

Hokkaido University Guidebook 2023

University Philosophies

Frontier Spirit

Our Frontier Spirit epitomizes the ideal that students, academics and administrative staff should resolutely take up their daily challenges with an eye to forging new paths. It has its origins in the words “lofty ambition” uttered by Dr. W. S. Clark during the opening ceremony of Sapporo Agricultural College. This basic philosophy has served as the foundation on which Hokkaido University has rested for more than a century. The twenty-first century frontier spirit manifests itself in our continued expansion of research in response to shifting academic paradigms and the new challenges facing humanity. Based on a firm foundation of academic freedom, Hokkaido University aims to encourage creative research that does not separate theory from practice, and to promote world-class studies to solve the problems confronting humankind. We will do so by dramatically improving our research and educational activities via the flexible organization of our graduate schools and other networks.

Global Perspectives

From its very start, Sapporo Agricultural College was always open to different world-views, introducing Western culture, science, and technology, and providing English-language lectures by foreign teachers. Ever since, many of our graduates have played active roles overseas, and our philosophy of the value of acquiring global perspectives has been passed down in many different forms. Needless to say, we must cultivate a better understanding of other cultures by enriching our liberal arts education, underpinned by an awareness of our own culture. By cultivating communication skills in foreign languages, we can better prepare ourselves for playing a more active role in the global arena. To help our students and staff acquire global perspectives and thus contribute to the development of an international society, Hokkaido University seeks to provide ample opportunities for study and research abroad. We actively encourage the admission of foreign students and researchers, and promote cultural and social exchanges with people in Asia, the northern regions, and throughout the rest of the world.

All-Round Education

Sapporo Agricultural College not only trained agricultural experts, but also produced graduates endowed with a rich humanity, lofty intellect, and broad range of knowledge. The results can be seen in the succession of outstanding thinkers and literary figures the college produced, including Kanzo Uchimura, Shigetaka Shiga, Inazo Nitobe, and Takeo Arishima. This philosophy of an all-around education has been handed down at Hokkaido University through our tradition of emphasizing a liberal arts education as the key to producing graduates armed with the well-rounded acuity and deep insights they need to apply their specialized knowledge. To further advance this philosophy, Hokkaido University seeks to provide an all-around education that will cultivate a rich humanity and lofty intellect, foster a spirit of freedom and independence, and encourage students to establish autonomous identities. We believe this kind of education produces graduates who respect human rights and have the basic abilities required to accurately respond to society’s needs.

Practical Learning

Our philosophy of emphasizing practical learning acquired a dual significance in the course of the various hardships Sapporo Agricultural College overcame as it developed into today’s comprehensive university. We view research as the process of creating universal learning that is integrated with the real world, and we seek to emphasize not only basic research but also focus on returning the fruits of our research to society by prioritizing its practical applications. The botanical research conducted by Kingo Miyabe and the research on snow by Ukichiro Nakaya, both carried out in the vast wilderness of Hokkaido, are outstanding examples of research on familiar topics that led to universal truths. Much of the research at Hokkaido University is developed in collaboration with regional industries. Hokkaido University intends to pursue a modern emphasis on practical learning, utilizing absolute truths that are grounded in the real world. By making full use of Hokkaido’s unique characteristics and expanding our collaborations within government, industry, and academia, we aim to give back the fruits of our research to Hokkaido, Japan, and the rest of the world. In addition, Hokkaido University strives to produce leading experts and professionals in our graduate schools, and to improve our adult education program.

History

Sapporo Agricultural College (1876–1907)

1876	7	Dr. William S. CLARK, then President of Massachusetts Agricultural College in the Unites States invited to be Vice President of Sapporo Agricultural College. He arrives in Sapporo with two American professors, W. WHEELER and D. PENHALLOW, and eleven American students.
	8	Sapporo Agricultural College inaugurated. Hokkaido University celebrates its founding anniversary on August 14.
	9	CHOSHO Hirotake named President of Sapporo Agricultural College.
	12	The Book-Stack Room (later the College Library) opens.
1878	10	The Martial Arts Training Facility (current Sapporo Clock Tower) constructed.
1881	2	MORI Genzo, then Hokkaido Development Commissioner, acts as College President.
1886	7	The Botanical Garden constructed.
	12	SATO Hideaki named Administrative Officer of Hokkaido Prefectural Government and Acting College President.
1887	3	SATO Shosuke named Acting President.
1888	12	HASHIGUCHI Bunzo named President.
1891	8	SATO Shosuke named Assistant President.
1894	4	SATO Shosuke named President.

Tohoku Imperial University (1907-1918)

1907	9	Sapporo Agricultural College becomes the Agricultural College of Tohoku Imperial University and adds preparatory courses. It is inaugurated on September 11. The Book-Stack Room renamed the College Library. SATO Shosuke named Dean of the Agricultural College of Tohoku Imperial University.
1909	2	<i>Oshoro-maru</i> built as a new training ship.

Hokkaido Imperial University (1918-1947)

1918	4	The Agricultural College of Tohoku Imperial University transferred to the newly established Hokkaido Imperial University, becoming the Agricultural College of Hokkaido Imperial University. SATO Shosuke named President of Hokkaido Imperial University and Dean of its Agricultural College.
1919	2	The Agricultural College of Hokkaido Imperial University renamed the School of Agriculture in Hokkaido Imperial University. The School of Medicine established.
1921	4	The Medical Clinic attached to the School of Medicine established (becomes operational in November 1921).
1922	5	The College Library renamed the Hokkaido University Library.
1924	9	The School of Engineering established.
1930	4	The School of Science established.
	12	MINAMI Takajiro named President.
1933	12	TAKAOKA Kumao named President.
1937	12	KON Yutaka named President.
1941	11	The Institute of Low Temperature Science established.
1943	2	The Institute of Catalysis Research established. The Institute of VHF Research established.
1945	7	The Administrative Office and the Student Affairs Office established.
	11	ITO Seiya named President.
1946	3	The Institute of VHF Research renamed the Institute of Applied Electronics Research.
1947	4	The School of Law and Letters established.

Hokkaido University (1947-2004)

1947	10	Hokkaido Imperial University renamed Hokkaido University.
1949	5	Under the National School Establishment Law, Hokkaido University reorganized into the new Hokkaido University with schools of law and letters, education, science, medicine, engineering, agriculture, and fisheries sciences (Hakodate). The Medical Clinic attached to the School of Medicine renamed the Hospital attached to the School of Medicine. ITO Seiya named President. The new training ship <i>Hokusei-maru</i> becomes operational.
	6	The Department of Liberal Studies established (renamed the School of Liberal Studies in April 1951).
1950	3	Preparatory courses abolished.
	4	The Institute of Tuberculosis Research established. The School of Law and Letters divided into the School of Letters and the School of Law and Economics.
	10	SHIMA Yoshichika named President.
1952	4	The School of Veterinary Medicine established.
1953	4	The new Graduate Schools of Letters, Education, Law, Economics and Business Administration, Science, Engineering, Agriculture, Veterinary Medicine, and Fisheries Sciences established.
	8	The School of Law and Economics divided into the School of Law and the School of Economics and Business Administration.
1954	10	SUGINOME Harusada named President.
1955	4	The Graduate School of Medicine established.
1957	7	The School of Liberal Studies renamed the School of Liberal Arts.
1958	4	The Graduate School of Pharmaceutical Sciences established.
1961	5	The Training Center for Engineering Teachers established (abolished in March 1969).
1965	4	The School of Pharmaceutical Sciences and Pharmacy established.
1966	10	FURUICHI Jiro named President.
1967	2	ABE Aata named Acting President upon the death of Jiro FURUICHI.
	5	HORIUCHI Juro named President.
	6	The School of Dental Medicine established.
	8	The Dental Hospital attached to the School of Dental Medicine becomes operational.
1969	4	The General Education Branch established at the Hokkaido University Library.
1970	4	The Large-scale Computer Center (joint usage/research center) established.
1971	3	The new study investigation ship <i>Ushio-maru</i> becomes operational.
	5	NIWA Kichizo named President.
1972	5	The Health Management Center established. The Physical Education Center established.
1974	4	The Graduate School of Dental Medicine established.
	6	The Institute of Tuberculosis Research reorganized into the Institute of Immunological Research.
1975	5	IMAMURA Shigekazu named President.
1977	4	The Graduate School of Environmental Science established.
1978	4	The Slavic Research Center established. The Central Institute of Isotope Science established.
1979	4	The Information Processing Education Center established. The Instrumental Analysis Center established.
1980	10	The College of Medical Technology established.
1981	4	The Institute of Language and Cultural Studies established. The Center for Experimental Plants and Animals established.

5	ARIE Mikio named President.
1985	4 The Research Center for Molecular Genetics established.
1987	5 BAN Yoshio named President.
1989	5 The Institute of Catalysis Research evolves into the Catalysis Research Center (joint usage/research center).
1990	6 The Slavic Research Center designated as a joint usage/research center.
1991	4 The International Student Center established. The Research Center for Quantum Interface Electronics established.
	5 HIROSHIGE Tsutomu named President.
1992	4 The Institute of Applied Electronics Research reorganized into the Research Institute for Electronic Science.
1993	4 The Graduate School of Environmental Science evolves into the Graduate School of Environmental Earth Science.
1994	6 The Center for Advanced Research of Energy established.
1995	4 The School of Liberal Arts abolished. The Center for Research and Development in Higher Education established. The Institute of Low Temperature Science designated as a joint usage/research center. The Graduate School of Science and the Graduate School of Veterinary Medicine each evolves into a Graduate Research School, which places greater emphasis on graduate education and research. The Environmental Preservation Center established. The General Education Branch of the Hokkaido University Library renamed the North Branch.
	5 TANBO Norihito named President.
1996	5 The Center for Advanced Science and Technology established. 8 The Venture Business Laboratory established.
1997	4 The Graduate School of Engineering evolves into a Graduate Research School.
1998	4 The Graduate School of Pharmaceutical Sciences evolves into a Graduate Research School.
1999	4 The Graduate School of Agriculture evolves into a Graduate Research School. The Information Processing Education Center evolves into the Education and Research Center for Information and Media Studies. The Hokkaido University Museum established.
2000	4 The Graduate Schools of Letters, Education, Law, Economics and Business Administration, Medicine, Dental Medicine, and Fisheries Sciences each evolve into a Graduate Research School. The Graduate School of International Media and Communication Studies established. The Institute of Immunological Research reorganized into the Institute for Genetic Medicine (the Research Laboratory Attached to the School of Medicine abolished). The Center for Northern Eurasian and Northern Pacific Studies established.
2001	4 The Field Science Center for Northern Biosphere assumes the management of the following facilities: the Marine Biological Station and the Institute of Algological Research, formerly attached to the School of Science; botanical gardens, farms, forests, and ranches formerly attached to the School of Agriculture; Lake Toya Inland Water Station, Usujiri Fisheries Station, and Nanae Fresh Water Laboratory, formerly attached to the School of Fisheries Sciences. The expanded Center for Advanced Science and Technology assumes the management of the Chromosome Research Unit, which was formerly attached to the School of Science, the Center for Experimental Plants and Animals, and the Research Center for Molecular Genetics. The Research Center for Quantum Interface Electronics evolves into the Research Center for Integrated Quantum Electronics.
	5 NAKAMURA Mutsuo named President.
2002	2 The Creative Scientific Research Institution established. 3 The old training ship <i>Hokusei-maru</i> decommissioned.
	4 The old study investigation ship <i>Ushio-maru</i> renamed the new training ship <i>Ushio-maru</i> .
2003	4 The Computer Center and the Education and Research Center for Computing and Multimedia Studies evolves into the Information Initiative Center.

9	The Research and Education Center for Brain Science established.
10	The University Hospital attached to the School of Medicine and the Dental Hospital attached to the School of Dental Medicine integrated into the Hokkaido University Hospital. The Management Center of Intellectual Property established.

National University Corporation Hokkaido University (2004 to present)

2004	4 Hokkaido University becomes the National University Corporation Hokkaido University. The Graduate School of Information Science and Technology established. The Center for Advanced Research of Energy evolves into the Center for Advanced Research of Energy Conversion Materials.
2005	3 The Center for Northern Eurasian and Northern Pacific Studies abolished. 4 The Faculty of Fisheries Sciences, the Faculty of Environmental Earth Science, the Graduate School of Fisheries Sciences, and the Graduate School of Environmental Science established. The Department of Fisheries Sciences and the Department of Environmental Earth Science abolished in the graduate school. The Faculty of Public Policy and the Graduate School of Public Policy established. The Center for Advanced Science and Technology and the Creative Scientific Research Institution integrated into the new Creative Scientific Research Institution. The Physical Education Center integrated into the Center for Research and Development in Higher Education. The Research Center for Zoonosis Control established. The Admission Center established.
	5 The Hokkaido University Archives established.
2006	4 The Faculty of Science, the Faculty of Pharmaceutical Sciences, the Research Faculty of Agriculture, the Faculty of Advanced Life Science, the Graduate School of Science, the Graduate School of Agriculture, and the Graduate School of Life Science established. The Department of Science, the Department of Pharmaceutical Sciences, and the Department of Agriculture abolished in the graduate school. The Center for Advanced Tourism Studies established.
2007	3 The Education and Research Support Office established as an administrative unit. The College of Medical Technology abolished. 4 The ICT Promotion Office established as an administrative unit. The Faculty of Education, the Research Faculty of Media and Communication, the Graduate School of Education, and the Graduate School of International Media, Communication and Tourism Studies established. The Department of Education, the Department of International Media and Communication, and the Institute of Language and Cultural Studies abolished. The Center for Language Learning established. The Center for Ainu and Indigenous Studies established. The Center for Experimental Research in Social Sciences established.
	5 SAEKI Hiroshi named President.
	10 The Management Center of Intellectual Property reorganized into the Management Center for Intellectual Property and Innovation as an administrative unit.
2008	4 The Faculty of Health Sciences and the Graduate School of Health Sciences established. The Research Institute for Information Law and Policy established. The Research Center for Environmental Nano and Bio Engineering established. The Research Center for Integrative Mathematics established. The Center for Sustainability Science established.
	The Admission Center, formerly a joint facility, changes its organization to an administrative unit.
2009	4 The Management Center for Intellectual Property and Innovation as an administrative unit, reorganized into the Center for Innovation and Business Promotion as an administrative unit. The Front Office for Resource Education and Development established as an administrative unit.

