1	Partner university name	Asian Institute of Technology, School of Engineering and Technology
2	Overview of the program	DDP is educational program established by official agreement between the Graduate School of Engineering, Hokkaido University and partner universities. The goal of the program is to foster globally competitive individuals, engineers and researchers, who possess in-depth knowledge, are equpped with up-to-date technologies, have a global mindset, and are able to work, taking leadership in various fields. The Asian Institute of Technology (AIT) is an international English-speaking postgraduate institution, focusing on engineering, environment, and management studies. AIT's rigorous academic, research, and experiential outreach programs prepare graduates for professional success and leadership roles in Asia and beyond. School of Engineering and Technology, AIT has an echange agreement with Graduate School of Engineering, Hokkaido University.
3	Master students or Ph.D. student	MC
4	Eligibility	(Receiving) Thesis: The language to be used is English. Number of thesis: One thesis will be submitted to each Univresity.
5	Schedule	(Receiving) Period of enrollment : (HU) 24 months (AIT) 28 months Enrollment: April or October The Participating Candidate should stay and study at host University for a total of at least two semesters in principle.
6	Acquirable degree	(HU) Master of Engineering (AGH) (To be confirmed)
7	Cost	(Receiving) HU will waive fees for entrance examinations, admission and tution.
8	Contact	Prof. Kunihiro Kishi, Faculty of Engineering
