for Implementation of New Equipment Sharing System)

Period	Project Name	Representative
FY2017–FY2019	Microscopic Analysis for Nano Material Science & Bio Science Open Unit (MANBOU)	Toyoharu Nawa, President
FY2017–FY2019	One Health Open Unit (OHOU)	Toyoharu Nawa, President

Translational Research Strategic Promotion Program (Subsidy for Medical Research and Development Promotion)

Period	Principal Investigator	Co-Investigator	Project Name	Applicant
FY2017–FY2021	Hokkaido University	Sapporo Medical University, Asahikawa Medical University	Formation of an Open Access Center of Excellence for the Sustainable Creation of Medical Innovations	Toyoharu Nawa, President

Comprehensive Program for Improving Infrastructure to Promote Clinical Application of Innovative Medical Seeds (Subsidy for Medical Research and Development Promotion)

Period	Project Name	Applicant
FY2018–FY2019	Research and Development of Innovative Medical Technology with Patient Safety	Toyoharu Nawa, President

Nanotechnology Platform

Period	Project Name	Representative
FY2012–FY2021	The Nanofabrication Platform in Hokkaido University	Toyoharu Nawa, President
FY2012–FY2021	The Characterization Platform in Hokkaido University	Toyoharu Nawa, President

Research and Education Programs

Campuses

Science and Technology Research Partnership for Sustainable Development

Period	Project Name	Program Coordinator
FY2013–FY2018	Surveillance of Viral Zoonoses in Africa	Ayato Takada, Professor, Research Center for Zoonosis Control
FY2016–FY2021	Visualization of Impact of Chronic/Latent Chemical Hazard and Geo-Ecological Remediation	Mayumi Ishizuka, Professor, Graduate School of Veterinary Medicine
FY2017–FY2022	Development of Extreme Weather Monitoring and Information Sharing System in the Philippines	Yukihiro Takahashi, Professor, Faculty of Science

Support and Enhancement Project on Mathematics and Data Science Education

Period	Project Name	Representative
FY2017–FY2021	Education Program on the Development of Mathematical Data Literacy–Establishment of Education and Research Center for Mathematical and Data Sciences (Provisional)	Toyoharu Nawa, President

Human Resources Development Programs for Advanced Technology Dealing with “Society5.0”

Period	Project Name	Representative
FY2018–FY2022	Future Value Creator Development Program (a) Data Scientist Development Project Towards Realizing a Super Smart Society	Toyoharu Nawa, President

WISE Program (Doctoral Program for World-leading Innovative & Smart Education)

Period	Project Name	Program Coordinator
FY2018–FY2024	WISE Program for One Health Forntier Graduate School of Excellence	Motohiro Horiuchi, Dean, Faculty of Veterinary Medicine

World Premier International Research Center Initiative (WPI)

Year	Research Center Name	Director
FY2018–FY2027	Institute for Chemical Reaction Design and Discovery (ICReDD)	Satoshi Maeda, Professor

Joint Usage/Research Center (8)

Period	Facility	Research Area	Title	Type
FY2016–FY2021 (cont. from FY2010–2015)	Institute of Low Temperature Science	Low Temperature Science	Research Center for Low Temperature Science	Single type
FY2016–FY2021 (cont. from FY2010–2015)	Institute for Genetic Medicine	Basic Medicine Science	Joint Research Center for Cancers Induced by Chronic Bacterial and Viral Infections	Single type
FY2016–FY2021 (cont. from FY2010–2015)	Institute for Catalysis	Fundamental Catalysis and Catalysis for Sustainable Society	Center for Catalysis Science and Technology	Single type
FY2016–FY2021 (cont. from FY2010–2015)	Slavic–Eurasian Research Center	Area Studies	Japan Council of Russian and East European Studies	Single type
FY2016–FY2021 (cont. from FY2010–2015)	Research Center for Zoonosis Control	Zoonoses	Research Center for Zoonosis Control	Single type
FY2016–FY2021 (cont. from FY2010–2015)	Research Institute for Electronic Science	Materials and Devices	Network Joint Research Center for Materials and Devices	Network type (Core organization: Institute of Multidisciplinary Research for Advanced Materials, Tohoku University)
FY2016–FY2021 (cont. from FY2010–2015)	Information Initiative Center	Computational science, Computer science	Joint Usage/Research Center for Interdisciplinary Large-scale Information Infrastructures	Network type (Core organization: Information Technology Center, The University of Tokyo)
FY2016–FY2021	Arctic Research Center	Environmental Science	Japan Arctic Research Network Center Secretariat	Network type (Cooperating facilities) • Research Organization of Information and Systems, National Institute of Polar Research, Arctic Environment Research Center • Japan Agency for Marine-Earth Science and Technology, Institute of Arctic Climate and Environment Research

Joint Usage/Education Center (5)

Period	Facility	Title	Type
FY2015–FY2019	Field Science Center for Northern Biosphere, Aquatic Research Station (Usujiri Fisheries Station, Nanae Freshwater Station, Oshoro Marine Station)	Joint Usage Center for Practical Field Education of Fisheries Biology in Hokkaido	Fisheries Station
FY2015–FY2019	Institute for the Advancement of Higher Education (Center for Teaching and Learning)	Joint Usage Center for Faculty/Staff Development	Implementing Agency for Faculty/Staff Development
FY2016–FY2020	Oshoro-maru (Training Ship, School of Fisheries Sciences)	Joint Usage/Education Center for Training Cruises in Subarctic Marine Environment (Recertification)	Training Ship
FY2017–FY2021	Field Science Center for Northern Biosphere, Forest Research Station	Joint Usage Center for Practical Field Education of Forest Environment and Ecosystem Conservation (Recertification)	Experimental Forest, etc.
FY2017–FY2021	Field Science Center for Northern Biosphere, Aquatic Research Station (Akkeshi Marine Station, Muroran Marine Station)	International Joint Usage Center for Integrated Education of Marine Biology and Ecology in Cold-current Ecosystem (Recertification)	Marine/Lake Station

Collaborative Project Center (4)

Period	Name	Theme	Representative
FY2015–FY2019	Center of Education and Research for Topological Science and Technology	Topological Science and Technology	Satoshi Tanda, Professor, Faculty of Engineering
FY2017–FY2021	Meme Media Laboratory	R&D for Fundamental Technology of Advanced Knowledge and Information (Recertification)	Hiroki Arimura, Professor, Faculty of Information Science and Technology
FY2018–FY2022	Research Institute for Information Law & Policy	Information Law & Policy (Recertification)	Ichiro Nakayama, Professor, Graduate School of Law
FY2019–FY2021	Center for Life Innovation	Formation of a strategic base for developing drug candidates (Recertification)	Katsumi Maenaka, Professor, Faculty of Pharmaceutical Sciences

Properties and Possessions

Data as of April 1, 2019

Division	Total Area (m ²)	Building Floor Area (m ²)
Administration Bureau	307,579	42,341
Hokkaido University Museum	16,086	24,631
Hokkaido University Archive	4,677	1,545
Graduate School/Faculty of Letters	25,746	36,624

Hokkaido University Symbol

The Hokkaido University symbol is a stylized design of a Trillium Liliaceae (lily family), a perennial which grows wild on campus.

The design was selected in a contest in 1950, and in 1996, on the 120th anniversary of the university, it was altered to its present form and was formally made the university's symbol.

The petals and sepal which make up the six directions (East, West, South, North, Heaven, and Earth) symbolize the dissemination of information from Hokkaido University to Japan and to the world.