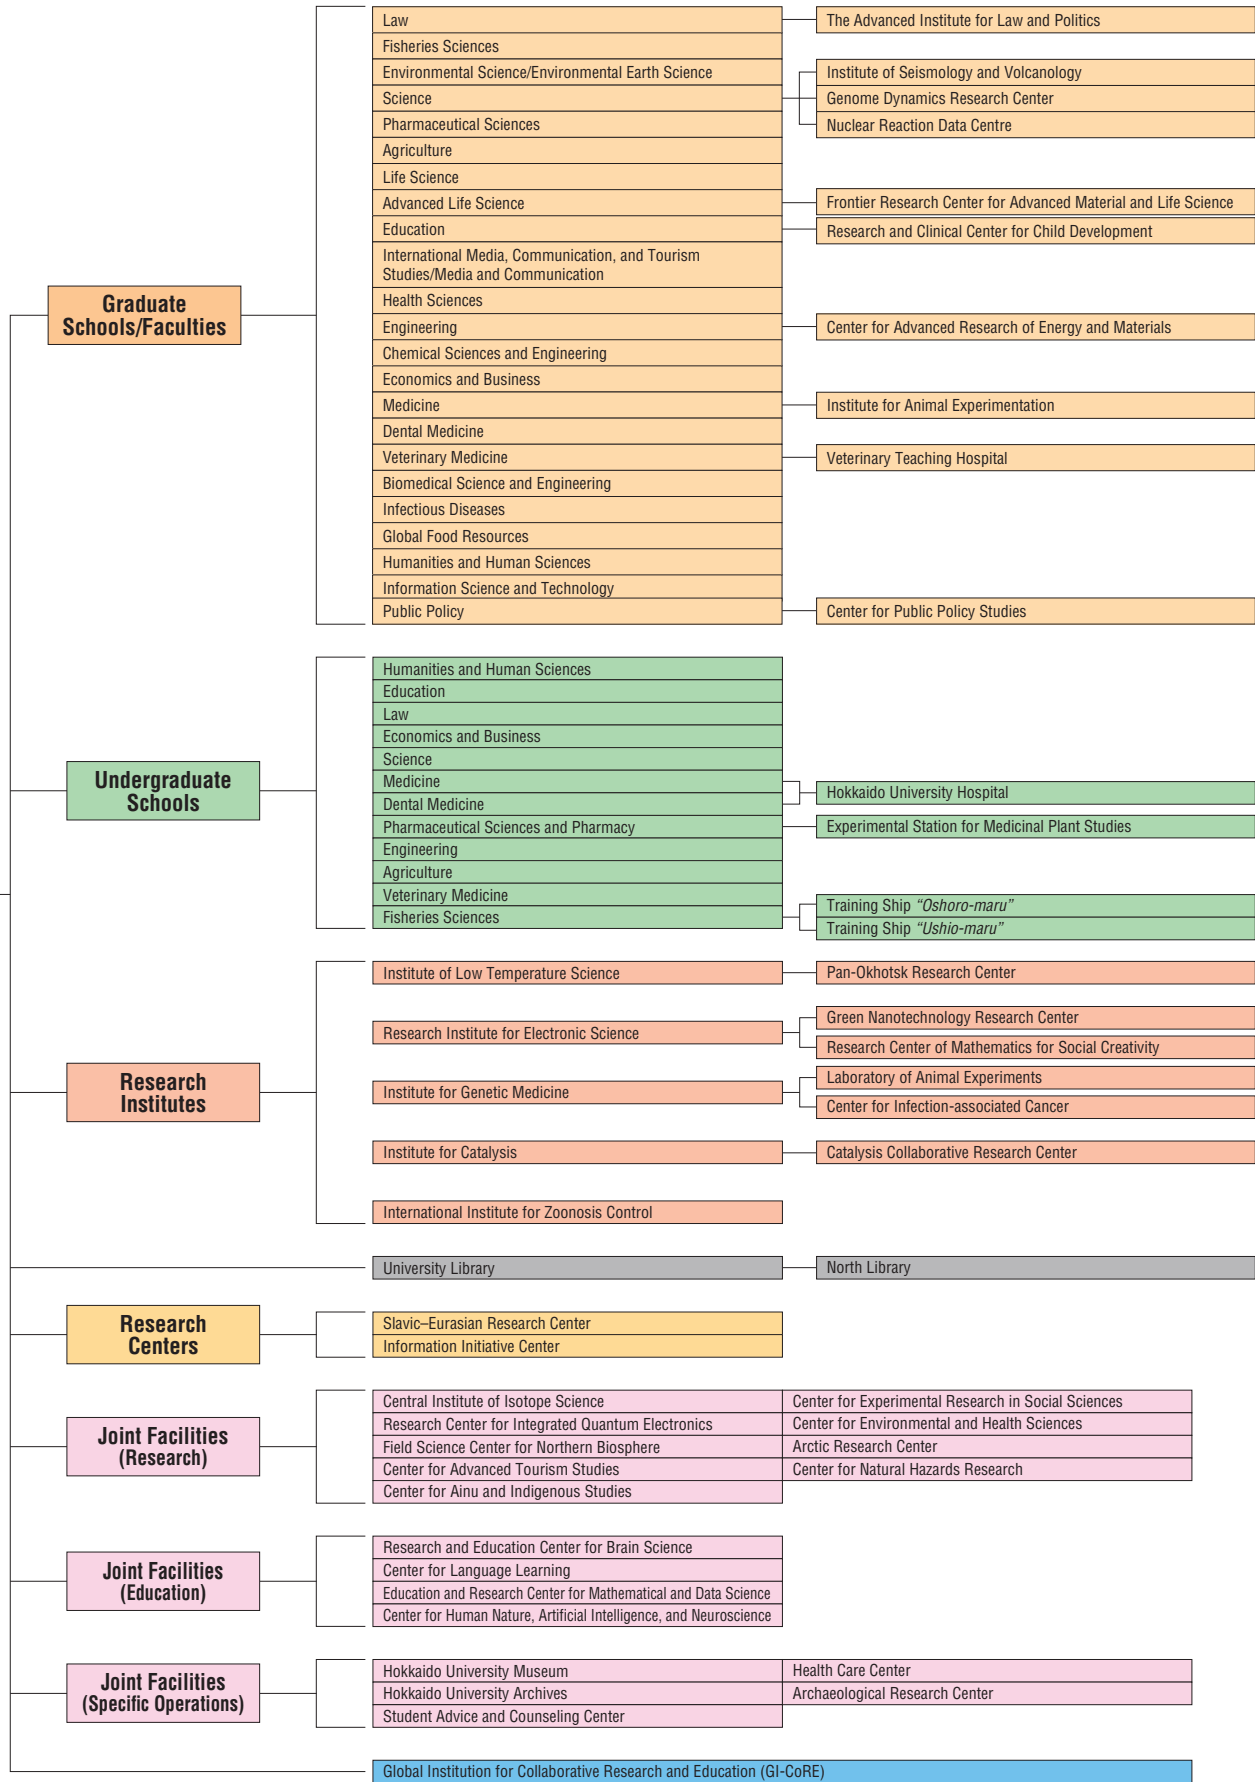

History		The Center of Education and Research for Topological Science and Technology established.	2016	3	The Center for Sustainability Science (CENSUS) abolished.		
		The Creative Scientific Research Institution and the Instrumental Analysis Center reorganized into the Creative Research Institution as an administrative unit.		4	<i>Oshoro-maru</i> (training ship) authorized as a joint usage/education center again.		
	8	The North Branch of the Hokkaido University Library renamed the North Library.			The Institute of Low Temperature Science, the Research Institute for Electronic Science, the Institute for Genetic Medicine, the Institute for Catalysis, the Slavic–Eurasian Research Center, the Information Initiative Center, and the Research Center for Zoonosis Control authorized as joint usage/research centers continuously.		
	2010	4	The Faculty of Engineering and the Graduate School of Engineering established. The Department of Engineering abolished in the graduate school.			The Arctic Research Center authorized as a joint usage/research center.	
			The Graduate School of Chemical Sciences and Engineering established.		10	The Office of International Affairs reorganized into the Institute for International Collaboration established as an administrative unit.	
		The Center for Environmental and Health Sciences established.					
		The Health Management Center evolves into the Health Care Center.	2017	4	NAWA Toyoharu named President.		
		The Center for Advanced Research of Energy Conversion Materials transferred to the Center for Advanced Research of Energy and Materials, attached to the Graduate School of Engineering.				The Graduate School of Biomedical Science and Engineering, the Graduate School of Infectious Diseases, and the Graduate School of Global Food Resources established.	
		The Institute of Low Temperature Science, the Research Institute for Electronic Science, the Institute for Genetic Medicine, the Catalysis Research Center, the Slavic Research Center, the Information Initiative Center and the Research Center for Zoonosis Control authorized as joint usage/research centers.				The Faculty of Economics and Business, the Faculty of Medicine, the Faculty of Dental Medicine, the Faculty of Veterinary Medicine, the Graduate School of Economics and Business, the Graduate School of Medicine, the Graduate School of Dental Medicine, and the Graduate School of Veterinary Medicine established. The Department of Economics and Business Administration, the Department of Medicine, the Department of Dental Medicine, and the Department of Veterinary Medicine abolished in the graduate school.	
		7	The Office of International Affairs established as an administrative unit, into which the International Student Center is transferred.				
Organizations/Finances		10			The Forest Research Station of the Field Science Center for Northern Biosphere, and the Marine Research Stations (Akkeshi Marine Station and Muroran Marine Station) of the Field Science Center for Northern Biosphere authorized as joint usage/education centers again.		
		11			The Office for a Sustainable Campus established as an administrative unit.		
	2011	3	The Office of Safety and Health established as an administrative unit.		7	The Education and Research Center for Mathematical and Data Science established.	
		4	The Center for Translational Research established.				
		The Venture Business Laboratory renamed the Meme Media Laboratory.		2018	4	The Office for a Sustainable Campus reorganized into the Sustainable Campus Management Office as an administrative unit.	
		The Environmental Preservation Center transferred to the Office for a Sustainable Campus (an administrative unit).			8	The Student Advice and Counseling Center established.	
		<i>Oshoro-maru</i> (training ship) authorized as a joint usage/education center.		2019	4	The Faculty of Humanities and Human Sciences, the Faculty of Information Science and Technology, the Graduate School of Humanities and Human Sciences, and the Graduate School of Information Science and Technology established. The Department of Letters, and the Department of Information Science and Technology abolished in the graduate school.	
	2012	7	The Forest Research Station of the Field Science Center for Northern Biosphere, and the Marine Research Stations (Akkeshi Marine Station and Muroran Marine Station) of the Field Science Center for Northern Biosphere authorized as joint usage/education centers.			The Center for Natural Hazards Research established.	
	2013	4	YAMAGUCHI Keizo named President.			The School of Letters renamed the School of Humanities and Human Sciences.	
	2014	2	The Office for Enhancing Institutional Capacity established as an administrative unit.		7	The Center for Human Nature, Artificial Intelligence, and Neuroscience established.	
4		The Center for Food and Medical Innovation established as an administrative unit.					
International Exchanges		The Global Institution for Collaborative Research and Education (GI-CoRE) established.		2020	4	The Marine Research Stations (Usujiri Fisheries Station, Nanae Freshwater Station and Oshoro Marine Station) of the Field Science Center for Northern Biosphere and the Institute for the Advancement of Higher Education (Higher education training center) authorized as joint usage/education centers again.	
		The Slavic Research Center renamed the Slavic–Eurasian Research Center.			6	KASAHARA Masanori named Interim President upon dismissal of NAWA Toyoharu.	
		The Research Center for Environmental Nano and Bio Engineering renamed the Center for Post-modern Socio-metabolic System.		10		HOUKIN Kiyohiro named President.	
		9	The Center for Translational Research abolished.		2021	4	The Research Center for Zoonosis Control reorganized into the International Institute for Zoonosis Control.
	2015	3	The Meme Media Laboratory abolished.				<i>Oshoro-maru</i> (training ship) authorized as a joint usage/education center again.
			The Research Institute for Information Law and Policy abolished.		2021	8	The Institute for the Advancement of Sustainability established as an administrative unit, into which the Sustainable Campus Management Office are transferred.
		The Center for Post-modern Socio-metabolic Systems abolished.					
		The Research Center for Integrative Mathematics abolished.		2022	4	The Office of Aino Relations and Initiatives established as an administrative unit. The Institute for the Advancement of Graduate Education established as an administrative unit.	
		The Center of Education and Research for Topological Science and Technology abolished.				The Office of Diversity, Equity, and Inclusion established as an administrative unit. The Front Office for Human Resource Education and Development abolished; its functions transferred to the said office, the Creative Research Institution, and the Institute for the Advancement of Graduate Education.	
		4	The Arctic Research Center established.				The Forest Research Station of the Field Science Center for Northern Biosphere, and the Marine Research Stations (Akkeshi Marine Station and Muroran Marine Station) of the Field Science Center for Northern Biosphere authorized as joint usage/education centers again.
	The Archaeological Research Center established.						
Endowed Laboratories/ Public Lectures		The Institute for the Promotion of Business-Regional Collaboration established as an administrative unit, into which the Center for Innovation and Business Promotion and the Center for Food and Medical Innovation are transferred.				The Institute of Low Temperature Science, the Research Institute for Electronic Science, the Institute for Genetic Medicine, the Institute for Catalysis, the Slavic-Eurasian Research Center, the Information Initiative Center, and the International Institute for Zoonosis Control authorized as joint usage/research centers continuously.	
		7	The Office of Institutional Research established as an administrative unit.				
		The Marine Research Stations (Usujiri Fisheries Station, Nanae Freshwater Station and Oshoro Marine Station) of the Field Science Center for Northern Biosphere and the Institute for the Advancement of Higher Education (Higher education training center) authorized as joint usage/education centers.		2023	4	The Office of Public Relations and Social Collaboration established as an administrative unit.	
	2015	10	The Catalysis Research Center reorganized into the Institute for Catalysis.				The Office for the Advancement of Quality Assurance established as an administrative unit.

Nobel Prize

Emeritus Professor Akira Suzuki, who worked for more than 40 years at Hokkaido University after graduating, won the Nobel Prize in Chemistry in 2010. The prize was given for his work on “palladium-catalyzed cross couplings in organic synthesis,” which produce a more stable, nontoxic reaction compared with other reactions, an innovation that drastically changed the methodology of organic synthetic chemistry and serves as a foundation for manufacturing. It also has made a significant contribution to the development of products that are familiar in our daily lives, such as pharmaceutical drugs, pesticides, liquid crystals, and organic light-emitting diodes. The achievement perfectly embodies our philosophy of “practical learning.”

Professor Emeritus and Hokkaido University Professor
SUZUKI Akira
 Nobel Prize Winner Chemistry 2010

The Nobel Prize® and the Nobel Prize® medal design mark are registered trademarks of the Nobel Foundation.

Nobel Prize

Specially Appointed Professor Benjamin List, who has worked as a Principal Investigator at the Institute for Chemical Reaction Design and Discovery since the institution's establishment in 2018, won the Nobel Prize in Chemistry in 2021. The prize was given for his work on “the development of asymmetric organocatalysis,” which has emerged as the third major type of catalysis, in addition to metal and enzyme based catalysis. Organic catalysts are carbon-based instead of metal-based, making them comparatively environmentally friendly and cheap. Molecules can often have two versions that are mirror images of each other. Asymmetric organocatalysts have become widely adopted because of their ability to control a reaction so that only one of these mirror images is produced, which is especially important when making pharmaceuticals.

Specially Appointed Professor and Hokkaido University Professor
 Director of the Max Planck Institut für Kohlenforschung
Benjamin LIST
 Nobel Prize Winner in Chemistry 2021

Order of Culture Prize

The prestigious Order of Culture Prize was established in 1937. This prize is awarded to men and women for contributions to Japanese art, literature, or culture. Prizes are conferred by the Emperor of Japan in person on Culture Day on November 3rd each year.

Name	Year	Title	Reason
MIYABE Kingo	1946	Professor Emeritus	Botanical study
SUZUKI Akira	2010	Professor Emeritus	Developing a chemical tool known as palladium-catalyzed cross-couplings for organic boron compounds

Persons of Cultural Merit

The system for Persons of Cultural Merit was established in 1951 by the Law on Pensions for the Persons of Cultural Merit. Its purpose is to honor persons of cultural merit by providing a special government-sponsored pension.

Name	Year	Title	Reason
MATSUMURA Shonen	1954	Professor Emeritus	Entomological study
ITO Seiya	1959	Professor Emeritus	Phytopathological study of crop diseases and fungi
SAKAMURA Tetsu	1976	Professor Emeritus	Plant-cell study of wheat chromosome and plant-physiological study of mold
TAKAHASHI Man-emon	1995	Professor Emeritus	Genetic study of rice
SUZUKI Akira	2010	Professor Emeritus	Developing a chemical tool known as palladium-catalyzed cross-couplings for organic boron compounds
YAMAGISHI Toshio	2013	Professor Emeritus	Research on social dilemmas and trust
KIDA Hiroshi	2017	Professor Emeritus	Elucidation of the mechanism causing new influenza strains
UI Michio	2018	Professor Emeritus	Research and function elucidation of GTP-binding protein

The Japan Academy Prize

Name	Year	Title	Reason
KON Yutaka	1934*	Professor of Medicine	Research on silver reaction of cells
KUNUGI Kinjiro	1939*	Professor of Science	Research on the theory of abstract spaces
HORIUCHI Juro	1940*	Professor of Science	Theoretical and experimental research on chemical kinetics
NAKAYA Ukichiro	1941*	Professor of Science	Physical investigations of snow
KAYA Seiji	1942*	Professor of Science	Magnetic studies of ferromagnetic crystals
SUZUKI Jun	1949	Professor of Science	Studies on ultrabasic rocks and the ore deposits accompanying them
MAKINO Sajiro	1958	Professor of Science	Studies on chromosomes in animals
FUKUSHI Teikichi	1958	Professor of Agriculture	Studies on insect transmission of plant viral diseases
NAGAO Seijin	1965	Professor of Agriculture	Studies on twelve linkage groups in rice
TAKAHASHI Man-emon	1965	Professor of Agriculture	Studies on twelve linkage groups in rice
FUJITA Kotatsu	1971	Professor of Letters	Study of early Pure Land Buddhism
ISHIZUKA Yoshiaki	1975	Professor Emeritus	Nutrio-physiological studies on the rice plant, and application to rice production (joint research)
TANAKA Akira	1975	Professor of Agriculture	Nutrio-physiological studies on the rice plant, and application to rice production (joint research)
YOKOYAMA Izumi	1981	Professor of Science	Structure of volcanoes as disclosed by gravity anomaly distribution
BAN Yoshio	1984	Professor of Pharmacology	Studies of the synthesis of the indole group of alkaloids
SHIKATA Eishiro	1986	Professor of Agriculture	Studies on plant viruses and viroids
KINOSHITA Toshiro	1993	Professor of Agriculture	Genetic studies on the interaction between cytoplasmic and nuclear genomes, and the application of these studies to crop breeding
OHTSUKA Eiko	1996	Professor of Pharmacology	Synthesis and functional studies on nucleic acids; synthetic c-Ha-ras gene and related subjects (joint research)
MATSUNO Taro	1997	Professor of Environmental Earth Science	Elucidation of atmospheric dynamics in the stratosphere and mesosphere
SUZUKI Akira	2004	Professor Emeritus	Studies on the development of new synthetic reactions using palladium catalysts (joint research)
KIDA Hiroshi	2005	Professor of Veterinary Medicine	Studies on the control of influenza: mechanism of emergence of pandemic influenza virus strains in poultry, domestic animals and humans, and molecular basis of the neutralization of viral infectivity with antibodies
TAGUCHI Masaki	2021	Professor Emeritus	Studies on royal jurisdiction and regional settlement of disputes in later medieval Germany
SHIRATO Hiroki	2022	Professor of Faculty of Medicine	Biomedical and Engineering Research about Real-time Tumor Tracking Radiotherapy/Particle Beam Therapy against Cancer

Graduate School/School of Law

The mission of the Graduate School of Law is to develop the next generation of talented legal educators and academics; to develop business persons with advanced professional knowledge; and to nurture professionals to have a sound understanding of legal matters as well as a broad perspective. The mission of the School of Law is to help undergraduates acquire the basic skills necessary to deal with complex, diverse social issues and to help them develop leadership skills based on a well-rounded education and intellectual sensibility. Both schools offer a broad and diverse range of curricula.

