# Hokkaido University Sustainability Weeks 2007 Annual Report

Secretariat of Sustainability Weeks
Hokkaido University

March, 2017

## About This Document

This is the annual report of the Sustainability Weeks which is a campaign Hokkaido University launched in 2007 to promote research and education for the realization of a sustainable society. This mainly consists of PDF files converted from the website of the Sustainability Weeks 2007.

To keep the records as of when the events were held, some pages include out-of-date information, website links, and contact information which is not valid currently.

This is the English annual report of Sustainability Weeks 2007. Its Japanese version and other years' annual reports of Sustainability Weeks are available on the website as well. We are glad if you refer to them for your better understanding.

Also, please understand that it is difficult to answer inquiries about the event details since the only event planners and host members at that time have detailed information. We hope this document helps you somehow to contribute to achieve a sustainable society.

## Features of This Year

· Event period: Sat, October 20 – Wed, October 31, 2007

Number of participants: approx.800

Number of events: 6

- · Points worth special mention:
  - The Promotion Committee for the Hokkaido University Initiative for Sustainable Development (HUISD), headed by the University's president, launched the Sustainability Weeks (SW) program to build the University's brand and give publicity to the University's international activities in the field of sustainable development.
  - In the run-up to the July 2008 G8 Hokkaido Toyako Summit, at which the leaders of the Group of Eight major economies met to discuss global issues, the Promotion Committee for HUISD established a working group for the summit and also decided to launch the Sustainability Marathon campaign, including SW 2007, from September 2007 to July 2008. The campaign was intended to promote research and education toward the development of a sustainable society through the organization of international symposiums and public lecture meetings on related topics.
  - As part of the Sustainability Marathon, a total of 29 programs (including SW 2007) were implement in academic year 2007 (from September 2007 to March 2008).
  - In parallel with the SW program, Hokkaido University strengthened its collaborative relationship with the United Nations University. To promote the integration of sustainable development into graduate education, the University decided to join the initiative of the United Nations University Institute for the Advanced Study of Sustainability (UNU-IAS) to establish the Promotion of Sustainability in Postgraduate Education and Research network (ProsPER.Net), a consortium of leading higher education institutions in the Asia-Pacific region that are committed to sustainable development. It was also decided that an inaugural meeting of the Network be held at Hokkaido University during the Sustainability Weeks in the following year. Hokkaido University and United Nations University also cohosted the United Nations University Global Seminar 7th Hokkaido Session: Forests and the Environment in the Era of Globalization -Considering Global Sustainability in Hokkaido on the University's Sapporo Campus and Tomakomai Experimental Forest premises from August 22 to 25. The event attracted 33 college students.

# 市民向け 公開講座 《第2弾》

# 世界はいかに 地球温暖化に立ち向かうのか?

地球環境問題を話し合う "G8北海道洞爺湖サミット"が2008年に開催されるのに先駆け 北海道大学は、環境課題に関するこれまでの研究成果を市民の皆様に公開しています。

市民講座・第2弾では、地球温暖化を食い止めようとする国際的な動きについて最新情報をご提供します。

10年前、地球温暖化がこれ以上進行しないようにと願う幾つかの国が集まって『京都議定書』という名の国際ルールを作りました。その有効期限が、2012年で切れます。そこで、京都議定書に代わる新しい国際ルールを作るための会議が、12月にインドネシア・バリで開催されます。この新ルールは、経済や生活などに大きな影響を与えます。G8各国は新ルールに極めて高い関心を持っており、来年8月に開催されるG8北海道洞爺湖サミットでもルールの中身が話し合われる予定です。

この"新ルール"に係わる世界の国々の動きについて関心のある方、国際会議の焦点をより一層理解したい方は、ぜひ第2回市民講座にご参加ください。

\*気候変動枠組条約第13回締約国会議のこと。通称COP13 (コップ13) と呼ばれる。

#### Japan-Russia Youth Exchange Forum on 24 & 25 Sep.

Sep. 24-25, 2007 (Finished)

Hokkaido University and Japan Russia Youth Exchange Center will co-host the "Japan-Russia Youth Exchange Forum" on 24 and 25 September 2007 at Hokkaido University, Japan.

Hokkaido University has extensive cooperation with Russia through its various departments/institutes including the Slavic Research Center which has been making noteworthy achievements for Slavic and Eurasian Studies. After the first forum held in Moscow in 2006, HU is privileged to be selected as the co-host for the second forum which is to enhance understandings and friendships among youth in Russia and Japan.

The forum provides sixty promising youths from Russia and Japan for an opportunity to discuss on future-oriented relations for sustainable development. Youth would also engage in various activities through which they are expected to build a basis for lasting friendships.

#### Japan Russia Student Forum 2007 at 24-25 Sep.

Sep. 24-25, 2007 (Finished)

The Japan Russia Student Forum 2007 was held at Hokkaido University (HU), Japan on September 24 and 25, 2007. This forum, titled "Japan and Russia -Sustainable Development of Future Oriented Relationship", was co-hosted by the Japan-Russia Youth Exchange Center and HU. It aimed to provide university students in Japan and Russia the opportunity to discuss future relationships between their countries, recognize through such discussions the importance of developing bilateral relations, and lay the foundation for future exchanges.

As Japan's only university which established a complihensive slavic research institute, Slavic Research Center, HU was privileged to co-host the forum. Through this opportunity, HU could introduce its strong relations with Russia as well as strategic activities concerning sustainable development around the Sea of Okhotsk.

