Founded in 1876 as Sapporo Agricultural College, Hokkaido University is one of the oldest, largest and most prestigious universities in Japan. The university also has one of Japan’s most beautiful campuses. Green spaces, forests, and creeks are spread throughout its campuses located in the cities of Sapporo and Hakodate, which experience distinct seasonal changes throughout the year. The university offers diverse degree programs for international students and places great emphasis on research in the sciences and humanities. It also houses cutting-edge research facilities, a university hospital, and a wide variety of field research centers.

## Sapporo Campus

Located in the center of Sapporo, the 5<sup>th</sup> largest city in Japan, this extensive campus is often hailed as one of the most beautiful campuses in the country.

Housing most the university's buildings and laboratories, a museum, and a hospital, it is open to the public and is particularly busy during the Hokkaido University Festival in summer and Golden Leaf Festival in autumn.

## Hakodate Campus

Opened in 1935, this campus is one of the largest in Japan dedicated to fisheries research.

NOTE Hokkaido University has in place a scheme to allow students to graduate early if they show continued motivation and exceptional aptitude in their studies. This reduces the duration of the undergraduate course from 4 to 3.5 years. A similar initiative is in place for the Master's component, reducing course duration from 2.0 to 1.5 years, but is only offered at the discretion of the individual graduate schools.