Graduate School

Law and Politics	Modern Law, Interdisciplinary Legal Studies, Political Studies, Advanced Institute for Law and Politics*
Legal Practice	Private Law, Public Law

Attached Facilities

The Advanced Institute for Law and Politics

Undergraduate School

Law and Politics	Public Law, Private Law, Criminal Law, Social Law, Interdisciplinary Legal Studies, Political Studies
------------------	---

Graduate School/Faculty/School of Fisheries Sciences

The mission of the Graduate School of Fisheries Sciences, the Faculty of Fisheries Sciences, and the School of Fisheries Sciences is to comprehensively research the sustainable reproduction and efficient use of marine and aquatic resources and to delve into the basic and advanced aspects of preserving the marine ecosystem to ensure the sustainable use of marine resources. We aim to help students develop a creative and positive frame of mind, so they can study issues related to the global environment, natural resources, and food, all of which affect the international community, local societies, and businesses.

Graduate School

Marine Bioresource and Environmental Science	Marine Biology and Biodiversity, Marine Bioresource Science, Marine Environmental Science, Marine Environment and Resource Sensing, Fisheries Engineering, Humans and the Ocean
Marine Life Science	Aquaculture Biology, Aquaculture Genetics and Genomics, Marine Biotechnology and Microbiology, Marine Bioresources Chemistry, Marine Food Science and Technology, Marine Chemical Resource Development

Faculty

Marine Bioresource and Environmental Science	Marine Biology and Biodiversity, Marine Bioresource Science, Marine Environmental Science, Marine Environment and Resource Sensing, Fisheries Engineering, Humans and the Ocean
Marine Life Science	Aquaculture Biology, Aquaculture Genetics and Genomics, Marine Biotechnology and Microbiology, Marine Bioresources Chemistry, Marine Food Science and Technology, Marine Chemical Resource Development

Undergraduate School

Marine Biology	Marine Biology Stream
Applied Marine Science	Applied Marine Science Stream
Aquaculture Life Science	Aquaculture Life Science Stream
Marine Bioresources Chemistry	Marine Bioresources Chemistry Stream

Graduate School of Environmental Science/Faculty of Environmental Earth Science

The mission of the Graduate School of Environmental Science and the Faculty of Environmental Earth Science is to educate students in the fields of earth science, biology, and material science. Utilizing the knowledge they obtained through their studies, students will be able to identify and research global environmental issues as well as determine how to resolve them. We aim to play a leading role in the education of environmental science by nurturing researchers and professionals ready to tackle pressing global environmental issues. We take an interdisciplinary approach to educate our students about the field of environmental science. Our diverse curriculum allows students to study specialist courses in their chosen field while being able to take inter-disciplinary courses.

Graduate School

Environmental Science Development	Human and Ecological Systems, Environmental Adaptation Science, Practical Science for Environment, Global Environmental Management
Earth System Science	Biogeochemistry, Atmosphere-Ocean and Climate Dynamics, Cryosphere Science
Biosphere Science	Plant Ecology and Biodiversity Science, Ecological Genetics, Molecular Biology, Animal Ecology, Marine Biogeochemistry and Biology, Aquatic Biology, Forest Field Science, Agro-Ecosystem Science
Environmental Materials Science	Biomaterials Chemistry, Environmental Nano-Materials, Molecular Photonics and Electronic Science, Environmental Catalytic Chemistry

Faculty

Integrated Environmental Science	Conservation on Natural Environments, Environmental Geography, Environmental Adaptation Science, Practical and Earth Sciences for Environment
Earth System Science	Biogeochemistry, Marine and Atmospheric Geochemistry, Atmosphere-Ocean Physics, Climate Dynamics
Environmental Biology	Terrestrial Ecology, Conservation Ecology, Ecological Genetics, Environmental Molecular Biology
Materials Science	Biomaterials Chemistry, Functional Materials Chemistry, Molecular Materials Chemistry

Graduate School/Faculty/School of Science

Humans have long been fascinated by how nature has evolved, and have always wanted to know how it works. The Graduate School of Science, the Faculty of Science, and the School of Science are dedicated to our innate academic desire to learn more about nature. Our mission is to help students develop the following academic attributes:

1. The ability to understand the true nature of an event and identify the laws that govern it; the ability to turn an idea into a universal theory and prove its validity; and the ability to model natural phenomena and describe the model in a logical and sensible manner.
2. The ability to soundly describe research outcomes, use logic to convince others, and exercise leadership.

Graduate School

Mathematics	Mathematics
Condensed Matter Physics	Quantum Solid State Physics, Condensed Matter Physics
Cosmosciences	Fundamental Physics, Cosmos and Planets
Natural History Sciences	Earth and Planetary Dynamics, Earth and Planetary System Science, Biodiversity, Science Communication, Seismology and Volcanology

Faculty

Mathematics	Mathematics
Chemistry	Physical Chemistry, Inorganic and Analytical Chemistry, Organic and Biological Chemistry
Physics	Quantum Physics, Electronic Condensed Matter Physics, Condensed Matter Physics, Nonlinear Physics
Earth and Planetary Sciences	Cosmosciences, Earth and Planetary Dynamics, Earth and Planetary System Science, Research Field of Hokkaido Weather Forecast and Technology Development (Endowed by Hokkaido Weather Technology Center Co. Ltd.)#
Biological Sciences	Cell Structure and Function, Behavioral Neurobiology, Reproductive and Developmental Biology, Biodiversity

Affiliated Facilities

Institute of Seismology and Volcanology
Genome Dynamics Research Center
Nuclear Reaction Data Center

Undergraduate School

Physics	Physics Stream
Chemistry	Chemistry Stream
Biological Sciences	Biology, Macromolecular Functions
Earth and Planetary Sciences	Earth and Planetary Sciences Stream

Faculty of Pharmaceutical Sciences/School of Pharmaceutical Sciences and Pharmacy

The mission of the Faculty of Pharmaceutical Sciences and the School of Pharmaceutical Sciences and Pharmacy is to help students become researchers and pharmacists capable of discovering groundbreaking medicines and clinical applications. We offer education and research programs on pharmaceutical sciences—comprising the foundations of pharmacy, life sciences, molecular pharmaceutical sciences, and biopharmaceutical sciences.

Faculty

Molecular Pharmaceutical Sciences	Molecular and Cellular Biological Sciences, Chemistry and Medicinal Chemistry, Advanced Prevention and Research Laboratory for Dementia#
Biopharmaceutical Sciences and Pharmacy	Biopharmaceutical Sciences and Pharmacy, Laboratory for Biological Drug Development based on DDS Technology Δ, New Value Creation for Cancer Treatment CourseΔ

Undergraduate School

Pharmaceutical Sciences	Pharmaceutical Sciences
Pharmacy	Pharmacy

Affiliated Facilities

Experimental Station for Medical Plant Studies
--

Graduate School/Research Faculty/School of Agriculture

The mission of the Research Faculty of Agriculture, the Graduate School of Agriculture, and the School of Agriculture is to conduct research to create and rebuild new agriculture systems that address a wide range of food-related issues facing modern day society around the globe. We offer programs covering most of these pressing issues with the hope that they may ultimately be resolved. Finally, our goal is to nurture researchers and talented business professionals so that they are capable of making a tangible difference on both a regional and global scale.

Graduate School

Agriculture	Frontiers in Production Sciences (Agricultural Plant Science, Botany and Agronomy, Agricultural Economics, Bioproduction Engineering) Frontiers in Biosciences (Animal Science, Applied Molecular Biology, Applied Biological Chemistry) Frontiers in Environmental Sciences (Ecology and Systematics, Regional Environment, Forest Resource Utilization, Integrated Forest-Landscape Management)
-------------	---

Faculty

Fundamental Agriscience Research	Agrobiology and Bioresources, Applied Bioscience, Bioscience and Chemistry, Forest Science, Animal Science, Bioresource and Environmental Engineering, Agricultural Economics
Research Innovation and Cooperation	Cooperative Research, Integrated Research

Undergraduate School

Agrobiology and Bioresources	Agrobiology and Bioresources
Applied Bioscience	Applied Bioscience
Bioscience and Chemistry	Bioscience and Chemistry
Forest Science	Forest Science
Animal Science	Animal Science
Bioresource and Environmental Engineering	Bioresource and Environmental Engineering
Agricultural Economics	Agricultural Economics

Graduate School of Life Science

Significant progress has been made in both basic and applied research in the life sciences using genetic information obtained from the human genome and a variety of other animals. The Graduate School of Life Science offers innovative graduate programs intended to help students acquire the knowledge and skills necessary to make meaningful contributions to the continued development of life science.

Graduate School

Life Sciences	Transdisciplinary Life Science, Biosystems Science, Biomedical and Pharmaceutical Science
Soft Matter	Soft Matter Science
Clinical Pharmacy	Clinical Pharmacy

Faculty of Advanced Life Science

The Faculty of Advanced Life Science has assembled a strong team of professionals with expertise in biology, physics, chemistry, mathematics, medicine, and pharmaceutical sciences who are striving to create novel and transdisciplinary approaches to life science. Furthermore, our auxiliary facility, the Frontier Research Center for Advanced Material and Life Science (Frontier-AMLS), advances collaborative engagements between industry and academia. It provides world-class teaching staff from around the world in collaboration with the Soft Matter Collaborative Research Unit (GI-CoRE Cooperating Hub). It also maintains and enhances its research and develops infrastructures to share with the public. Through these programs and projects, we aim to foster researchers for the next generation.

Faculty

Advanced Transdisciplinary Sciences	X-ray Structural Biology, Biomolecular Science, Soft & Wet Matter Science, Tissue Organization Science, Cellular Dynamics Science, Drug Discovery Research, Chemical Biology, Molecular Delivery Science ¶
Functional Life Sciences	Cell Biological Science, Molecular and Cellular Biology, Biological Information Analysis Science, Functional Cellular Science, Glyco-signal Biology, Embryonic and Genetic Engineering

Affiliated Facilities

The Frontier Research Center for Advanced Material and Life Science

Graduate School/Faculty/School of Education

The mission of the Graduate School of Education, the Faculty of Education, and the School of Education is to develop researchers who pursue practical studies to establish new educational philosophies and systems; to resolve wide-ranging educational issues; to develop professionals in education with highly specialized academic and practical knowledge and skills; and to develop well-rounded educators who can adopt innovative theories to effectively address issues concerning education.

Graduate School

Education	Pedagogical Foundations of Education, Life-Long Education, Educational Social Sciences, Educational Psychology, Clinical Psychology, Health Education, Physical Education, Multicultural Education
-----------	--

Faculty

Education	Social Sciences of Education, Pedagogical Foundations of Education, Psychology of Education, Science of Health and Physical Education
-----------	---

Affiliated Facilities

Research and Clinical Center for Child Development	Research Unit for Clinical Studies of Children, Research Unit for Child Development and Support, Research Unit for Teacher Education Enhancement
--	--

Undergraduate School

Graduate School of International Media, Communication, and Tourism Studies/Research Faculty of Media and Communication

The mission of the Graduate School of International Media, Communication, and Tourism Studies and the Research Faculty of Media and Communication is to nurture researchers and business professionals who have the professional expertise in public relations, journalism, media culture, verbal communication, and tourism necessary to effectively address changes and issues in today's society and to become prominent players in local and international arenas.

Graduate School

International Media, Communication, and Tourism Studies	Public Communication and Journalism, International Public Relations, Media and Culture, Language and Communication, International PR Strategies†, Regional Tourism Management, International Tourism Development, Culture and Tourism, Communication and Cocreation, Modern Japanese Studies
---	--

Faculty

Media and Communication	Public Communication and Journalism, International Public Relations, International PR Strategies†, Media and Culture, Language and Communication, International Regional Culture, Tourist Marketing, Multicultural Education
Modern Japanese Studies	Modern Japanese Studies

Graduate School/Faculty of Health Sciences

The mission of the Graduate School of Health Sciences and the Faculty of Health Sciences is to develop highly-skilled medical professionals who use leading-edge knowledge and technical skills to meet society's needs for advanced medical care and play a prominent role in the next generation of health sciences, and to develop researchers who can play a leading role in the global arena of health-science research beyond their fields of specialty.

Graduate School

Health Sciences	Health Sciences, Nursing
-----------------	--------------------------

Faculty

Health Sciences	Fundamental Nursing, Comprehensive Development Nursing, Biomedical Science and Engineering, Medical Laboratory Science, Rehabilitation Science, Health Sciences and Technology, Food and Nutrition for Health Promotion (Watanabe Oyster)‡, Biological Response and Regulation‡, Emergent Neurocognition‡, Data Health Innovation‡
-----------------	--

Graduate School/Faculty/School of Engineering

The mission of the Graduate School of Engineering, the Faculty of Engineering, and the School of Engineering is to transfer our legacy of academic accomplishments to our students so they can master and advance basic and professional disciplines in engineering. We also aim to help students acquire a well-rounded education, sound judgment, and the practical skills necessary to deal with globalization and advance science and technology.

Graduate School	
Applied Physics	Quantum Matter Physics, Complex Material Physics, Optical Science and Technology, Solid State Physics and Engineering
Materials Science and Engineering	Ecological Materials, Materials Design, Energy Materials, Energy Conversion Materials, Ironmaking and Steelmaking†, Frontier Energy Engineering†
Mechanical and Space Engineering	Space Systems Engineering, Materials and Fluid Mechanics, Space Exploration Engineering†
Human Mechanical Systems and Design	Biomechanics and Robotics, Micromechanical Systems, Biomedical Simulation†
Energy and Environmental Systems	Nuclear and Environmental Systems, Applied Energy Systems
Quantum Science and Engineering	Applied Quantum Beam Engineering, Plasma Science and Engineering, Nanomaterials Science, Materials Structure Science†, Fusion Science†
Field Engineering for the Environment	Hydraulic and Aquatic Environment Engineering, Geotechnical and Material Engineering for Disaster Prevention
Engineering and Policy for Sustainable Environment	Engineering for Sustainable Infrastructure System, Policy for Engineering and Environment
Architectural and Structural Design	Structural and Urban Safety Design, Human Settlement Design
Human Environmental Systems	Planning and Performances for Built Environments, Building Engineering and Planning
Environmental Engineering	Water Metabolic System, Environmental Management Systems
Sustainable Resources Engineering	Resources Engineering, Geoenvironmental Engineering
Cooperative Program for Resources Engineering	Global Resources and Environmental Engineering, Resource Engineering for International Strategy

Faculty	
Applied Physics	Quantum Matter Physics, Complex Material Physics, Optical Science and Technology, Solid State Physics and Engineering
Applied Chemistry	Industrial Organic Chemistry, Chemical Engineering, Biotechnology, Chemistry of Functional Molecules, Functional Materials Chemistry, Inorganic Materials Chemistry, Regional Elemental Resources Utilization Engineering‡
Materials Science and Engineering	Ecological Materials, Materials Design, Energy Materials
Mechanical and Aerospace Engineering	Mechanics and Materials, Human and Mechanical Systems, Thermal and Fluid Systems, Aerospace Systems
Applied Quantum Science and Engineering	Quantum Engineering for Materials, Quantum Engineering for Life Science and Medicine, Quantum Energy Engineering, Nuclear Power Infrastructure and Technologies‡
Civil Engineering	Infrastructure and Management, Advanced Social System, Natural Disasters and Adaptation
Architecture	Architectural and Environmental Design, Structural Engineering and Materials
Environmental Engineering	Environmental Engineering, Biomass Community Planning‡
Sustainable Resources Engineering	Resources Engineering, Geoenvironmental Engineering, Resources Environment and Remediation‡

Affiliated Facilities	
Center for Advanced Research of Energy and Materials	

Undergraduate School	
Applied Science and Engineering	Applied Physics and Engineering, Applied Chemistry, Materials Engineering
Electronics and Information Engineering	Computer Science and Information Technology, Electrical and Electronic Engineering, Bioengineering and Bioinformatics, Media and Network Technologies, Systems, Control and Electrical Engineering
Mechanical and Intelligent System Engineering	Mechanics and Information, Mechanical Systems
Socio-Environmental Engineering	Civil Engineering, Public Policy and Engineering, Architecture, Environmental Engineering, Sustainable Resources Engineering

Graduate School of Chemical Sciences and Engineering

The mission of the Graduate School of Chemical Sciences and Engineering is to develop chemical engineers and researchers capable of being adapted to the needs of society. To achieve this mission, we offer students an educational foundation in fundamental chemistry. Furthermore, our faculty members, who come from multiple departments in science and engineering, work together to provide comprehensive programs that meet each student's career goals, be it as an engineer or researcher in a corporate environment, a researcher at a public institution, or as an educator.