(Photo: Address by Mr. Mikhail Bely, Ambassador of the Russian Federation to Japan)

#### **Program**

The first forum was held at Lomonosov Moscow State University last year, and the second forum this year witnessed the participation of 32 Japanese, including five HU students (two undergraduate and three graduate students) and 30 Russians.

Students from both countries were divided into three groups to discuss under the main theme of "Japan and Russia -Sustainable Development of Future Oriented Relationship". Students actively exchanged opinions in English.

#### **Group Discussion Theme**

- Role of Japan and Russia for Stable Development of the Asia-Pacific Region
- Cultural Exchange between Japan and Russia in the Globalization Era -Seeking a New Cultural Frontier
- Partnership of Japan and Far East Russia, From a regional point of view

At the plenary session on the second day, results of opinion exchanges were reported from each group. It was pointed out that the reinforcement of Japan-Russia relations will contribute to the stable development of the entire Asia-Pacific region and that strengthened regional exchanges between the Russian Far East and Hokkaido: for example, economic, educational and sister-cit y exchanges. Those exchanges will help improve bilateral relations. The importance of removing stereotypes through cultural exchanges was also pointed out. Akihiro IWASHITA, Professor, Slavic Research Center then summarized the session and brought it to a close.

During the two-day forum, all sorts of programs continued, such as the luncheon hosted by President SAEKI, HU, and the barbecue party on the evening of the first day. Students enjoyed downtown Sapporo and the hands-on experience of Japanese culture at Jozankei Hot Springs on the second day. Japanese and Russian students deepened their mutual understanding through these programs. After the programs in Sapporo, Russian students participated in programs in Tokyo before heading home.

## セミナーのねらい Objectives

国連大学グローバルセミナーは、現代社会が直面している地球規模の問題と国際連合の取り組みについての意識を高めることを目的に開催されています。第7回北海道セッションは、「グローバル化時代の森林と環境〜北の大地で考えるサステイナビリティ〜」をテーマに、札幌市の北海道大学と苫小牧研究林で開催されます。次世代によりよい環境を引き継いでいくためには、どのような取り組みが必要かなど、グローバルな課題を、実際に森林に身を置き、地域における自然環境保全活動や、エネルギー問題などへの取り組みに関するフィールドワークを通じて考えます。本セミナーでは北海道大学「持続可能な開発」国際戦略本部が取りまとめ役となり、森林に関係する多彩な講師が参加します。受講生は内外の専門家を含む講師との意見交換や学生同士の討論を行い、グループで発表を実施するプロセスを学ぶことができます。また、セミナーを通じて、参加者がテーマに関する知識のみならず、コミュニケーション能力やプレゼンテーション能力を身につけることも目的としています。

本セミナーは3泊4日の合宿形式です。最初の3日間は北海道大学が所有する苫小牧研究林研修棟に滞在し、グループ毎にわかれフィールドワークを通じて持続可能性の観点から森林関連の問題を視察・検討します。フィールドワークは、2日間にわたり、次の3つの課題別に分かれて行われます。コースA:「人と森との共生」白老町で進められている市民を中心とした里山づくりに関するフィールドワーク。コースB:「地域の持続的森林管理と資源循環」むかわ町におけるバイオマスによる木質ペレットやその資源化。コースC:「自然環境の保全」ウトナイ湖・支笏洞爺国立公園(環境省)や支笏湖周辺の国有林(北海道森林管理局)における自然環境保全の取り組み。また、最終日には、北大キャンパス情報教育館多目的中講義室に場所を移し、参加者によるグループ毎の発表及び公開講座を実施します。

UNU Global Seminars are conducted annually in several locations throughout Japan and abroad to enhance awareness among students and young professionals about contemporary global issues and the role of the United Nations in addressing them. The 7th Hokkaido Session will be held in August at Hokkaido University (Sapporo) and the Tomakomai Experimental Forest. The theme of this year's session is "Forests and the Environment in the Era of Globalization - Considering Global Sustainability in Hokkaido". The Hokkaido Session will provide an opportunity for participants to discuss what we must do to preserve a healthy environment for the next generation. During fieldwork, participants will explore this global environmental challenge by observing sites where local residents are actively working on environmental conservation and energy issues. The Hokkaido University Initiative for Sustainable Development (HUISD), which will play a coordinating role for the session, has invited a variety of forestry experts to give lectures. Participants will learn the process of making a group presentation through discussing the issues among themselves and exchanging views with the lecturers. Thus, participants not only will be able to acquire knowledge in this area but also will have an opportunity to improve their communication and presentation skills.

The seminar will be structured as a four-day, three-night camp. The first three days will be based at Hokkaido University's Tomakomai Experimental Forest Training Centre. Participants will be divided into several smaller groups to inspect sites facing forest management challenges and to discuss existing problems from the viewpoint of sustainability. The fieldwork will focus on three diverse themes. Course A, "Harmonious coexistence of humans and forests", will include fieldwork in Shiraoi Town, where city residents are working to construct "satoyama" (a natural, harmonious environment of human life and diverse ecosystems, such as forests). Course B, "Community-based forest management and resource recycling", will incorporate fieldwork in Mukawa-cho, where wooden pellets are produced by a biomass technology and utilized as a resource. Course C, "Conservation of the environment", will involve fieldwork at the National Park of Lake Utonai and Shikotsu (Ministry of the Environment) and national forests (Hokkaido Regional Forest Office). The final day of the Hokkaido Session will be held in the Lecture Hall of the Information Education Center at the Hokkaido University Sapporo Campus. Activities will include group presentations by the participants and a public lecture.