Graduate School	
Chemical Sciences and Engineering	Molecular Chemistry and Engineering (Microscopic Chemical Analyses, Fine Chemical Reactions, Catalytic Reactions, Chemical Process Engineering) Materials Chemistry and Engineering (Molecular Materials Chemistry, Inorganic Materials Chemistry, Frontier Materials Chemistry, Functional Materials Chemistry) Biological Chemistry and Engineering (Biomolecular Chemistry, Biofunctional Chemistry, Cell Engineering, Molecular Medical Biochemistry)

Graduate School/Faculty/School of Economics and Business

The mission of the Graduate School of Economics and Business is to develop world-class scholars and to nurture talented business professionals who have a solid knowledge base in economics, business administration, and other related sciences. The mission of the School of Economics and Business is to help undergraduates develop the leadership skills necessary to achieve innovation and ingenuity with a sense of mission and passion, and to help them mature intellectually so they can use their professional knowledge and social ethics to deal with social issues. Both schools offer curricula that meet the needs of highly motivated students.

Graduate School

Modern Economics (Mgt)	Economic Analysis, Social and Historical Economics, Economic Policy, Management Analysis
Accounting	Accounting

Faculty

Modern Economics (Mgt)	Economic Analysis, Social and Historical Economics, Economic Policy, Management Analysis
Accounting	Accounting

Undergraduate School

Economics	Economic Theory, Economic History, Applied Economics
Business Administration	Business Administration, Management Information

Graduate School/Faculty/School of Medicine

The mission of the Graduate School of Medicine and School of Medicine is to help students cultivate professional ethics and receive a well-rounded education while ensuring they master medical knowledge within the field they choose to specialize in as well as hone their technical skills. Our programs nurture medical professionals, give students the knowledge to continually improve themselves throughout their professional careers, and help students learn to work with other professionals to provide advanced medical care as part of a team.

Graduate School

Medicine	Biochemistry, Anatomy, Physiology, Pharmacology, Pathology, Microbiology and Immunology, Social Medicine, Internal Medicine, Radiology, Surgery, Anesthesiology and Critical Care Medicine, Reconstructive Surgery and Rehabilitation Medicine, Reproductive and Developmental Medicine, Sensory Organ Medicine, Neurological Disorder, Medical Biology, Immunology, Pathological Oncology, Clinical Collaboration†
Medical Science	Medical Science

Faculty

Physiological Science	Biochemistry, Anatomy, Physiology, Pharmacology
Pathological Science	Pathology, Microbiology and Immunology
Social Medicine	Social Medicine

Health Sciences	Nursing, Radiological Technology, Medical Technology, Physical Therapy, Occupational Therapy

Affiliated Facilities

Hokkaido University Hospital (shared facility with the School of Dental Medicine)

Graduate School/Faculty/School of Dental Medicine

Based on the belief that proper oral care is essential for people to maintain good health, the mission of the Graduate School of Dental Medicine and the School of Dental Medicine is to assist undergraduates and graduates in acquiring professional knowledge and technical skills in dentistry and dental care to help students become well-rounded dentists, dental educators and scholars with professional ethics and inquisitive minds. The School of Dental Medicine offers distinctive educational programs including small-group educational exercises and hands-on clinical training to help students become well-educated and intelligent dentists. We also provide subjects of frontier for dentistry with research-based training intended to help students improve their problem-solving skills.

Graduate School

Oral Medical Science	Oral Functional Science, Oral Health Science, Oral Pathobiological Science, Stomatognathics, Geriatric Oral Science†
----------------------	--

Faculty

Oral Medical Science	Oral Functional Science, Oral Health Science, Oral Pathobiological Science
----------------------	--

Undergraduate School

Dentistry	Oral Anatomy, Histology and Microbiology, Oral Physiology, Biochemistry and Pharmacology, Oral Pathology, Operative Dentistry and Periodontology, Biomaterials and Prosthodontics, Oral Radiography and Medicine, Oral Anesthesia and Oral-Maxil Iofacial Surgery, Pedodontics, Orthodontics and Oral Gerodontology, Preventive Dentistry
-----------	---

Affiliated Facilities

Hokkaido University Hospital (shared facility with the School of Medicine)

Graduate School/Faculty/School of Veterinary Medicine

The mission of the Graduate School of Veterinary Medicine and the School of Veterinary Medicine is to help students become well-rounded veterinarians with creative minds who understand what is expected of veterinary medicine in society and have a scientific and analytical frame of mind. We also aim to cultivate veterinary experts who use sophisticated knowledge and technical skills to meet social needs in Japan and abroad. Alongside this, we capitalize on the benefits of learning in a small-group environment. Learning in small groups enables students to more easily understand, analyze, and apply the knowledge they learned in the classroom.

Graduate School

Veterinary Medicine	Basic Veterinary Sciences, Applied Veterinary Sciences, Environmental Veterinary Sciences, Clinical Sciences
---------------------	--

Faculty

Veterinary Medicine	Basic Veterinary Sciences, Applied Veterinary Sciences, Environmental Veterinary Sciences, Clinical Sciences, Disease Control, Preventive Veterinary Medicine
---------------------	---

Hokkaido University Veterinary Teaching Hospital

Undergraduate School

Cooperative Veterinary Education Program	Basic Veterinary Sciences, Pathobiological Veterinary Sciences, Applied Veterinary Sciences, Veterinary Clinical Medicine
--	---

Graduate School of Biomedical Science and Engineering

Under the four basic principles adhered to by Hokkaido University: Frontier Spirit, Global Perspectives, All-round Education, and Practical Learning, we aim to train students to become biomedical science and engineering professionals who can contribute to the sustainable development of human society with highly specialized knowledge and an outstanding ethical perspective. Students will be given an excellent knowledge base and strong research abilities, and are expected to accommodate the advancement and internationalization of the field by developing medical technology and equipment.

Graduate School

Biomedical Science and Engineering	Quantum Biomedical Science and Engineering (Particle Beams for Biomedical Science and Engineering, Radiation for Biomedical Science and Engineering), Molecular Biomedical Science and Engineering (Biomedical Imaging, Biology for Biomedical Science and Engineering)
------------------------------------	---

Graduate School of Infectious Diseases

As was seen in the Ebola hemorrhagic fever outbreak cases, the threat of emerging and re-emerging infectious diseases to human society and the economy has been increasing. Accordingly, the demand to train specialists who research infectious diseases and how to control them is raising. To fulfill social demands, the mission of the Graduate School of Infectious Diseases is to develop human resources with a wide knowledge of infectious diseases, flexible imagination and comprehensive decision making abilities to contribute to the development of infectious disease research and education around the world.

Graduate School

Infectious Diseases	Infectious Diseases
---------------------	---------------------

Graduate School of Global Food Resources

The Graduate School of Global Food Resources aims to produce world-class pioneers with broad perspectives and international negotiation skills who are capable of addressing various food resource challenges. To achieve this aim, the School encourages students to learn cultural aspects of the problems (e.g., current world affairs, economics, history, races/ethnic groups, etc.) as well as their technical aspects, such as food production and environmental conservation. Our educational programs are offered by faculty from different fields of specialization.

Graduate School

Global Food Resources	Global Food Resources
-----------------------	-----------------------

Graduate School/Faculty/School of Humanities and Human Sciences

At the School of Humanities and Human Sciences, our goal is to gain a more profound understanding of human beings and society. In order to do this, we work to conduct high-level research in various fields that comprise the humanities and social sciences as well as educate a new generation of students who are capable of responding to the complex and multi-faceted issues we are currently facing. Our extensive educational framework — which ranges from textual interpretations to fieldwork and experimentation — provides a wide coverage of the various fields in the humanities and social sciences, and can thus provide the necessary training for cultivating a new generation capable of meeting society's needs in the future.

Graduate School

Humanities	Philosophy and Religious Studies, History, Cultural Diversity Studies, Cultural Representations, Linguistics, Slavic-Eurasian Studies, Ainu and Indigenous Studies
Human Sciences	Psychology, Behavioral Science, Sociology, Regional Science

Faculty

Humanities	Philosophy and Religious Studies, History, Cultural Diversity Studies, Cultural Representations, Linguistics
Human Sciences	Psychology, Behavioral Science, Sociology, Regional Science

Undergraduate School

Humanities and Human Sciences	Philosophy and Cultural Studies, History and Anthropology, Linguistics and Literature, Human Sciences
-------------------------------	---

Graduate School/Faculty of Information Science and Technology

The mission of the Graduate School of Information Science and Technology is to continue to advance the information society we live in today, which will lead to the emergence of a data-driven society. We support graduate students in studying past and current theories while pursuing new ones so they can develop into IT engineers who have a broad range of knowledge and international perspective. We also aim to nurture IT researchers capable of using their creativity to conduct research and develop projects on their own.

Graduate School

Computer Science and Information Technology	-
Electronics for Informatics	-
Bioengineering and Bioinformatics	Advanced Medical Engineering*
Media and Network Technologies	Ubiquitous Network*, Media Network Sociology*
Systems Science and Informatics	Informatics for Remote Sensing*, Informatics for Digital Human*

Faculty

Computer Science and Information Technology	Synergetic Information Engineering, Knowledge Software Science, Mathematical Science
Electronics for Informatics	Integrated Systems Engineering, Advanced Electronics
Bioengineering and Bioinformatics	Bioinformatics, Bioengineering
Media and Network Technologies	Information Media Science and Technology, Information Communication Systems
Systems Science and Informatics	System Creation, System Synthesis

Graduate School/Faculty of Public Policy

The Graduate School of Public Policy at Hokkaido University (HOPS) provides students with the advantages of small sized classes to foster and train highly skilled professionals to fill positions in both the public and private sectors, including government positions at the local and national levels, private companies, think-tanks, and non-profit organizations.

HOPS brings together professors and practitioners from the Graduate School of Law and Politics, Economics, and Engineering who teach students to master analytical tools useful for evaluating public policies and to bring principles and tools into practical application for decision making in the real world. Our faculty members are dedicated to training tomorrow's policy leaders.

Graduate School

Center for Public Policy Studies

Institute of Low Temperature Science

[Joint Usage/Research Center]

The Institute of Low Temperature Science (ILTS) was founded in 1941 as the first research institute in Japan to promote interdisciplinary studies on various natural phenomena occurring in the cryosphere. The cryosphere is of special importance to the climate and is changing rapidly. It is thus essential that we have the latest and best information available regarding its ongoing changes.

Water and Material Cycles

- Ocean and Sea Ice Dynamics
- Atmosphere–Ocean Interaction
- Atmospheric and Climate Science
- Land–Atmosphere Interaction
- Isotope Physiology, Ecology, and Geochemistry

Frontier Ice and Snow Science

- Glacier and Ice Sheet Research
- Phase Transition Dynamics
- Astrophysical Chemistry
- Low Temperature Nanomaterial Science

Environmental Biology

- Plant Adaptation Biology
- Microbial Ecology
- Biodiversity
- Biochemistry
- Hibernation Metabolism, Physiology, and Development

Affiliated Facilities

- Pan-Okhotsk Research Center:
 - Climate Change Research
 - Land–Ocean System
 - International Research Promotion Office

Research Institute for Electronic Science

[Joint Usage/Research Center]

The Research Institute for Electronic Science (RIES) was established in 1992. Our mission is to develop new interdisciplinary research fields between photonics and optical sciences, material and molecular sciences, and biology and life sciences. The Institute also focuses on mathematics and nanotechnology as requisite sciences to accomplish our mission.

Photonics and Optical Science

- Photo–System Physics
- Nanomaterials and Nanoscopy
- Coherent X-ray Optics
- Nanosystem Optical Manipulation

Material and Molecular Sciences

- Photonic Nanomaterials
- Smart Molecules
- Nanostructure Physics
- Interactive Functional Material

Biology and Life Sciences

- Information Biophotonics
- Molecular Devices

Cooperative Research

- Social Cooperation Advisory
- Joint Research and Dynamic Alliance
- New-paradigm Computing
- Collaboration with the Center for Human Nature, Artificial Intelligence, and Neuroscience
- Collaboration with College of Science, National Yang Ming Chiao Tung University (Taiwan)

Affiliated Facilities

- Green Nanotechnology Research Center:
 - Functional Thin Film Materials
 - Nanostructured Functional Materials
 - Functional Nanomolecular Materials
 - Office of Materials and Devices Research Strategies
 - Collaborative Research on Nanotechnology
- Research Center of Mathematics for Social Creativity:
 - Mathematical Modeling
 - Molecule & Life Nonlinear Sciences
 - Mathematical and Physical Ethology
 - Experimental Mathematics
 - Collaborative Research on Mathematics

Co-creative Research Support Department

- Nikon Imaging Center
- Promotion Office for International Alliances
- Nanotechnology and DX Center
- Joint Research and Education Center with College of Science, National Yang Ming Chiao Tung University (Taiwan)

Institute for Genetic Medicine (IGM)

[Joint Usage/Research Center]

The Institute for Genetic Medicine was established in April 2000, merging the Institute of Immunological Science and the Cancer Institute of the School of Medicine. Together, these institutes have ninety years of experience to tap into to achieve the institute's mission to elucidate the molecular basis of various illnesses, including cancer, immune diseases, infectious diseases, and cardiovascular diseases, and to provide methods for diagnosing and treating these illnesses.

Molecular Pathogenesis

- Stem Cell Biology
- Signaling in Cancer and Immunology
- Molecular Psychoimmunology
- Hepatitis Virology

Pathophysiology

- Immunobiology
- Genome Biology
- Developmental Physiology
- Microbial oncology

Disease Control

- Molecular Interaction
- Biomedical Oncology
- Biological molecular mechanisms

Endowed Department

- Department Synbiotics

Frontier Research Unit

- Laboratory of Molecular Cell Biology

Affiliated Facilities

- Laboratory for Animal Experiments
- Center for Infection-Associated Cancer

Institute for Catalysis

[Joint Usage/Research Center]

Catalysis science is in high demand for building a sustainable society through timely responses to ever-increasing needs for environmental conservation, resources, and energy. The Institute for Catalysis was launched based on the success of the Catalysis Research Center, and our mission is to fulfill this demand and become a global center for catalysis science research. We promote high-level education and joint research to attain our goals.

Department of Fundamental Research

- Catalysis Theory Research Division
- Catalyst Surface Research Division
- Catalyst Structure Research Division
- Catalytic Reaction Research Division
- Catalytic Transformation Research Division
- Catalyst Material Research Division
- Molecular Catalyst Research Division
- Macromolecular Science Research Division

Department of Practical Applications

- Research and Development Division

Department of Targeted Research

Central Research Section:

- Research Cluster for Sustainable Catalyst

Extensive Research Section:

- Research Cluster of Transition-metals-induced Synthesis and Transformation of Polymer
- Research Cluster for Nano-Interface Reaction Field
- Research Cluster for Catalytic Labeling of Biomolecules
- Research Cluster of Data-Driven Catalyst Developments

Affiliated Facilities

- Catalysis Collaborative Research Center

International Institute for Zoonosis Control

[Joint Usage/Research Center]

To establish effective strategies for the control of zoonoses, the International Institute for Zoonosis Control conducts global surveillance to identify the natural host animals and transmission routes of zoonotic pathogens. Collected materials are used for basic research aiming to reveal molecular determinants of the pathogenicity and host range of infective agents. Research materials and outcomes are stored in a database and shared as biological resources for the development of diagnostic tools and vaccines. In addition, the institute handles the diagnosis of field materials collected in other countries. Lectures and training courses are provided to foster “Zoonosis Control Experts” who are involved in implementing zoonosis control in the field.

Units

- Zoonosis Research Unit
- International Collaboration Unit
- Veterinary Research Unit

Research Divisions

- Division of Molecular Pathobiology
- Division of Bioresources
- Division of Collaboration and Education
- Division of Bioinformatics

- Division of Infection and Immunity
- Division of anti-virus drug research, Shionogi & Co.,Ltd.
- Division of Pathogen Structure
- Division of Risk Analysis and Management
- Division of Biologics Development
- Division of International Research Promotion
- Division of Vaccine Immunology

Research Centers

Data as of April 1, 2023

Slavic–Eurasian Research Center

[Joint Usage/Research Center]

The Slavic-Eurasian Research Center (SRC) at Hokkaido University dates back to the early 1950s. It was founded to study systematically the then Soviet Union and the countries of the Eastern Bloc in the framework of a newly established interdisciplinary field “Area Studies.” Since then, the SRC has engaged in area studies mainly through cooperation of experts in various fields in the humanities and social sciences. As a designated “Joint Usage/Research Center” certified by the Ministry of Education, the SRC has cooperated both with domestic and foreign scholarly communities in the development of Slavic and Eurasian studies. The Center's scholarly achievements are also reflected in its outreach activities. The SRC library's collection in the field of Slavic and Eurasian studies is the richest in Asia—both in number and in quality. It has been a major attraction for scholars from all over the world. Being one of the driving forces behind the advancement of Slavic and Eurasian studies on the global arena, the SRC has fostered international cooperation with the world's leading scholarly institutions such as the Davis Center for Russian and Eurasian Studies (Harvard University), the School of Slavonic and Eurasian Studies (University College London), as well as many academic establishments in Slavic and Eurasian countries.

Research Divisions

- Russian Studies
- East European Studies
- Siberian and Far Eastern Studies
- Comparative Studies
- Central Eurasian Studies

Unit

- Eurasia Unit for Border Research
- Research Unit for Survival Strategies

Information Initiative Center

[Joint Usage/Research Center]

The Information Initiative Center was established in April 2003 to promote advanced research towards the development of information and communications technology (ICT), as well as to help the university construct and maintain its ICT infrastructure. The center endeavors to promote educational research and support the university in carrying out its curriculum based on these developments. In addition, the center also plays an important role as a resource center for nationwide ICT collaboration in supercomputing and cloud computing.

Research Department

- Super Computing
- Information Networks
- Digital Contents
- Media Education
- System Design
- Cyber Security

Cyber Security Center

ICT Planning and Technical Advisory Office

Research Centers

Central Institute of Isotope Science

Provides facilities for educational training and research on radioisotope use, supervises their use in the university, and conducts research and development on isotope science.

Research Center for Integrated Quantum Electronics

Promotes research on the creation of novel semiconductor nanostructures, on the scientific principles governing novel electronic materials, and on novel devices and circuits for energy production and saving. Encourages the transfer of innovative technologies to industry through R&D collaborations.

Field Science Center for Northern Biosphere

Conducts comprehensive research on the Northern Biosphere based on field science, and provides educational and research support.

Center for Advanced Tourism Studies

Conducts comprehensive, practical and advanced education and research on tourism through collaborations with various actors including governments, international organizations, universities, institutions, and the private sector.

Center for Ainu and Indigenous Studies

Cooperates with the Ainu and other Indigenous communities to promote interdisciplinary research and education for Indigenous peoples, and builds a network with similar institutions around the world and with indigenous organizations.

Center for Experimental Research in Social Sciences

Advances experimental studies in the social sciences, develops and promotes young social scientists, and engages in research activities internationally.

Center for Environmental and Health Sciences

Conducts large-scale epidemiological research projects on environmental and health sciences, the results of which are presented nationally and internationally. Educates individuals who develop research in the field and promotes closer links between domestic and foreign research groups and organizations. Designated as a WHO Collaborating Centre for Environmental Health and Prevention of Chemical Hazards.

Arctic Research Center

Promotes trans-disciplinary approaches to the sustainable development and utilization of the Arctic, and conducts integrated studies on solutions to problems through collaborations between different fields, including the natural, social and practical sciences.

Center for Natural Hazards Research

Facilitates inter-departmental research on various hazard types and offers relevant education programs, aiming to help build a resilient society.

Educational Centers

Research and Education Center for Brain Science

Offers an interactive graduate program to promote cross-disciplinary research in brain science and to develop human resources with broad perspectives.

Center for Language Learning

Provides foreign language and language-related courses to students who seek to acquire or improve their skills. Develops online multimedia resources that facilitate language learning and provide in-depth language practice, to cultivate “Global Perspectives”, one of the university’s basic philosophies.

Education and Research Center for Mathematical and Data Science

Develops human resources capable of resolving social problems, finding a new challenge to tackle and producing value from data using mathematical thinking and skills to analyze/utilize data. Furthermore, this center focuses on contributing to achieving “Super Smart Society” and enhancing competitiveness in society.

Center for Human Nature, Artificial Intelligence, and Neuroscience (CHAIN)

Provides a graduate level education program for interdisciplinary studies in the humanities, social sciences, neuroscience, and artificial intelligence. Aims to open up new directions of research into the nature of human existence by fostering interaction and collaboration between diverse disciplines.

Specific Operations

Student Advice and Counseling Center

Provides professional counseling and various psychological services to all students. Provides consultation and coordination services to students with disabilities.

Health Care Center

Provides medical checkups, health consultations, and primary care for non-critical conditions such as cuts, burns, colds and flus, and stomach issues to students and staff.

Archaeological Research Center

Promotes and facilitates the rescue excavation, study, conservation, and public understanding of Hokkaido University’s archaeological heritage.

Hokkaido University Museum

Data as of April 1, 2023

The Hokkaido University Museum was established in 1999. The main roles of our museum are to collect scientifically significant specimens and historical documents, to hold exhibitions based on the results of past and present research, and to offer educational programs to students and the public.

The Hokkaido University Museum reopened to the public on Tuesday, July 26, 2016, following a major renovation. The upgraded museum showcases the university's twelve undergraduate schools.

With a café, museum shop, and a multipurpose space, students, teaching staff and local citizens alike can enjoy the museum more than ever.

Opening hours: 10:00-17:00

Closed: Mondays, December 28-January 4, There are other temporary closed days. (When a national holiday falls on a Monday, the Museum will be open that day and closed the weekday directly following the end of the holiday)

The Fisheries Science Center

The Fisheries Science Center is a branch of the Hokkaido University museum located at Hakodate Campus. The center features exhibits of a complete skeleton of a Bryde's whale with a total length of 15 m, materials from Hokkaido University's training ships, and more.

Closed for renewal (until autumn 2024)

Number of Objects and Specimens

Hokkaido University Archives

The Hokkaido University Archives was established in 2005. We collect, organize, preserve, and allow public access of important documents and materials related to the University's history.

We conduct research on these documents and Hokkaido University's history, as well as introduce research results by publishing yearly reports and holding meetings and exhibitions.

The Reading Room is open to the public to consult archival documents. There is a permanent exhibition of Hokkaido University's history in the Exhibition Hall and the Exhibition Room.

Opening hours: Monday-Friday, 9:30-16:30

Closed: Public Holidays and December 29-January 3

Reading Room

University Library

As one of Japan's leading research libraries, the Hokkaido University libraries hold approximately 3.70 million books and journals, including a unique collection of materials focused on the northern region. To raise the standard of academic communication, we continue to increase our electronic collection and develop our institutional repository. With a seating capacity of over 1,500, our libraries continue to play a vital role as places of learning.

Global Institution for Collaborative Research and Education (GI-CoRE)

— Purpose and Outline of GI-CoRE Implementation —

The Global Institution for Collaborative Research and Education (GI-CoRE) was formed as a faculty organization under the direct control of the President that brings together world-class researchers from around the world to conduct collaborative research with our University faculties. Aims include the promotion and support of international collaborative research and education that leverages the University's strength and distinctive features. Under the GI-CoRE system, research hub known as "Global Station (GS)" of each research field is implemented. GSs have their finite implementation period of five (5) years in principle to conduct intensive research and education activities. After the implementation period, the 6 GS projects were transitioned into the affiliated faculties and centers, and certified as "GI-CoRE Cooperating Hub" to further promote research and education activities in cooperation with GI-CoRE.

Global Station (1 hub)

Global Station for Indigenous Studies and Cultural Diversity (GSI)

The GSI was launched as an international research hub to solve the global and regional issues of Indigenous peoples and elucidate the nature of cultural diversity with Indigenous communities. The overseas institutions which are prospective to collaborate are as follows: University of Oxford, Uppsala University, Lund University, University of Helsinki, Moscow State University, Far Eastern Federal University, Irkutsk State University, Simon Fraser University, University of Oregon, National Taiwan University, Peking University, Australian National University.

GI-CoRE Cooperating Hubs (6 hubs)

Name of the Hub	Outline of Research Activities	Certification Period
Global Center for Biomedical Science and Engineering (Faculty of Medicine)	Utilizing the development of the world's first "molecular-tracking proton therapy system" and research achievements in biomedical science and engineering using molecular imaging, as well as collaboration with the unit from Stanford University, GCB aims to create innovations, nurture the next generation, and ultimately contributes to the world.	From FY 2020 to FY 2024
International Collaboration Unit (International Institute for Zoonosis Control)	Forming a first-class research and education center for the control of zoonoses which focuses on providing research outcomes to society through the collaborative research of Hokkaido University's International Institute for Zoonosis Control, the University of Melbourne, University College Dublin, and King Abdullah University of Science and Technology.	From FY 2020 to FY 2024
Global Center for Food, Land and Water Resources (Research Faculty of Agriculture)	Building an international research hub that comprehensively deals with global food, land, and water resource issues, and through the collaborative research and education for the graduate program with overseas faculty members such as The University of Sydney, University of California, Davis (UC Davis), University of Wisconsin-Madison, Kasetsart University etc., we enhance human resource development for the next generation.	From FY 2020 to FY 2024
Soft Matter Collaborative Research Unit, Frontier Research Center for Advanced Material and Life Science (Faculty of Advanced Life Science)	As an international hub for promoting soft matter research and education, we are collaborating with ESPCI Paris, Duke University, Cornell University, etc. to lead the world in soft matter basic research, innovative soft material development and medical applications.	From FY 2021 to FY 2025
Collaborative Center for Big data and IoT (Faculty of Information Science and Technology)	Covering big data and IoT (Internet of Things), to promote international collaborative research with the University of Massachusetts Amherst and the University of Technology Sydney.	From FY 2021 to FY 2025
International Collaborative Research Unit (Arctic Research Center)	Promoting interdisciplinary Arctic research to expand international research networks based on the natural sciences, engineering, humanities and social science, in close collaboration with the University of Alaska, North-Eastern Federal University, University of Oslo and Nord University, which have had remarkable academic achievements in Arctic research.	From FY 2021 to FY 2025

Creative Research Institution (CRIS)

The Creative Research Institution (CRIS) is a university-wide organization dedicated to the promotion and support of priority research programs based on HU's strategic research policy. It also strives to create new academic disciplines and advance cutting-edge science and technology based on the development of human

Research Department

The Research Department is dedicated to creating new research themes based on HU's strategic research policy, fostering young researchers, and extending support to stimulate collaborations between industry and academia.

Center for Promotion of Platform for Research on Biofunctional Molecules

The center promotes project-type joint research programs based on industry-government-academia collaboration. It also manages and operates North Campus Integrated Research Building No. 6 and the Platform for Research on Biofunctional Molecules (PRBM) as a hub for drug discovery and functional food development.

Office for the Promotion of Nanotechnology Collaborative Research

This office supports collaboration on research in the field of nanotechnology across the university, as well as with other research institutions. In addition, the office manages nanotechnology research facilities and supports their use.

Office for Developing Future Research Leaders

This office is dedicated to developing research and leadership skills in young researchers that will aid them in the next-generation of scientific research.

Global Facility Center (GFC)

The mission of the GFC is to support the research and education of University and external researchers and students, including scientists from overseas, by making the best use of opened cutting-edge research facilities and technologies. We contribute to the development of an environment for creating innovation and the globalization of education and research.

Collaborative research platform

Based on the analysis of objective evidence such as IR data and social and academic trends, the Chief Research Officer selects world-class research fields of priority in a top-down approach and organizes research groups of leading experts in the fields. The platform oversees and provides them with flexible.

Institute for Chemical Reaction Design and Discovery (ICReDD)

The Institute for Chemical Reaction Design and Discovery (ICReDD) was adopted by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) in the context of the "World Premier International Research Center Initiative (WPI)" and was established at Hokkaido University in October 2018. The purpose of the WPI is to form "highly visible research centers" that conduct research in internationalized research environments and on a world-class level. ICReDD is one of 17 research centers currently in the country. In addition, the MANABIYA system, a strategic framework for the development of an international collaborative research environment and the development of advanced human resources on a global scale, will establish a brain-circulation society that will enable researchers in Japan and overseas to learn the methods for developing new chemical reactions in ICReDD and spread their use in the future.

Data-Driven Interdisciplinary Research Emergence Department (D-RED)

The Data-Driven Interdisciplinary Research Emergence Department (D-RED), established directly under the President in July 2022, is an organization that plays a critical role in realizing "Hokkaido University, a data-driven university," one of the six visions of the University in the Fourth Period of Mid-Term Goals.

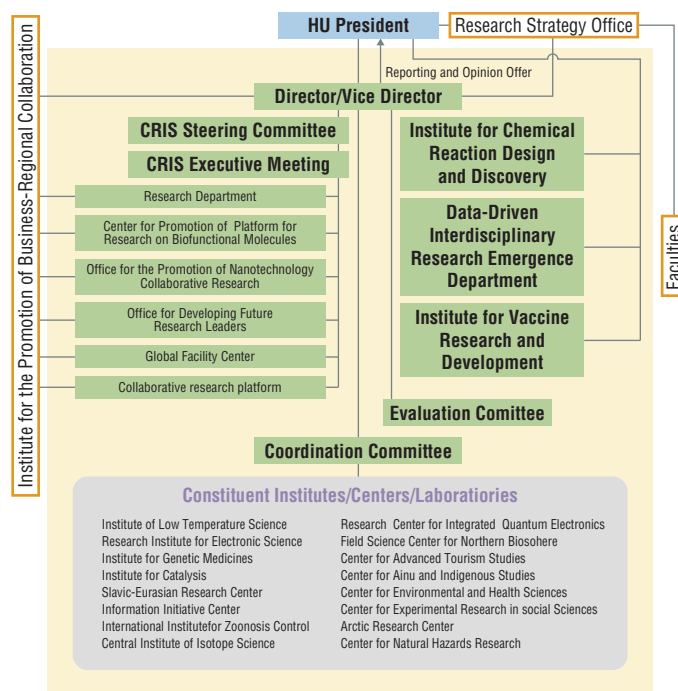

D-RED promotes cutting-edge interdisciplinary research by combining the University's "diverse interdisciplinary research areas" which proved to be among the top in the country based on numerical evidence with "data-driven science" that utilizes various data collected from society and information science, and strives to solve problems by demonstrating and implementing the research results in society. We aspire to become a hub for promoting and co-generating diverse research activities and contribute to the co-creation of new values through regional collaboration, such as by providing state-of-the-art incubation facilities for the development of start-up businesses originating from the University.

Institute for Vaccine Research and Development (IVReD)

The Institute for Vaccine Research and Development (IVReD) was established in October 2022 at the Creative Research Institution, Hokkaido University. IVReD was selected as a synergy center along with the University of Tokyo (flagship center), Osaka University, Chiba University, and Nagasaki University (synergy centers) by the Japan Agency for Medical Research and Development (AMED)'s "Japan Initiative for World-leading Vaccine Research and Development Centers" projects.

IVReD will prepare a library of pathogens, causing infectious diseases in humans, promote basic research for vaccine development, and attempt to develop vaccines and implement them in society in collaboration with institutions, companies, and universities.

In addition, we will contribute to the "rapid development and production system for Japanese vaccines" in outbreak of infection diseases by flexible response.

Special Lecture by Prof. List (September 2022)

Hokkaido Industry-Government-Academia-Regional Collaboration Diversity Mathematical and Data Science Special Session & Workshop (February 2023)

Seminar by Prof. Kedzierska et al. (February 2023)

Institute for the Advancement of Higher Education

The institute strengthens the educational cooperation between the university's various faculties and schools, improves the educational functions of the university, and promotes studies on higher education to achieve our goals and realize our ideals.

General Education Division

Plans, drafts, and makes adjustments to curriculum. The division includes the General Education Laboratory Exercise in Natural Sciences.

First-year Education Division

Provides services for first-year students, such as course planning, educational guidance, and assistance in preparing for the second year of university. Manages the university register.

Higher Education Research and Development Division

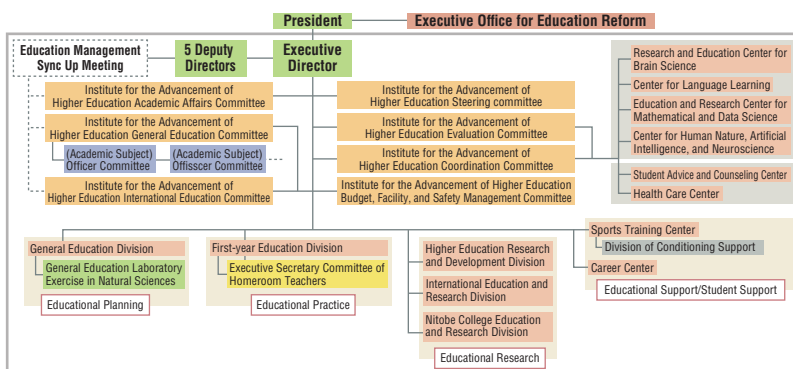

Involved in practical research and study concerning higher education and lifelong learning.

International Education and Research Division

Provides international education for international and domestic students, and conducts research on education to promote the internationalization of the university.

Nitobe College Education and Research Division

Implementation of educational programs in Nitobe College and research and study on Nitobe College programs.

Sports Training Center

Provides physical education instruction for university students and staff. The center includes the Division of Conditioning Support.

Career Center

Offers practical and systematic assistance to students for their career development. Students gain the basic knowledge & skills, self-awareness, and employment responsibilities needed in the process of job-hunting through seminars and consultations.

Institute for the Advancement of Graduate Education

The Institute for the Advancement of Graduate Education promotes university-wide operations to improve the quality of the University's graduate education and oversees the university-wide support for graduate students.

Advancement of Educational Program Division

Planning, drafting, and coordinating inter graduate school classes course, international joint education programs, and other cross-departmental education in graduate schools and educational departments.

Advancement of Doctoral Fellowship Division

Planning, drafting, and coordinating fellowship programs and other financial assistance for graduate students of the University.

Doctoral Human Resource Education and Development Division

Planning, drafting, and coordinating systematic career education from undergraduate to doctoral programs, and career development support for graduate students of the University (excluding programs under the control of the Career Center of the Institute for the Advancement of Higher Education).

Advancement of Recurrent Education Division

Supporting graduate-level recurrent education programs within the University; planning, drafting, and coordinating the graduate-level recurrent education programs by the Institute for the Advancement of Graduate Education.

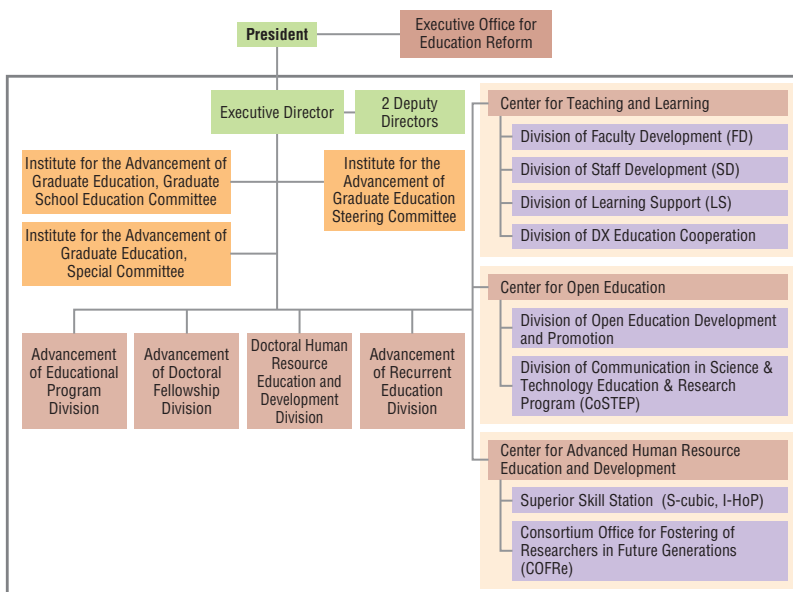

Center for Teaching and Learning

Providing training to improve the required qualifications of faculty and staff of higher education institutions, supporting the enhancement and internationalization of research and business in general, and serving as a training hub for Hokkaido region.

The four divisions are: Division of Faculty Development (FD), Division of Staff Development (SD), Division of Learning Support (LS), and Division of DX Education Cooperation.

Center for Open Education

Enhancing and promoting education and learning support using information and communication technology, participating in public relations and

communication activities of the University through educational activities, conducting research and development related to open educational resources, and conducting comprehensive education and research related to science and technology communication.

The two divisions are: Division of Open Education Development and Promotion and Division of Communication in Science & Technology Education & Research Program (CoSTEP).

Center for Advanced Human Resource Education and Development

Planning, drafting, and implementing projects related to the promotion of career development for: the University's graduate students, those who hold a doctoral degree or equivalent/higher, and those who are currently engaged in or intend to engage in research-related occupations.

The two divisions are: Superior Skill Station (S-cubic, I-HoP) and Consortium Office for Fostering of Researchers in Future Generations (COFRE).

Institute for the Promotion of Business-Regional Collaboration

As part of the internal restructuring for social collaboration, the Social and Regional Emergence Department (S-RED) was established in April 2022 with the aim of creating new value by addressing social issues and advancing the integration of different fields, together with the Center for Innovation and Business Promotion which promotes industry-academia collaboration for the implementation of research results in practice. In April 2023, the Startup Creation Department was launched in order to provide entrepreneurship education to nurture future leaders and develop a systematic commercializing support system for cultivating university-launched startups.

The Center for Innovation and Business Promotion identifies inventions for the implementation of research results in practice, secures intellectual property rights, conducts technology transfer to businesses and other organizations, and develops and certifies the “Hokkaido University Brand,” a group of products that utilizes the research results of the university. The Social and Regional Emergence Department (S-RED) strives to solve regional issues by promoting collaboration with local governments and other organizations, primarily through the work at the Hokkaido University COI-NEXT “Life Design Center for the Mind and the Body”. The Startup Creation Department has established the HX (H Cross), the wide-area integrated incubation base, and provides support for startups by offering consultation services and holding events and study sessions.

The purpose of the institute is to advance these initiatives and cultivate human resources who contribute to such advancement, thereby developing domestic industries and creating innovations.

Center for Innovation and Business Promotion

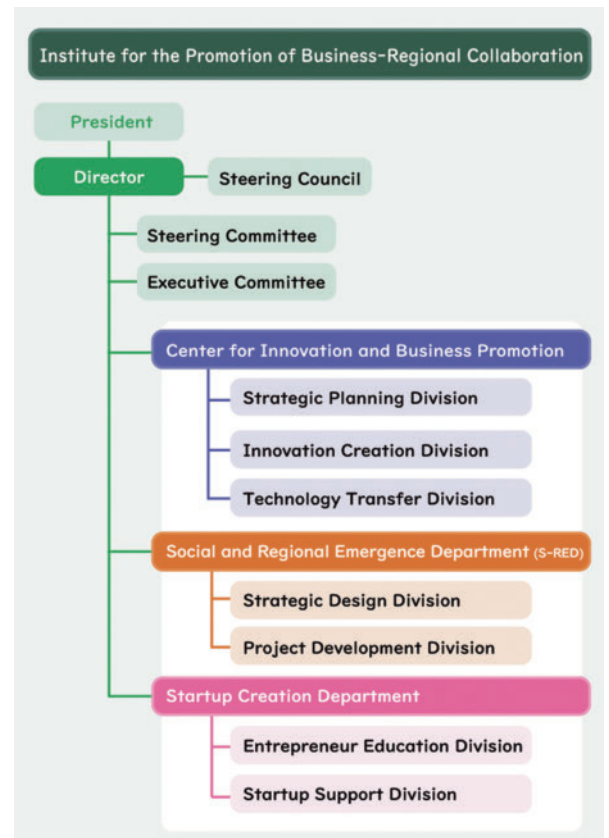

- Implementation of research findings in practice through collaborative research and organization-to-organization industry-academia collaboration
- Foster human resources who contribute to the promotion of industry-academia and regional collaboration
- Make active use of the university's intellectual property and other assets

Social and Regional Emergence Department (S-RED)

- Advance research to foster a “place” for the creation of new value by addressing social issues
- The hub for industry-academia-government and regional collaboration across different research fields
- The place for diverse human capital including those from business and local governments

Startup Creation Department

- Provide entrepreneurship education and support for startups founded by utilizing the university's intellectual property rights or knowledge
- Development of human resources for the above purposes

Integrated incubation base “HX (H Cross)”

Institute for the Advancement of Sustainability

The Institute for the Advancement of Sustainability is a platform for promoting education, research, social collaboration, and sustainable campus construction that contributes to building a sustainable society.

It aims to realize a green, smart, and sustainable campus through two divisions. The SDGs Initiative Office promotes education, research, social collaboration, and public relations that are all related to SDGs, while the Sustainable Campus Management Office promotes building a sustainable campus.

Special Website

Institute for the Advancement of Sustainability
<https://www.sustainability.hokudai.ac.jp/>

Hokkaido University x SDGs
 (Education and Research on SDGs at Hokkaido University)
<https://sdgs.hokudai.ac.jp/en/>

Sustainable Campus Management Office

Hokkaido University's campus initiatives began in 1996 when it became the first national university in Japan to formulate a "Campus Master Plan". In 2010, the Sustainable Campus Promotion Division was established as the core organization for building a sustainable campus. In 2018, it was reorganized into the Sustainable Campus Management Office (hereinafter referred to as "SCM Office"), and in August 2021, the SCM Office was incorporated into the Institute for the Advancement of Sustainability as a part of the University's sustainability promotion system.

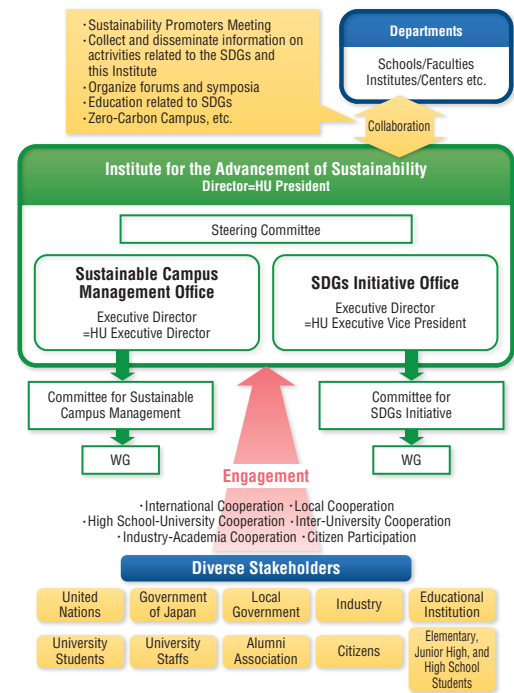

The University is committed to realizing its reform strategy of "Future Strategy for the 150th Anniversary" under its four basic philosophies of "Frontier Spirit", "Global Perspectives", "All-round Education", and "Practical Learning". To contribute to these goals and the building of a sustainable society through education, research, social collaboration, and campus development, the University has formulated "Campus Masters Plan 2018" and "Action Plan for Building a Sustainable Campus", as well as other measures. Based on these plans, the SCM Office plans and drafts measures related to the campus, facilities, and environment.

SDGs Initiative Office

The background of the establishment of Sapporo Agricultural College, the educational philosophy introduced by Dr. William Smith Clark at the time of the opening of the College, and the history of the development of the University to include a vast research forest and campus, have fostered the four basic philosophies of Hokkaido University today. These philosophies are strongly linked to the SDGs (Sustainable Development Goals), such as "leaving no one behind" and "well-being," thus the University has committed to the SDGs through education and research since its establishment.

Based on this history, the new Executive Committee, which was inaugurated in October 2020, recognizes that the University is a research-driven core university that can fully contribute to the achievement of the SDGs as "an unparalleled university", and that the "Contribution to the Achievement of the SDGs" is at the core of the University's vision. To realize this vision, the "SDGs Initiative Office" has been established.

The SDGs Initiative Office creates a driving force for social change that contributes to the achievement of the SDGs by promoting initiatives while consolidating various SDGs-related businesses including education, research, social collaboration, and public relations in a centralized manner.

Main measures for building a sustainable campus

Main activities of the SDGs Initiative Office

Institute for International Collaboration (IIC)

The IIC is an institution mainly for planning and implementing international strategies as an integral part of the "Future Strategy for the 150th Anniversary of Hokkaido University." The IIC enhances the internationalization of education and research, and thereby fosters students with cross-cultural understanding and communication skills to contribute to the development of international society and the resolution of global issues.

Reflecting the spread of global Covid-19 pandemic and fiercer competition among universities both in Japan and other countries in recent years, the International Strategy: "Hokkaido University Global Vision 2040" was formulated in 2021. It intends to define the future direction of internationalization of the university and promote comprehensive initiatives including education, research, and community outreach.

Four strategic goals which transition into the pillars of the International Strategy "Hokkaido University Global Vision 2040"

1. Vitalizing Brain Circulation

Enhancing HR Development and Research Capabilities Through a Virtuous Cycle of Knowledge

2. Students and Faculty with Cultural Fluidity

Promoting Appealing International Collaborative Co-Learning Environments

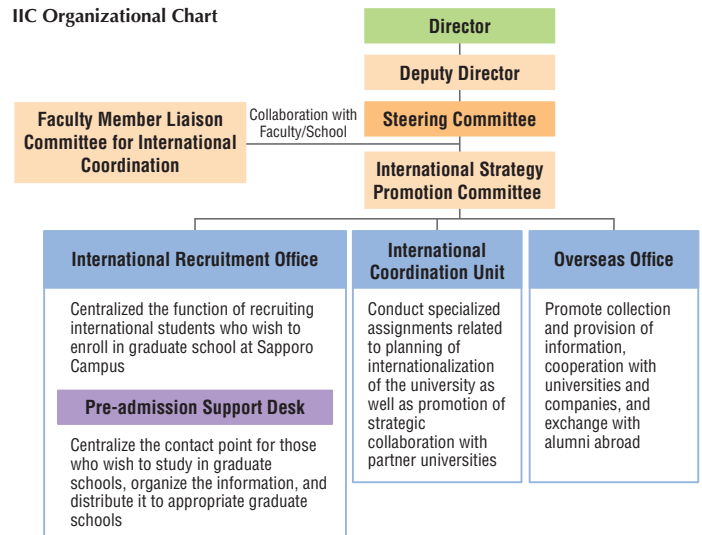

3. Pursuit of Sustainability

Practical Contributions in Areas of Sustainability

4. Evolving Management

Developing an Environment and Organization to Improve International Adaptability

IIC Organizational Chart

Strategic Partnership with The University of Melbourne (June 2022)

Aspirations of Hokkaido University for the Year 2040

Office of Technical Support

The Office of Technical Support aims to strengthen HU's education and research support system through upskilling of and career development for our technical staff, providing university-wide technical support and continuing to pass on expertise and skills to new researchers and staff.

Originally established in March 2007 as the "Education and Research Support Office", and later renamed "Office of Technical Support" in April 2013, the Office underwent an organizational reform in October 2018.

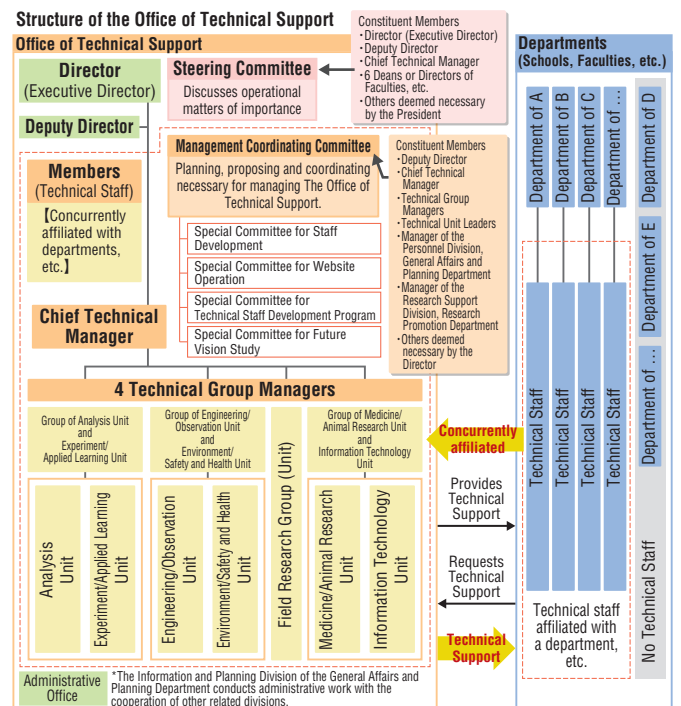

Along with running SD programs for our technical staff, the Office has built an environment for university-wide and cross-departmental technical assistance and cooperation and implemented activities to help enhance HU's education and research capacities.

2018 Hokkaido University Society for Technological Research Biennial Meeting

Technical staff in laboratory

ICT Promotion Office

The ICT Promotion Office aims to carry out the following duties:

- to improve HU's information infrastructure;
- to conduct smooth operation and maintenance of HU's information assets; and
- to ensure HU's information security and enhance both its standard and management systems.

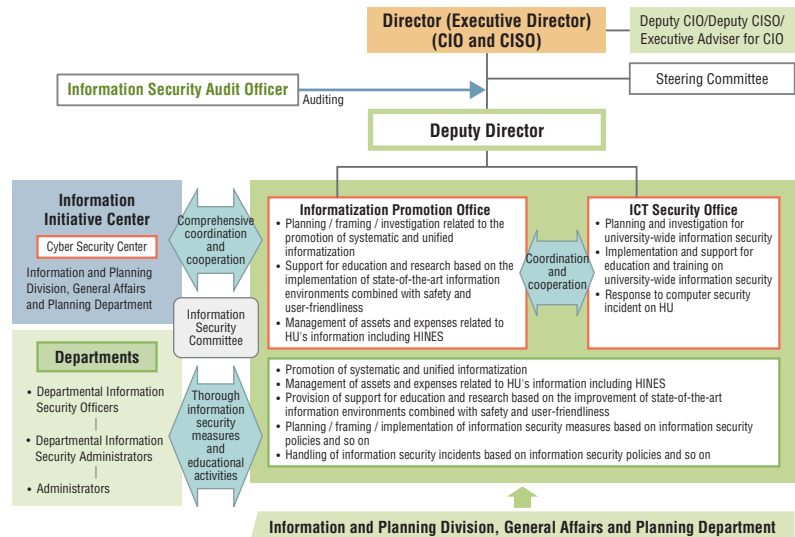

Informatization Promotion Office

The Informatization Promotion Office aims to carry out the following duties:

- to promote systematic and unified informatization at HU;
- to manage assets and expenses related to HU's information, including the information network system; and
- to provide support for education and research based on the established state-of-the-art information environments combined with safety and user-friendliness.

ICT Security Office

The ICT Security Office implements measures to ensure HU's information security, thereby resolving information security incidents in a swift and smooth manner.

Admission Center

The Admission Center is aimed to improve admission and execute a smooth selection process through a range of services related to applicant selection. The Center handles coordination and management related to running entrance examinations, conducts survey and analysis on selection, works on planning and marketing of admission, and responds consultation from prospective applicants.

Open Campus

Examination Administration Division

Coordinating and administrating the provision of the Common Test for University Admissions of Japan and the University's own entrance examinations

Examiner and Marker Division

Formulating the basic policies for entrance examinations and its marking, and selecting examiners and markers

Admission and Marketing Division

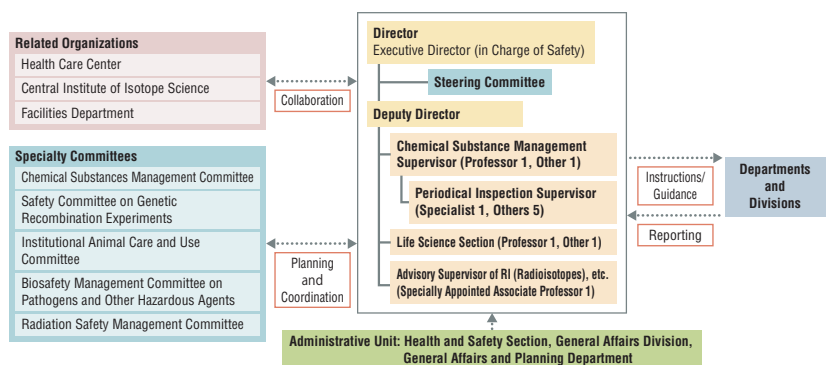

Support for prospective applicants by PR materials and consultation

Office of Health and Safety

HU has various educational and research sites for a diverse range of research fields throughout the huge campus. The Office of Health and Safety was established in March 2011 as an organization to plan, design, and supervise on-campus health and safety. The office helps manage health and safety in cooperation with various faculties and related organizations. Their activities include periodical inspections by health officers, investigations at the life science facilities, and providing materials on safety education and lectures.

Periodical inspection by the health officer

Office for Enhancing Institutional Capacity

The office takes action to improve our research capabilities and increase educational and research activities on a global scale.

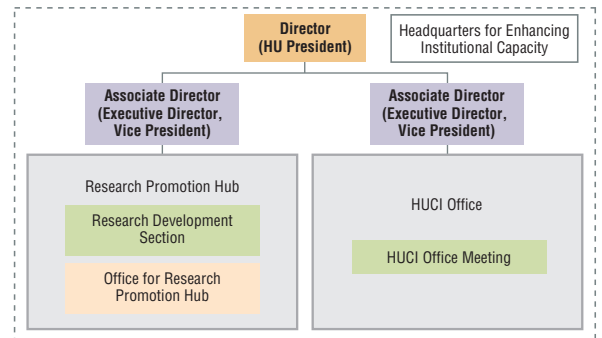

Research Promotion Hub

The Research Promotion Hub is mainly involved in promoting research on projects to enhance institutional capacity for the next-generation.

The Research Development Section carries out system reforms for enhancing institutional capacity, with a focus on reinforcing research capacity and globalization, improving multidisciplinary and university-wide research strategy planning, and promoting research.

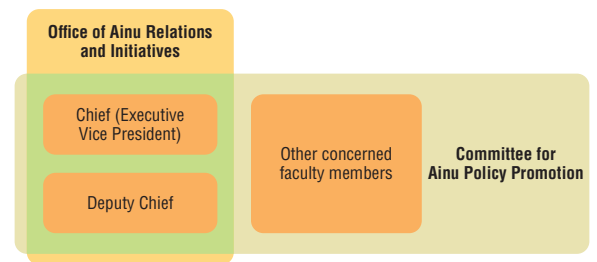

Hokkaido Universal Campus Initiative (HUCI) Office

The HUCI Office manages and monitors the university's progress to achieve the goals outlined in the "Hokkaido Universal Campus Initiative." This initiative influences HU's capacity to collaborate with various higher education institutions overseas in educating the next generation of leaders who will contribute to the resolution of global issues. We have received "Top Global University Project" grants for the years 2014–2023 by the Japanese government in order to sufficiently address these aims.

Office of Ainu Relations and Initiatives (Ainu language: aynu sisam urespa ukopirkare us i)

The Office of Ainu Relations and Initiatives was established in April 2022, with the aim of fostering a campus environment, as well as a society, that supports the pride and dignity of Ainu people. The office has developed important initiatives that the university as a whole supports, in order to advance our vision. Our objectives include rebuilding trust with Ainu people; improving the campus environment to support the intellectual pursuits of students, faculty and staff of Ainu descent; researching and promoting the protection of the human rights of Ainu people; and raising awareness of the history and culture of Ainu people. These initiatives are overseen and enacted in coordination with the Committee for Ainu Policy Promotion.

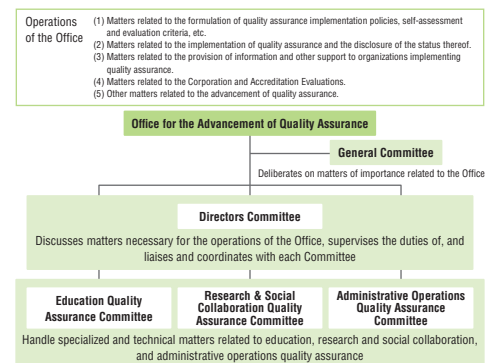

Office for the Advancement of Quality Assurance

The Office aims to plan, draft, and implement measures necessary to promote university-wide quality assurance.

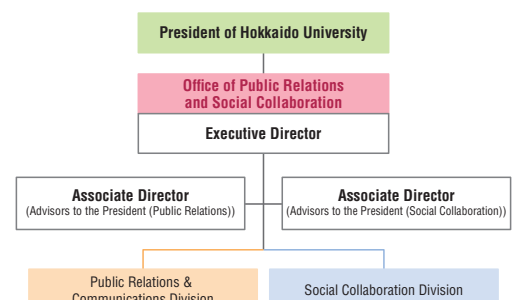

Internal and external quality assurance complementarily ensures the quality of education, research, and other activities at the University.

Internal Quality Assurance	The qualities of education and research, organization and administration, and facilities and equipment are continuously inspected and evaluated. The quality of education, research, and other activities is ensured through the improvements and developments made based on the results of such inspections and evaluations.
External Quality Assurance	Periodically receives third-party evaluations such as National University Corporation Evaluation and Institutional Certified Evaluation and Accreditation. The quality of education, research, and other activities is ensured through the improvements and developments made based on the results of such evaluations.

Office of Public Relations and Social Collaboration

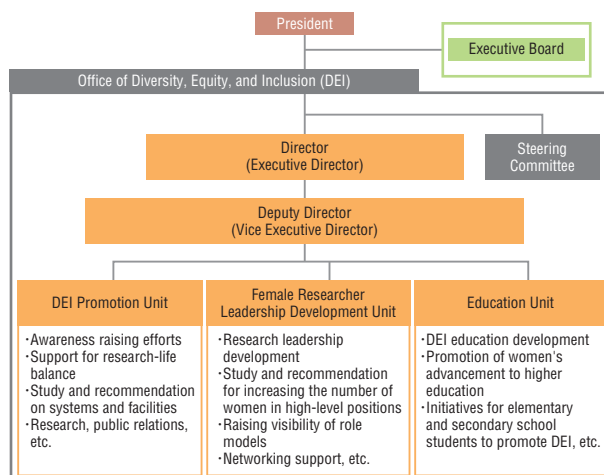

The Office of Public Relations and Social Collaboration was established in April 2023 as a specialist organization which is responsible for 'planning,' 'implementation,' and 'evaluation' of the University's public relations, social cooperation and branding strategies in an integrated manner. It aims to gain understanding and support for the university's management, enhance the value of the Hokkaido University brand, and significantly evolve and advance social collaboration through the effective use of university facilities, and develop co-creation with various stakeholders and organizations. The Public Relations & Communications Division and the Social Collaboration Division will formulate brand strategies for public relations and social collaboration, and will implement initiatives based on these strategies.

Office of Diversity, Equity, and Inclusion (DEI)

Diversity and inclusion are not only the foundation of human society from the standpoint of respect for human rights but are also absolutely necessary for the university to truly “contribute to the resolution of global issues”. Based on this belief, on December 1, 2021, the university published the “Statement on the Promotion of Diversity and Inclusion” to ensure that each and every member of the university understands its meaning and significance, and to strongly communicate its commitment for the future to the international community.

Building on the efforts developed by the Promotion Office of Research environment for Diversity, a unit of the Front Office for Human Resource Education and Development, the Office of Diversity, Equity, and Inclusion (DEI) aims to advance efforts toward the realization of a bias-free campus that transcends unconscious discrimination and biases under the abovementioned Statement on the Promotion of Diversity and Inclusion.

Office of Institutional Research

Office of Institutional Research indulges in collection and analysis of information in regards to education, research, and other university activities, in addition to creating proposals based on the results of the analysis to support the formulation of management strategy of the University. The Office covers two divisions: “Corporate Strategy Analysis Division” and “Higher Education Research Division”.

“Corporate Strategy Analysis Division” mainly collects and analyzes the information of research, management, and other activities, namely issuing and releasing “Hokkaido University Fact Book”.

“Higher Education Research Division” primarily collects and analyzes the educational information. For the sake of the improvement of our education, the division provides feedbacks in form of the result of analysis of questionnaire surveys to each school and graduate school which are conducted on current students and alumni.

Progress in analyzing data is steadily generated, contributing to formulation of management strategy of the university as the result of synergistic effects brought by close cooperation between both divisions. For instance, each division is supporting each other on analyzing and visualizing the data of academic grades of our students and the data of interdisciplinary research possibility. Other cooperations include management of “Hokkaido University Business Intelligence (Hokudai BI)”, a system to visualize and share institutional research data; and calculation of overall index value for the reallocation of budget.

Note:

- Upper number for Professional Course > Graduate School of Law is the number of students enrolled in a 3 year program. Lower number is the number of students enrolled in a 2 year program.
- Upper number for Doctoral Course > Graduate School of Life Science is the number of students enrolled in a 3 year program. Lower number is the number of students enrolled in a 4 year program.
- Upper number for Master's Course > Graduate School of Medicine is the number of students enrolled in a 1 year program.

Number of Enrolled Students

FY2023

1. Students enrolled in Autumn are not included.
2. Number of females indicated in red in parentheses ().
3. Number of Japanese students who were educated abroad indicated in brackets []. This number is counted independently to the number outside of the brackets.

Nitobe College

International Internship

Fellow Seminar
(site visit to MACHIMURA Farm)

Two interdisciplinary Hokkaido University programs, Nitobe College for undergraduates established in AY 2013 and Nitobe School for graduates established in AY 2015, were integrated as Nitobe College and launched as a six-year program in AY 2019. The new program consists of a Foundation Program and Honors Program, and aims to foster students with leadership skills who can contribute to solving global issues.

Undergraduate Education Course

An interdisciplinary educational program that is administered in parallel to the existing twelve undergraduate schools. Practical all-round education is provided with the aim of fostering students with an international mindset and global perspective.

- Independent and overseas study program to enhance expertise
- Leadership curriculum to develop leadership skills and mindsets
- Global career development by Nitobe College Fellows, alumni of the university who have reached the top of their respective professions.

Graduate Education Course

Offered alongside the students' graduate studies, the program aims to develop the qualities and skills essential in finding creative solutions to global problems and to create socially valuable concepts in the international community. Based on high level expertise in each specialized field of graduate studies, Nitobe College focuses on developing competencies, namely the "ability to attain sustainable personal development," "skills of team organization and management," "capability of knowledge sharing and application for social benefit," and a strong sense of "professional ethics" in accordance with each specialized field of graduate studies.

- Microcosm of international society
- Cross-disciplinary learning environment
- Intensive team-based, active-learning curriculum
- Global network to support career building

Intensive team-based, active-learning curriculum

Career Center

Career Consultation

Guidance and seminar to assist your job hunting

The Career Center provides advisory services tailored to the needs of each student to help them plan their careers.

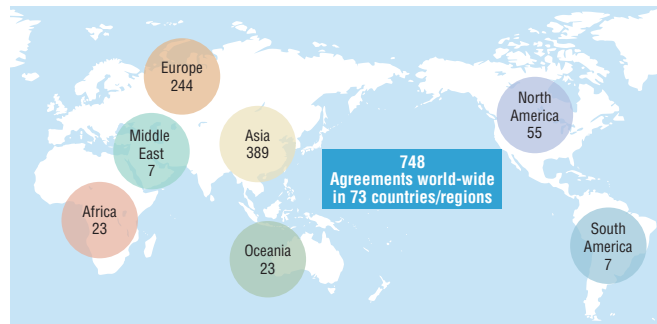

- Career consultations with career counselors.
- Browsing the alumni list, career supporter list, alumni's report of job hunting. (Japanese only)
- Guidance and seminar to assist your job hunting.
- E-mail distribution service of recruitment events.
- Acts as a gateway to internships.

Please check the website for opening hours.

Modern Japanese Studies Program (MJSP)

The Modern Japanese Studies Program (MJSP) is a four-year Bachelor's Degree program, preceded by a six-month Intensive Japanese Course for students without sufficient Japanese to enter the Bachelor's Degree program directly.

The program has four main characteristics:

- Intensive study of the Japanese language—students should be completely fluent on graduation
- The study of Japan in four main academic disciplines—history, cultural studies, sociology, and political economy
- Co-learning with Japanese students—students will take many classes with their Japanese peers
- A flexible curriculum that allows students to discover their Japan from the unique and multicultural vantage point of Japan's northernmost island

Students start by taking intensive Japanese courses alongside social sciences courses in English. Once students have sufficient Japanese, they may take courses in Japanese in the faculties of Law, Humanities and Human Sciences, Education, and Economics & Business.

Integrated Science Program (ISP)

The Integrated Science Program (ISP) is a cross-disciplinary educational science program for international students interested in pursuing a degree in the natural sciences in the Bachelor's and Master's. The program's strong cross-disciplinary nature aims to give students an excellent broad scientific education across the core scientific disciplines (physics, chemistry and biology) in the School of Science, while allowing them to specialize in their chosen fields in later years in accordance with their own interests. While students' main scientific studies are entirely in English, a multitude of additional courses such as business skills courses or leadership and management skills courses will be available in the liberal arts and Japanese language to ensure students receive a rich and fulfilling education while at Hokkaido University.

Hokkaido Summer Institute (HSI)

Hokkaido University (HU) started the Hokkaido Summer Institute (HSI) in 2016. The HSI is a program that brings together world-leading researchers with proven educational and research records, and provides educational courses in cooperation with HU faculty members.

The HSI offers more than 150 courses from June to October and allows more than 400 students from overseas universities and 1,500 HU students to expand their knowledge of subjects in research fields in which the university specializes.

Program participants have an opportunity to attend classes taught using attractive educational techniques such as field training utilizing Hokkaido's extensive land and active learning to develop human resources capable of thriving on the world stage.

The medium of instruction is English. This provides international students with a stress-free learning environment without having to worry about language barriers and also creates a special opportunity for Japanese students who can take classes taught by internationally acclaimed researchers. The university has high expectations that HSI students will cultivate a better understanding of other cultures and improve their English-language proficiency and communication skills through exchanges with researchers and students from other countries.

Learning Satellite (LS)

Hokkaido University (HU) has established learning satellites around the globe to offer courses to students from HU and overseas universities in line with its vision of becoming an institution that contributes to the resolution of global issues as stated in the Future Strategy for the 150th Anniversary of Hokkaido University. The Overseas Learning Satellite Project is an educational program under the Hokkaido Universal Campus Initiative (HUCI), a university reform program that was selected by the Ministry of Education, Culture, Sports, Science and Technology for the "Top Global University" Project.

By offering various programs around the globe that allow students from HU and from countries beyond Japan to learn together, this project aims to nurture talented individuals who are capable of contributing to the resolution of global issues and aims to promote collaboration between faculty members at HU and overseas universities in order to internationalize and enhance the quality of HU educational programs. The project aims to develop joint educational programs (e.g., double-degree programs and cotutelle programs) and research collaborations with overseas institutions.

One program for Global Goals (OGGs)

The One program for Global Goals (OGGs) is an Interdisciplinary Graduate Education Program for all graduate students of Hokkaido University, established for deepening their studies and broadening their perspectives by integrating three international joint education programs adopted under the MEXT's "Inter-University Exchange" Project, while utilizing the characteristics of each program.

The OGGs aims to develop human resources who can contribute to solving global issues and realizing a sustainable society in cooperation and collaboration with people from different countries, regions and organizations. It has a cross-disciplinary curriculum that covers a wide range of sustainability-related topics including SDGs from the basic to advanced levels.

The OGGs is based on international co-learning activities, with lectures, discussions and group work in English with students from overseas partner universities, and fieldwork in Japan and overseas. We offer 13 courses in the Hokkaido Summer Institute (HSI) and 3 courses in the Learning Satellite (LS).

Group work as international co-learning activities (in OGGs course of HSI)

Overseas field study (in OGGs course of LS)

Period	Facility	Research Area	Title	Type
FY2022–FY2027 (cont. from FY2010–2021)	Institute of Low Temperature Science	Low Temperature Science	Research Center for Low Temperature Science	Single type
FY2022–FY2027 (cont. from FY2010–2021)	Institute for Genetic Medicine	Basic Medicine Science	Joint Research Center for Cancers Induced by Chronic Bacterial and Viral Infections	Single type
FY2022–FY2027 only FY2010–2021: Single type	Institute for Catalysis	Fundamental Catalysis and Catalysis for Sustainable Society Catalysis informatics	Research Center for Catalysis	Network type •Osaka Metropolitan University Research Center for Artificial Photosynthesis •National Institute of Advanced Industrial Science and Technology Interdisciplinary Research Center for Catalytic Chemistry (Cooperating facilities)
FY2022–FY2027 (cont. from FY2010–2021)	Slavic–Eurasian Research Center	Area Studies	Japan Council of Russian and East European Studies	Single type
FY2022–FY2027 (cont. from FY2010–2021)	International Institute for Zoonosis Control	Zoonoses	Research Center for Zoonosis Control	Single type
FY2022–FY2027 (cont. from FY2010–2021)	Research Institute for Electronic Science	Materials and Devices	Network Joint Research Center for Materials and Devices	Network type (Core organization: The Institute of Scientific and Industrial Research, Osaka University)
FY2022–FY2027 (cont. from FY2010–2021)	Information Initiative Center	Computational science, Computer science	Joint Usage/Research Center for Interdisciplinary Large-scale Information Infrastructures	Network type (Core organization: Information Technology Center, The University of Tokyo)

Joint Usage/Education Center (5)

Period	Facility	Title	Type
FY2020–FY2024	Field Science Center for Northern Biosphere, Aquatic Research Station (Usujiri Fisheries Station, Nanae Freshwater Station, Oshoro Marine Station)	Joint Usage Center for Practical Field Education of Fisheries Biology in Hokkaido	Fisheries Station
FY2020–FY2024	Institute for the Advancement of Graduate Education (Center for Teaching and Learning)	Joint Usage Center for Faculty/Staff Development	Implementing Agency for Faculty/Staff Development
FY2021–FY2025	Oshoro-maru (Training Ship, School of Fisheries Sciences)	Joint Usage/Education Center for Training Cruises in Subarctic Marine Environment (Recertification)	Training Ship
FY2022–FY2026	Field Science Center for Northern Biosphere, Forest Research Station	Joint Usage Center for Practical Field Education of Forest Environment and Ecosystem Conservation (Recertification)	Experimental Forest, etc.
FY2022–FY2026	Field Science Center for Northern Biosphere, Aquatic Research Station (Akkeshi Marine Station, Muroran Marine Station)	International Joint Usage Center for Integrated Education of Marine Biology and Ecology in Cold-current Ecosystem (Recertification)	Marine/Lake Station

Collaborative Project Center (6)

Period	Project Center	Theme	Representative
FY2020–FY2024	Center of Education and Research for Quantum Topological Science and Technology (Recertification)	Quantum Topological Science and Technology	TANDA Satoshi, Professor, Faculty of Engineering
FY2020–FY2024	One Health Research Center	To establish a One Health research platform by an interdisciplinary team of researchers and clinicians	SAWA Hirofumi, Professor, Institute for Vaccine Research and Development (IVReD), Creative Research Institution
FY2022–FY2026	Center for Life Innovation (Recertification)	Formation of a strategic base for developing drug candidates	MAENAKA Katsumi, Professor, Faculty of Pharmaceutical Sciences
FY2022–FY2026	Center of Education and Research for Hokkaido Wines	Education and Research for sustainable development of Hokkaido Wines	SONE Teruo, Professor, Faculty of Agriculture
FY2022–FY2026	Cognitive Science Research Center	Promotion of top global cognitive science research, and realization a sustainable aging society that applies the achievements	YABE Ichiro, Professor, Faculty of Medicine
FY2023–FY2028	Research Institute for Information Law & Policy (Recertification)	Information Law & Policy	NAKAYAMA Ichiro, Professor, Graduate School of Law

Properties and Possessions

Data as of April 1, 2023

Division	Total Area (m ²)	Building Floor Area (m ²)	
Administration Bureau	313,196	43,854	
Hokkaido University Museum	16,086	24,631	
Hokkaido University Archive	4,677	1,545	
Graduate School/Faculty of Letters	25,746	36,624	
Graduate School/Faculty/School of Education			
Graduate School/School of Law			
Faculty/Graduate School/School of Economics and Business			
Nibutani House, Faculty of Letters			15,087
Shari House, Faculty of Letters	661	126	
School of Science	44,327	67,942	
Graduate School of Science			
Urakawa Seismological Observatory (KMU)	974	0	
Ermo Geophysical Observatory (ERM)	(Leased by Erimo Town)	251	
Minamishinkawa Seismological Observatory Well MSK	392	28	
Observation Point for Earthquake Prediction, Tunnel	(Leased by Konsen Seibu District Forest Office, etc.)	577	
Wells, Tide Gauge Station			
Usu Volcano Observatory (UVO)	3,598	505	
MatumaeOshima Seismological Observatory (MOS)	50		
Tomakomai Space Observatory	Shared with Tomakomai Experimental Forest	0	
Graduate School/Faculty/School of Medicine	Shared with Hokkaido University Hospital	54,913	
Graduate School/Faculty of Health Sciences		14,009	
Graduate School/Faculty/School of Dental Medicine		151,333	16,939
Hokkaido University Hospital		103,132	
Forensic Psychiatry Center	(Leased by country)	4,030	
Faculty of Pharmaceutical Sciences/School of Pharmaceutical Sciences and Pharmacy	20,014	16,636	
Graduate School/Faculty/School of Engineering	131,831	123,737	
Graduate School/Faculty/School of Agriculture	57,791	46,842	
Graduate School/Faculty/School of Veterinary Medicine	40,859	17,345

[Access guide]

By JR line:
Get off at Sapporo Station, 7 minutes walk to the Main Gate.
By Sapporo subway:
If you take Namboku line or Toho line, get off at Sapporo Station, 10 minutes walk to the Main Gate.
If you take Namboku line, get off at Kita junji jo Station, 4 minutes walk to North 13 Gate or get off at Kita juhachi jo Station, 7 minutes walk to North 18 Gate.

◇ The names for graduate schools located in the same building as the faculty are omitted
◇ () indicates other faculty

- 18 The Open University of Japan; Hokkaido Study Center
- 16 Health Care Center
- 20 Education and Research Center for Mathematical and Data Science
- 21 Center for Natural Hazards Research
- 22 Center for Human Nature, Artificial Intelligence, and Neuroscience (CHAIN)
- 23 Center for Advanced Human Resource Education and Development, Institute for the Advancement of Graduate Education

Research Institutes/Centers (North Campus Area)

- 1 Creative Research Institution (CRIS)
- 2 Institute for the Promotion of Business-Regional Collaboration (Center for Innovation and Business Promotion, Startup Creation Department)
- 3 Hokkaido Collaboration Center
- 4 Social and Regional Emergence Department, Institute for the Promotion of Business-Regional Collaboration
- 5 Platform for Research on Biofunctional Molecules (PRBM)
- 6 Frontier Research Center for Advanced Material and Life Science
- 7 Arctic Research Center
- 8 Institute for Catalysis
- 9 Research Institute for Electronic Science
- 10 Green Nanotechnology Research Center
- 11 Research Center of Mathematics for Social Creativity
- 12 International Institute for Zoonosis Control
- 13 Institute of Low Temperature Science
- 14 Veterinary Teaching Hospital
- 15 Institute for Vaccine Research and Development (IVReD)
- 16 Institute for Chemical Reaction Design and Discovery (WPI-ICReDD)

Facilities

- 1 Conference Hall
- 2 Clark Memorial Student Center
- 3 Career Center
- 4 Centennial Hall
- 5 Furukawa Hall
- 6 Humanities and Social Sciences Classroom Building
- 7 "Kodomo No Sono" Child Care Center
- 8 Faculty House Trillium
- 9 Experiment Farm
- 10 Student Services
- 11 Multimedia Education Building
- 12 Gym
- 13 Enyu Gakusha Community Hall
- 14 Sports Training Center
- 15 "Tomoni" Child Care Center
- 16 Student Communication Station
- 17 School of Medicine Centennial Hall

Libraries

- 1 Central Library
- 2 North Library

Dorms

- 1 Hokkaido University International House Kita 8 (Kita 8 Nishi ri)
- 2 Keiteki-Ryo Student Dormitory (Kita 18 Nishi 13)
- 3 Hokkaido University International House Kita 23 (Kita 23 Nishi 13)
- 4 Foreign Scholars' Accommodation (Kita 24 Nishi 12)

Tourist Spots

- 1 Sakushukotoni River
- 2 Central Lawn
- 3 Bust of Dr. William S. Clark
- 4 Elm Grove
- 5 Former School of Agriculture Library
- 6 The Hokkaido University Museum
- 7 Monument to First Artificial Snow Crystal
- 8 Ono Pond
- 9 Monument in Honor of Dr. Inazo Nitobe
- 10 Flowering Tree Garden
- 11 Poplar Avenue
- 12 Ginkgo Avenue
- 13 Heisel Poplar Avenue
- 14 Site of Old Village
- 15 The Second Farm (Model Barn)
- 16 Botanic Garden

Cafeterias/Restaurants/Stores

- 1 Information Center "Elm Forest Shop"
- 2 Hokkaido University (HU) Co-op
- 3 Clark Cafeteria
- 4 Chuo Cafeteria, HU Co-op
- 5 Seicomart
- 6 Restaurant Royal
- 7 Hokubu Cafeteria, HU Co-op
- 8 Restaurant Poplar
- 9 Hokudai Marche Café and Labo
- 10 7-Eleven, Hokkaido University School of Engineering store

Information Center "Elm Forest Shop"

The University Information Center is located just inside the main gates of Sapporo Campus. Visitors can browse information regarding campus events as well as enjoy refreshments on the outdoor patio. The Center also carries original Hokkaido University merchandise.

Opening hours:
8:30-17:00

Closed:
December 29-January 3

University Organization

- 1 Administration Bureau
- 2 Office of Diversity, Equity, and Inclusion
- 3 Hokkaido University Hospital
- 4 Dental Clinical Division of Hokkaido University Hospital
- 5 Admission Center
- 6 Institute for the Advancement of Higher Education
- 7 Institute for the Advancement of Graduate Education

Graduate Schools, Faculties and Schools

- 1 Graduate School of Humanities and Human Sciences
- 2 Graduate School of Law
- 3 Graduate School of Economics and Business
- 4 Graduate School of Education
- 5 Graduate School of International Media, Communication, and Tourism Studies
- 6 Graduate School of Public Policy
- 7 Graduate School of Medicine
- 8 Graduate School of Biomedical Science and Engineering
- 9 Graduate School of Dental Medicine
- 10 Graduate School of Veterinary Medicine
- 11 Graduate School of Infectious Diseases
- 12 Graduate School of Health Sciences
- 13 Graduate School of Information Science and Technology
- 14 Graduate School of Environmental Science
- 15 Graduate School of Science
- 16 Graduate School of Agriculture

- 17 Graduate School of Global Food Resources
 - 18 Graduate School of Life Science
 - 19 Graduate School of Engineering
 - 20 Graduate School of Chemical Sciences and Engineering
 - 21 Faculty of Pharmaceutical Sciences
 - 22 Faculty of Advanced Life Science
- Note: The Graduate School of Fisheries Sciences is located at Hakodate Campus

Research Institutes & Centers

- 1 Center for Ainu & Indigenous Studies
- 2 Hokkaido University Press
- 3 Hokkaido University Archives
- 4 Slavic-Eurasian Research Center
- 5 Center for Experimental Research in Social Sciences
- 6 Information Initiative Center North/South Bldgs.
- 7 Archaeological Research Center
- 8 Center for Environmental and Health Sciences
- 9 Field Science Center for Northern Biosphere
- 10 Research Center for Integrated Quantum Electronics
- 11 Proton Beam Therapy Center
- 12 Research and Education Center for Brain Science
- 13 Institute for Genetic Medicine
- 14 Central Institute of Isotope Science
- 15 Frontier Research in Applied Sciences Bldg.
- 16 Center for Language Learning
- 17 Center for Advanced Tourism Studies

Satellite Offices

① Tokyo Office

Sapia Tower 10 F, Marunouchi 1 chome 7-12, Chiyoda-ku, Tokyo 100-0005
Tel & Fax: +81-3-3211-2055
E-mail: tokyo@general.hokudai.ac.jp
Office Hours: Weekdays 10:00-18:00
(Closed Saturdays, Sundays, and Dec. 29-Jan. 3)

② Africa Office in Lusaka

c/o Department of Disease Control, School of Veterinary Medicine, University of Zambia (Great East Road Campus), P.O. Box 32379, Lusaka 10101, Zambia
E-mail: lusaka_office@oia.hokudai.ac.jp
Office Hours: Weekdays 9:00-12:00, 13:00-16:30
(closed on Saturdays, Sundays, and Zambian national holidays)

HOKKAIDO UNIVERSITY

The Trillium flower is symbolic of Hokkaido University and used as its official logo. In this design, the flower symbolizes “human” by combining intelligence, individuality, and diversity. The overlapping elegant lines of the flowers represent human relationships and knowledge. The flowers’ silhouettes reflect academic and contemporary values, suitable for Hokkaido University.

Public Relations Division
